COUNT EVERYTHING!

Name _____ Date _____

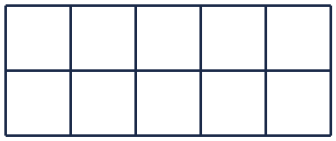

After question 3 you may choose: carry on, or try **Think harder**.

Count by rows. Touch each one once so you miss none and count none twice.

No.S1

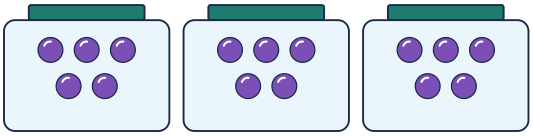

Count the squares by rows.

There are ☐ squares.

No.S2

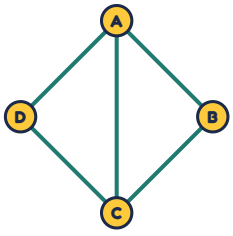

There are 3 jars. Each jar has 5 marbles.

There are ☐ marbles in all.

No.S3

Each line joins two dots.

There are ☐ lines.

Name _____ Date _____

Use a list with a rule. Count the rows, then add.

No.S4

Every pair of numbers makes 9. Fill in the missing numbers.

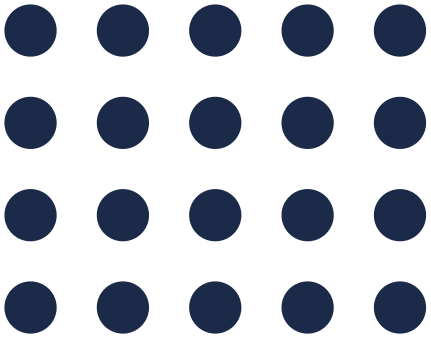

(a) 2 + ☐ = 9

(b) 3 + ☐ = 9

(c) 4 + ☐ = 9

No.S5

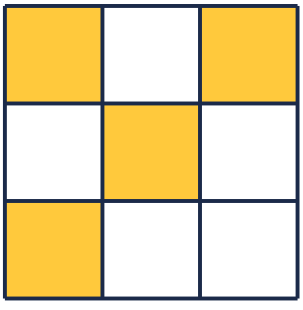

Count the dots by rows.

There are ☐ dots.

No.S6

There are 9 squares. Some squares are yellow.

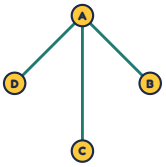

☐ squares are not yellow.

Name _____ Date _____

Use your paper people or draw. Choose any question, in any order.

No.T1

Handshake Party. Four children, A, B, C and D, shake hands once with each other. A has already shaken hands with B, C and D.

(a) B shakes hands with ☐ more children.

(b) C shakes hands with ☐ more child.

(c) There are ☐ handshakes in all.

No.T2

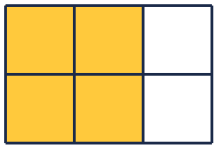

Mei has 4 tops and 2 pairs of shorts. Each box is one outfit.

	shorts 1	shorts 2
top 1	☐	☐
top 2	☐	☐
top 3	☐	☐
top 4	☐	☐

There are ☐ outfits in all.

No.T3

A big square is made of 4 small squares, like the yellow one.

(a) There are ☐ small squares.

(b) There are ☐ big squares.

(c) There are ☐ squares in all.

No.T4

Six children have 3, 5, 6, 8, 9 and 11 stickers. Two children together have 14 stickers. Find every pair. Start with the child who has 3.

(a) 3 + ☐ = 14

(b) 5 + ☐ = 14

(c) 6 + ☐ = 14

Name _____ Date _____

Count only the new ones. Choose any question. You do not have to finish them all.

No.G1

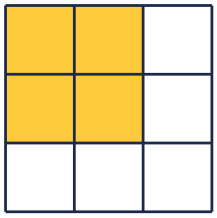

Handshake Party. Children shake hands once with every other child. Think of A, B, C and so on. Use your paper people if you like.

(a) 5 children: ☐ handshakes.

(b) 6 children: ☐ handshakes.

No.G2

A grid is 3 squares across and 3 squares down. Count the squares of every size. The yellow one is a 2 by 2 square.

(a) Small squares: ☐.

(b) 2 by 2 squares: ☐.

(c) 3 by 3 squares: ☐.

(d) All the squares: ☐.

No.G3

Look at the table of roads.

From	To	Roads
Home	Park	2
Park	School	4
Home	School	1

(a) ☐ ways go through the Park.

(b) Add the direct road. There are ☐ ways in all.

Name _____ Date _____

Investigation: Every pair that makes 7

First: Two numbers make 7. 1 + 6 = 7. Write the next pair: 2 + _____ = 7.

Next: Now list every pair that makes 7. Stop when the pairs repeat. How do you know you have them all?

Exit ticket

On your own, at the end of the lesson. No looking back.

No.E1

Count the squares by rows.

There are ☐ squares.

No.E2

Each box is one way to wear a hat and a scarf.

	scarf 1	scarf 2	scarf 3
hat 1	☐	☐	☐
hat 2	☐	☐	☐
hat 3	☐	☐	☐

There are ☐ ways.

No.E3

Four friends, A, B, C and D, make pairs. Here are 5 of the 6 pairs: AB, AC, AD, BC, BD.

The missing pair is _____.

Look-back There are no right answers. You can pass. Nobody reads it out.

Something I did well:

The hardest part was … ☐ handshakes ☐ squares ☐ the list of pairs ☐ something else

What helped me: ☐ my paper people ☐ a system ☐ a list ☐ I was not stuck

Next time I will try: ☐ counting with a system ☐ handshakes ☐ listing pairs ☐ asking a question

☐ I am still stuck (my grown-up will photograph this page for my tutor)

☐ I would like to pass

Name _____ Date _____

Kit page: paper people

A grown-up cuts out the 8 paper people before the lesson. Children stand them on the table. No cutting? Use 6 coins or buttons.

Print this page on its own sheet, or on one side only, so cutting never spoils another page. A grown-up cuts; children do not use scissors. Keep the pieces in an envelope with your name. We use them again.
