

2 Number Words and the Number Line

WHAT WE DID

Every number has a spot on a number line and a name. Your child built a number line from cut-out cards, hopped a toy along it, read number names such as fourteen and forty, and found which two tens a number sits between. Reading numbers and the number line is Primary 1 work. Deciding which ten a number is nearer to goes beyond school, and is in Think harder. Each week we suggest Home Practice (about 15 minutes); pages 3 to 5 and online practice are optional.

> **Every number has a place and a name. The tens marks help us find it.**

TRY AT HOME (5 MINUTES)

1. Number path: put the number cards in a row, 0 to 10, then the tens 0 to 100. Say 63 and let your child place a toy between the two tens. Which ten is nearer? Keep small things away from mouths and little ones.
2. Number detective: look at house numbers, page numbers or lift buttons. Ask: which two tens is it between? How many hops to the next ten?
3. Say it, write it: say a number name such as seventy-two and ask for the digits. Swap roles and make a mistake on purpose (thirteen written as 30) for your child to find.

When your child is stuck

Please let your child hop a toy along a paper line or draw one, and wait 10 seconds before helping. Teen and ty sound alike: say them slowly together. Please do not hurry. If the look-back page says 'I am still stuck', photograph it and send it to our business WhatsApp (+65 9880 5962). Photos are kept 90 days.

Words we used

- number line: numbers in order along a path, each with its own spot
- teen: ten and some more (fourteen is 14)
- ty: tens (forty is 4 tens, 40)
- between: after one number and before the next
- nearer: fewer hops away on the line

Good questions

- Which two tens is it between?
- How many hops to the next ten?
- How do you know?

Have ready for next lesson

- Digit cards 0 to 9, two sets (cut out, or written on scraps)
- Tens bars and ones squares, cut out
- Pencil, rubber and paper

Next lesson

Lesson 3: Digit Cards. Online practice: your tutor will share the practice link. The recording has the tutor, the shared screen and any voice that is not muted; your child may mute and keep the camera off. The recording link is private to your family: please do not share it. Missed a lesson? Every lesson is recorded; your tutor will share a private link with enrolled families.
