Investigation: Numbers next to each other

Try this any time. You do not have to finish.

First, try this. Add 3 + 4. Is the total odd or even?

Next, try this. Add 5 + 6, 8 + 9 and 10 + 11 too. Write odd or even for each total. Is the total always odd, sometimes odd or never odd? Write what you notice.

Exit ticket

On your own, at the end of the lesson. No looking back.

No.E1

No.E3

Can you make 14 by adding two odd numbers? Circle Yes or No.

14 **Yes** **No**

Look-back There are no right answers. You can pass. Nobody reads it out.

Something I did well:

The hardest part was ... ☐ telling odd from even ☐ testing the sums ☐ always, sometimes or never ☐ drawing the pairs (Go further) ☐ something else

What helped me: ☐ counters in pairs ☐ drawing it ☐ trying again ☐ I asked for help ☐ I was not stuck

Next time I will try: ☐ drawing it ☐ using objects ☐ checking my answer ☐ asking a question ☐ I am still stuck (my grown-up will photograph this page for my tutor) ☐ I would like to pass

Kit page: number cards 1 to 20

A grown-up cuts out the 20 cards before the lesson. Keep them in an envelope.

Print this page on its own sheet, or on one side only, so cutting never spoils another page. A grown-up cuts; children do not use scissors. Keep the pieces in an envelope with your name. We use them again.
