

LEVEL 1 • TERM 4 • LESSON 6 • FOR PARENTS

6 Count Everything

WHAT WE DID

We counted with a system: by rows, by groups and with a list that has a rule. We counted handshakes, outfits and squares of every size, so that none is missed and none is counted twice. Handshake Party (every pair once, counted with a system) goes past the Primary 1 syllabus on purpose.

> **A system means you miss none and count none twice.**

TRY AT HOME (5 MINUTES)

1. Count the handshakes for 3, then 4 family members. Count only the new ones.
2. Lay out 2 tops and 3 pairs of socks. How many outfits?
3. List every pair that makes 10. When do the pairs repeat?

When your child is stuck

Let your child use paper people, coins or drawings, and wait 10 seconds before helping. Please do not give the answer: ask "Which one is new?" or "Is that a repeat?" If the look-back page says 'I am still stuck', photograph it and send it to our business WhatsApp (+65 9880 5962). Photos are kept 90 days after the program ends.

Words we used

- system: a way of counting that misses none and counts none twice
- handshake: A with B is the same as B with A
- list: pairs written with a rule

Good questions

- How did you make sure you missed none?
- Is that the same pair twice?

Have ready for next lesson

- Your Term 4 book (Book 8): the graph-mat page is in the book. No cutting is needed
- About 12 small things from around the house in 3 or 4 kinds (spoons, socks, buttons). Not food. No small things? Draw 12 things on paper
- Coloured pencils (optional), a pencil, a rubber and paper

Next lesson

Next lesson: Make Your Own Graph. Online practice: your tutor will share the link. The recording has the tutor, the shared screen and any voice that is unmuted. Please do not share the link. Missed a lesson? Every lesson is recorded; your tutor will share a private link with enrolled families.
