Teacher notes

What this is

Twenty single-page maths puzzles for Primary 1 pupils who finish their work early. Each page stands alone, so you can hand out one page or keep a tray of pages. The pupil needs no help to start.

Stars

One star pages practise a topic as it is usually taught (10 pages). Two star pages use the same topics with more steps or more clues (10 pages). Pages can be used in any order.

Every page checks itself

The boxed strip at the foot of each page tells the pupil how to check. The check shows that something is wrong. It does not give the answer.

- **Code word.** The answers give letters that spell a word.
- **Hidden picture.** Shading the right boxes makes a picture.
- **Route.** The path must reach FINISH.
- **Grid.** One tick in each row and column.
- **Total.** Every line or the whole count must make the stated total.

Marking is not needed. To spot-check, look only at the check strip.

Photocopying

All pages are black and white with solid lines, so they copy cleanly. Each page is one side only; the back of a copy stays blank. Pupils write on the page: the boxes are large for young hands. Use A4.
