What this is

Twenty single-page maths puzzles for Primary 2 pupils who finish their work early. This is Semester 1 of two booklets (Terms 1 and 2). Each page stands alone, so you can hand out one page or keep a tray of pages. The pupil needs no help to start.

Which terms

The pages are grouped by the order in which Primary 2 topics are typically taught: this booklet follows Terms 1 and 2, the other booklet follows Semester 2 (Terms 3 and 4). Schools vary, so check your scheme of work: use a page whenever its topic has been taught, from either booklet.

Stars

One star pages practise a topic as it is usually taught (9 pages). Two star pages use the same topics with two steps or two clues to combine (3 pages).

How the pages check themselves

The boxed strip at the foot of each page tells the pupil how to check. The check shows that something is wrong. It does not give the answer, and it asks the pupil to see whether the answer makes sense. Every answer box and every letter box must be filled: a box left blank gives no letter, and the check cannot see it.

- **Code word.** The answers give letters that spell a word. The strip gives no hint of the word. Each word can be spelt from its letters in one way only, so answers in the wrong boxes never make another word. A box left empty gives no letter and is not seen by the check.
- **Route.** The line must reach FINISH through the stated number of boxes, and every box on it must follow the rule on the page.

Marking is not needed. To spot-check, look only at the check strip.

How the checks were tested

A script tried every single wrong answer and every wrong arrangement on every page. Each check rejected at least 95% of them. A wrong answer that spells any of about 129 000 English words counts as not rejected. Two wrong answers at once were not all tested.

Teacher notes: using the pages (DRAFT)

Using the pages

- **Time.** Most pages take 5 to 15 minutes.
- **If the check fails.** The pupil goes back, looks for the slip, and asks a friend or you if still stuck.
- **Stars.** One star: one skill, as usually taught. Two stars: the same topics with two steps or two clues to combine.
- **Drawings.** Pictures of rulers, scales, clocks, coins and notes are original drawings, not to scale unless a page says so. Coins and notes are inspired by Singapore money, drawn larger than real and in black and white.

Photocopying

All pages are black and white with solid lines, so they copy cleanly. Each page is one side only. Pupils write on the page: the boxes are large for young hands. Use A4 and print at 100% (actual size).
