LESSON 3 • TERM 2 • LEVEL 1

Doubles

Doubles and Near Doubles: double, then adjust

TODAY WE WILL

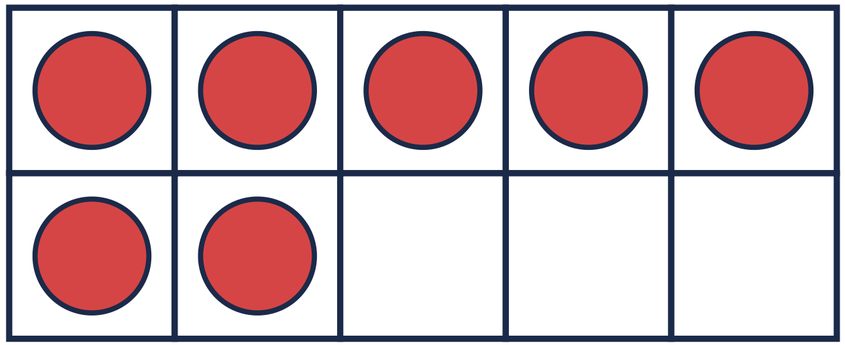

Find doubles, then use them to add.

Warm-up: fill the ten-frame

2–8 MIN

Show it on your fingers

A ten-frame has 10 spaces. How many more counters make 10?

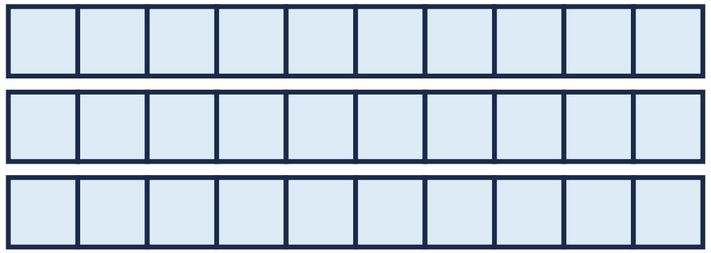

7 4 **9** 6 **8**

Fingers ready? Let us go!

Tens and tens

2–8 MIN

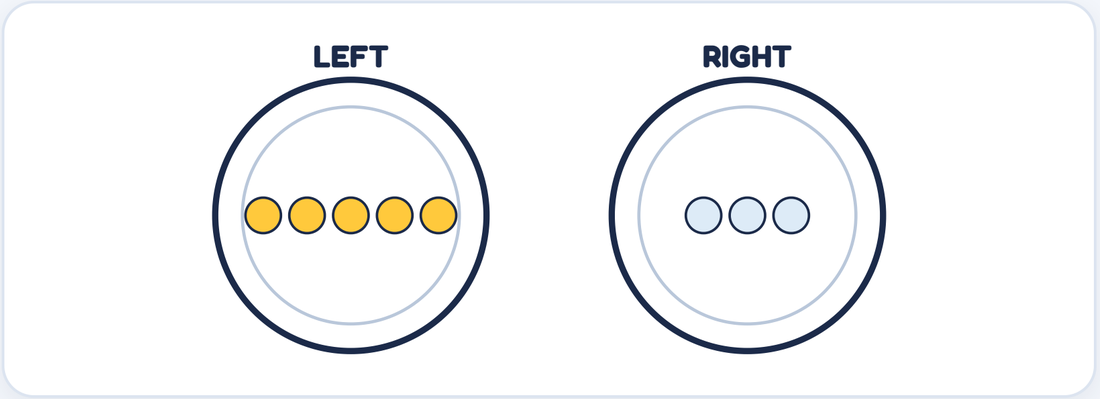

3 tens

3 tens and 3 tens make ___ tens. That is the number ___.

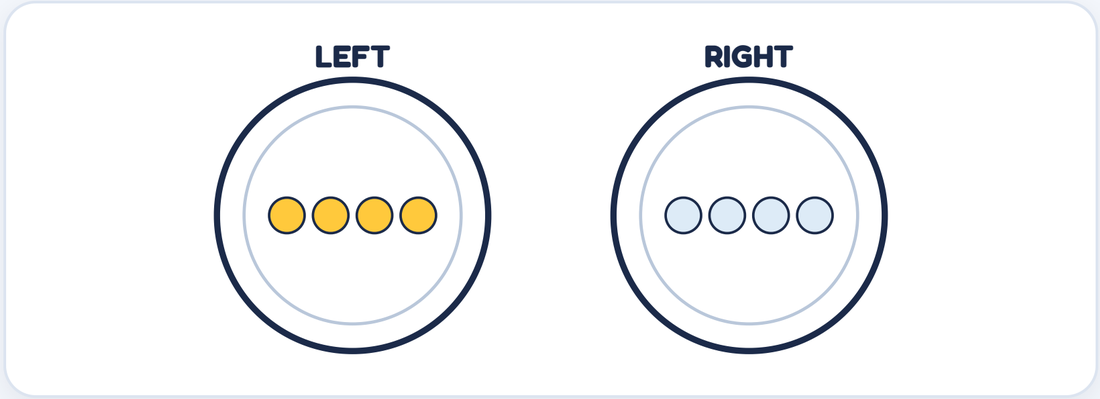

3 tens + 3 tens | **2 tens + 2 tens** | **4 tens + 4 tens**

The same on both sides

2–8 MIN

5 + 3

4 + 4

Move 1 counter across. The total stays the same.

6 + 2 = 5 + ___

7 + 1 = 6 + ___

Sneak-peek puzzles

8–12 MIN

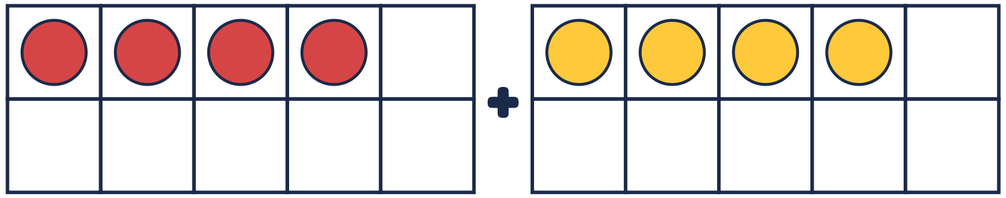

Ideas we have not learnt yet. A guess is a great start. Nobody is marked.

PUZZLE 1: anyone can try

Mei puts 4 red counters in one frame and 4 yellow counters in another frame.

How many counters are there altogether?

You may draw to help.

PUZZLE 2: think

Ben knows that 6 + 6 = 12.

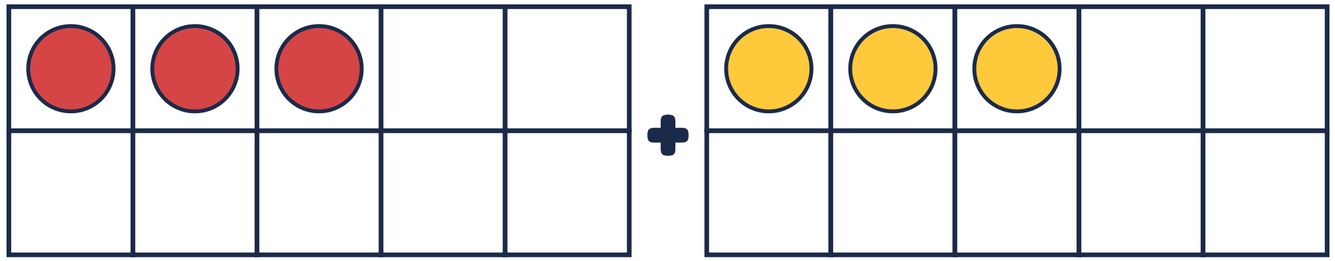

He says that 6 + 7 is 1 more than 12.

Is Ben right? Circle Yes or No. Then write or draw how you know.

Explore: build a double

12–27 MIN

1. Lay the ten-frame page in front of you.
2. Put 3 red counters in one frame.
3. Put 3 yellow counters in the other frame.
4. How many altogether? Then try 4 and 4, and 5 and 5.

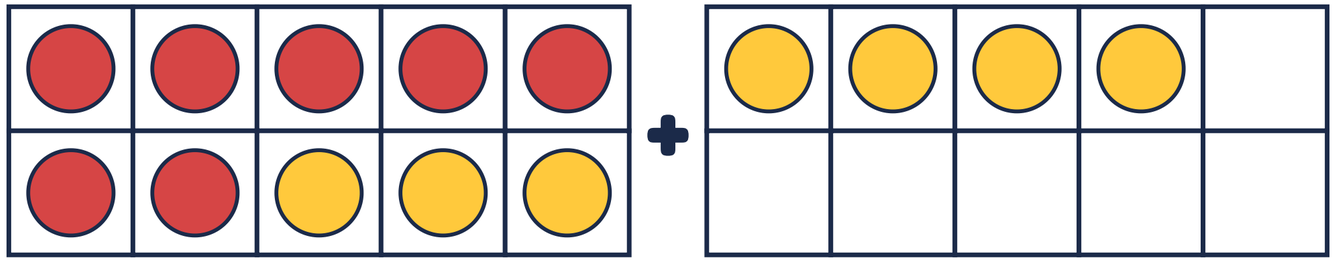

Two of the same number is a double.

12–27 MIN

Bigger doubles

Build double 6, 7, 8 and 9. Fill the first frame up to ten. How many are left?

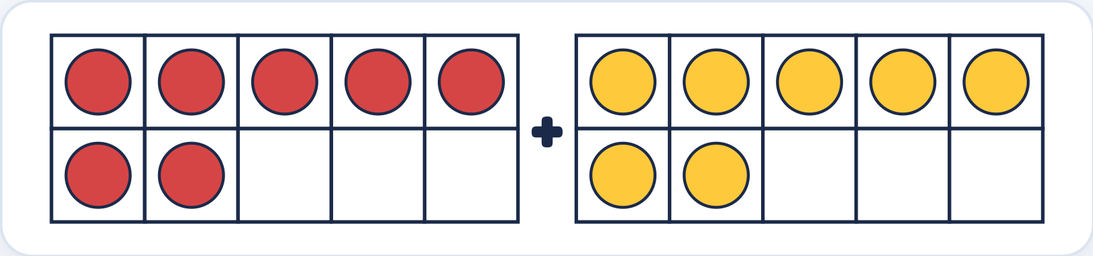

6 + 6 | 7 + 7 | **8 + 8** | 9 + 9

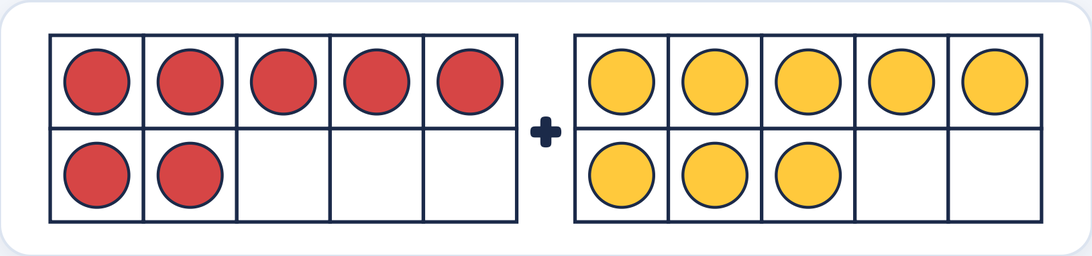

I move ..., so it is ten and ...

One more, one less

12–27 MIN

Double 7

1 more yellow counter

Build 7 + 8, then 7 + 6. Then build 8 + 9.

What did we notice?

12–27 MIN

- What is double 7? What is 7 + 8?
- What happens when the yellow counters go up by 1?
- What happens when they go down by 1?

27–38 MIN

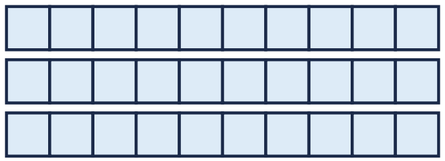

Doubles to 10 + 10

Double	Number sentence	Total
Double 1	1 + 1	2
Double 2	2 + 2	4
Double 3	3 + 3	6
Double 4	4 + 4	8
Double 5	5 + 5	10

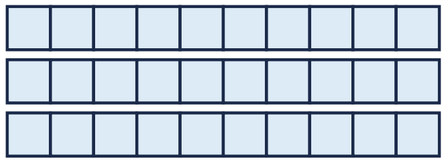

Double 6 to 10: 12, 14, 16, 18, 20

Double a tens number

27–38 MIN

3 tens

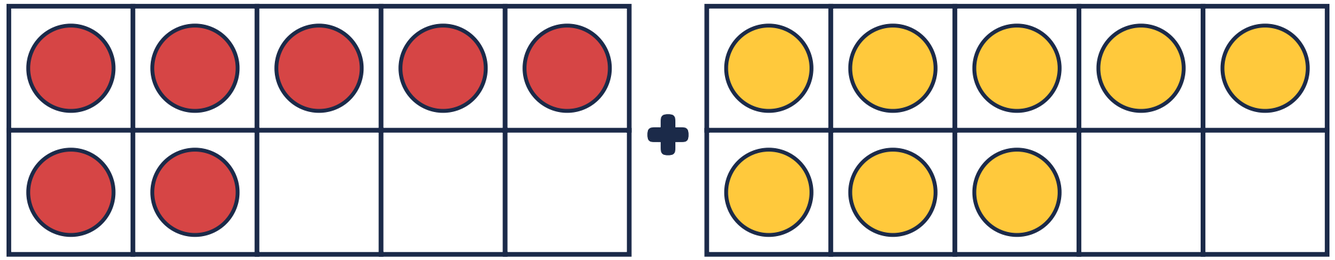

3 tens

3 tens + 3 tens = 6 tens. 30 + 30 = 60

A near double: 7 + 8

27–38 MIN

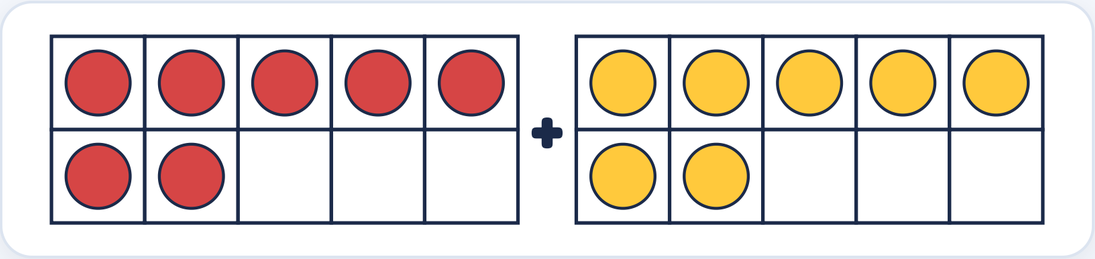

The numbers are next to each other: 7 and 8.

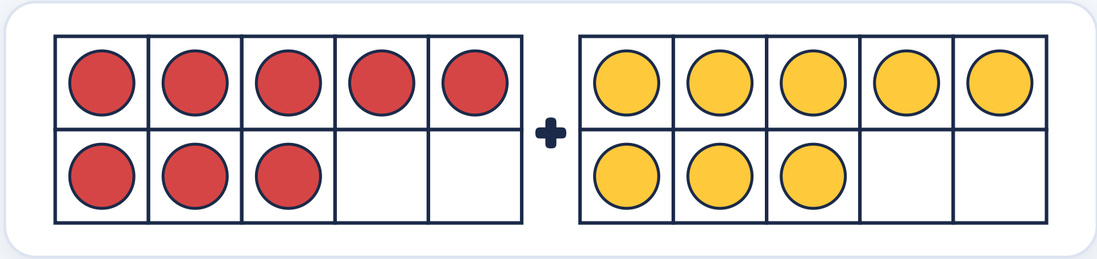

7 + 8 = 7 + 7 + 1 = 14 + 1 = 15

Which double do we use?

27–38 MIN

Double 7 and 1 more

Double 8 and 1 less

Both ways: 7 + 8 = 15

27–38 MIN

Next to each other?

Sum	Next to each other?
6 + 7	Yes: 6, 7
5 + 8	No: 5, 6, 7, 8
9 + 10	Yes: 9, 10

A near double has two numbers that are next to each other.

Your turn: add

27–38 MIN

Write on your paper. Use a double to help.

6 + 7

8 + 9

4 + 5

9 + 10

Check: add

27–38 MIN

Sum	How we found it
6 + 7	Double 6 is 12. 12 + 1 = 13
8 + 9	Double 8 is 16. 16 + 1 = 17
4 + 5	Double 4 is 8. 8 + 1 = 9
9 + 10	Double 9 is 18. 18 + 1 = 19

27–38 MIN

Almost the same: 8 + 9 + 7

8 9 7

The 9 is 1 more than 8. The 7 is 1 less than 8.

8 + 9 + 7 = 8 + 8 + 8 = 24

38–42 MIN

Stomp the double

I say a number. Stomp that many times on each foot.

Then say the double. Try 2, then 3, then 4.

Stand up. Sip some water.

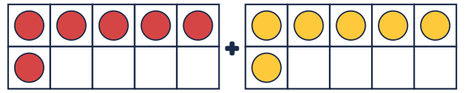

Workbook page 1: Start here

42–70 MIN

Questions 1 to 3. Take your time.

S1 Look at the dominoes. Fill in the missing numbers.

S2 Mei has 6 red counters and 6 yellow counters. Fill in the missing numbers.

S3 Fill in the missing numbers.

Check page 1

42–70 MIN

S1	6, 8, 10
S2	6 + 6 = 12; double 6 is 12
S3	double 2 is 4; double 5 is 10; double 7 is 14; double 9 is 18

Workbook page 2: Start here

42–70 MIN

Questions 4 to 6. Take your time.

S4 Look at the bars. Fill in the missing numbers.

S5 Ali has 8 stickers. Ben has 8 stickers. How many stickers do they have altogether?

S6 Read each statement. Decide if it is True or False.

Check page 2

42–70 MIN

S4	3 tens + 3 tens = 6 tens; 30 + 30 = 60; double 40 is 80
S5	8 + 8 = 16; they have 16 stickers
S6	True, False, True, True

42–70 MIN

Choose your next page

Page	What it is
Think harder (page 3)	Add numbers that are next to each other
Go further (page 4)	Add more numbers and bigger doubles
Investigation (page 5)	Make two groups the same
Check	Finish and check your own work

Everyone may choose. Not finished? Pages 3 to 5 are for home too.

Talk and explain

70–76 MIN

MEI AND ALI ADD 7 + 8

Mei says it is 1 more than double 7.

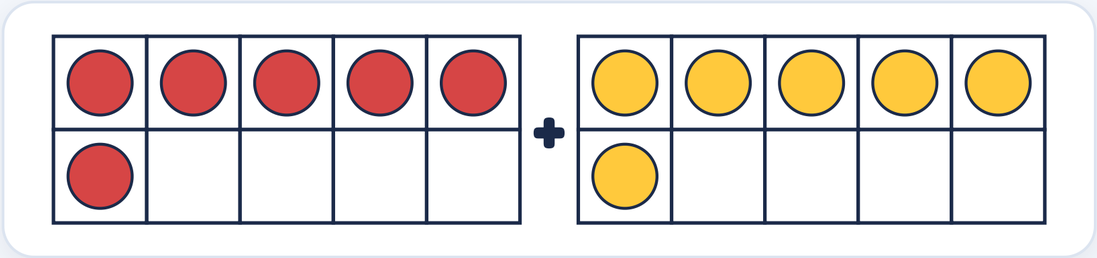

Ali says it is 1 less than double 8.

Is Mei right? Is Ali right? Use counters to show.

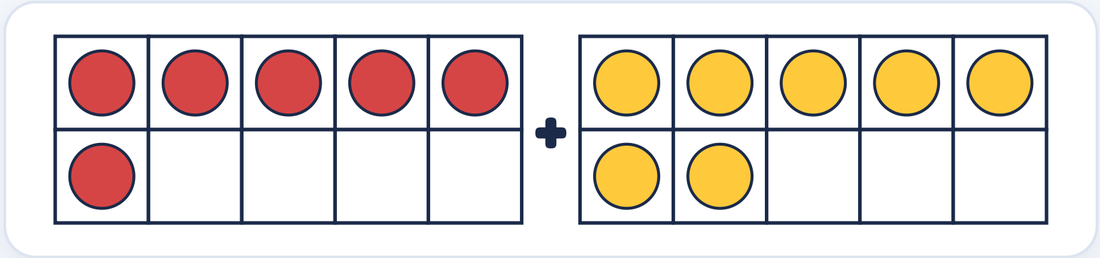

I think … because …

Back to the sneak-peek

70–76 MIN

6 + 6

6 + 7

Yes! One more counter makes the total 1 more.

Exit ticket

76–82 MIN

On your own. No looking back.

E1 **Fill in the missing number.**

Double 9 is ☐☐.

E2 **Fill in the missing number.**

Double 30 is ☐☐.

E3 **Add.**

9 + 8 = ☐☐

Check the exit ticket

76–82 MIN

E1	18
E2	60
E3	17

Look-back

82–85 MIN

Three minutes. There are no right answers. You can pass. Nobody reads it out.

Something I did well	write or draw one thing
The hardest part was …	☐ remembering the doubles ☐ adding 1 more or 1 less ☐ doubling tens like 30 + 30 ☐ choosing which double (Think harder) ☐ something else
What helped me	☐ counters or ten-frames ☐ drawing it ☐ trying again ☐ I asked for help ☐ I was not stuck
Next time I will try	☐ drawing it ☐ using objects ☐ checking my answer ☐ asking a question
	☐ I am still stuck (I will ask in the class chat or show my tutor on camera) ☐ I would like to pass

Take your time. You can pass.

85–90 MIN

Well done, inquirers!

Show a grown-up one thing you found out today.

NEXT LESSON

Odd + Odd: Always, Sometimes, Never

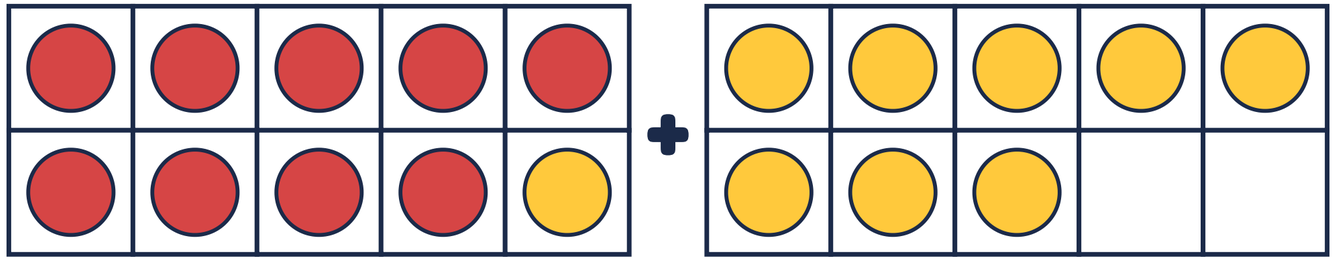

Have ready: 20 counters or small things of one kind, pencil and paper.

OPTIONAL

Go further: what if?

Mei says double 9 is the same as 10 + 8. Can you see why?

OPTIONAL

If we have time: pick one

Activity	What we do
Is it always true?	A near double is 1 more than the smaller double. Test it.
Make a puzzle	Write three near doubles for your grown-up
Teach it back	Show how to add 7 + 8 with a double

Optional. Everyone may join.
