TUTOR GUIDE • LEVEL 1 • TERM 3 • LESSON 3 OF 10

Time Passes

Big idea: Time can be added: one hour later, half an hour later. A clock can look forward. One hour later, the short hand moves on one number. Half an hour later, the long hand goes half way round.

90 minutes • live online or face to face • up to 8 children • ages 6-8 • Notice it. Test it. Explain why.

1. At a glance

Strand	Measurement: Time (1 hour and half an hour) (Telling time to 5 minutes (Primary 1, Measurement, p. 32); Time in hours and half hours: how long something lasts, and the time 1 hour or half an hour later or earlier, with am and pm (Primary 1, p. 32); Start, finish and any duration (Primary 3, p. 36)) Strand label for the tutor only. BEYOND PRIMARY 1 ON PURPOSE at Think harder and Go further only. The time 1 hour or half an hour after an o'clock or half past start, how long between two clocks that are 1 hour or half an hour apart, and finding the start of a 1-hour or half-hour event are Primary 1 work (Primary 1 school papers set them in the last term of the year): Start here stays inside that. Think harder adds starts at quarter times (4:15, 9:45), the half-hour step that changes the hour, counting back to a start, and a timetable. Go further is beyond Primary 1: a trip in two stages (1 hour and then half an hour, which is 90 minutes) found backwards, a time that crosses noon from am to pm, and comparing two starts that share one end (duration in general is Primary 3, p. 36). Owner decision, 22 and 23 Oct 2026: strong content with scaffolding, said plainly to families; every lesson names a beyond item. Do not describe the lesson as MOE-aligned. Time words follow the Primary 1 paper patterns of 23 Oct: o'clock and half past in words, every time also as digits (7:30), times to 5 minutes as digits only, am and pm with no full stops and a space before (8:30 am). Quarter past and quarter to are tutor words only and stay out of the child pages. Contest tag (tutor only): durations, find the start, a trip in stages, crossing noon.
Objectives	• Find the time 1 hour or half an hour after an o'clock or half past start, on the clock and on a time line. • Say how long something lasts from a start clock and an end clock that are 1 hour or half an hour apart. • See that the hour changes when the long hand passes 12, and that 1 hour later keeps the long hand where it was. • Think harder: start at quarter times, add half an hour across the hour, and find the start by counting back. • Go further: a trip in two stages found backwards, a time that crosses noon (am to pm), and two starts that share one end.
Joining cold	**Remember warm-up covers:** Read a clock at o'clock and half past (taught again with three clocks); Count in 5s round the clock to 60, so that 6 fives are half an hour (taught again with a clock picture); A jump of ten on a number line (Term 1 Lesson 6, taught again): an hour is a jump on a time line. Only counting to 20 and the cut-out clock from the first lesson of Term 3 (or a real clock, or a paper plate clock). Nothing from the lessons before is needed: the warm-up reads o'clock and half past again, counts in 5s round the clock, and shows a jump on a line with a picture. Words used again: short hand (hour), long hand (minutes), o'clock, half past. Not the easiest lesson to miss: Mi's Challenge Quest in the last lesson of Term 3 has a gate on this idea (the time 1 hour or half an hour later). A child who misses it watches the recording and does workbook pages 1 and 2 before the Quest. A child who joins here without the two clock lessons can follow, because the warm-up reads the clock again and Start here uses o'clock and half past only.
Child materials	• Your Term 3 workbook, pages 1 to 5 • The cut-out clock from the first lesson of Term 3: 2 clock faces, 3 short hour hands and 3 long minute hands, kept in their envelope. A real clock also works • No clock pieces? A paper plate with 1 to 12 written round the edge and two strips of card for hands • A pencil, a rubber and spare paper

Tutor materials	• The slide deck • A cut-out or real clock to show on camera, if you wish • A visible clock No ruler is needed. Nothing needs to be bought: everything can be found at home. No pins, fasteners, matches, toothpicks or anything sharp: the clock hands are loose paper strips that lie flat on the face. Nobody cuts during the lesson; a grown-up cut the pieces before the first lesson of Term 3.
Tiers	Start here (6 questions, pages 1 and 2), Think harder (4, page 3), Go further (3, page 4), Investigation and look-back (page 5). Labels are neutral; nobody is told which page they are on.
Beyond Primary 1 (tutor only)	Find the Start at G1, G2: A trip in two stages found backwards (1 hour then half an hour, 90 minutes) and a time that crosses noon from am to pm. One-stage find-the-start with 1 hour or half an hour is Primary 1 work (Think harder T3); durations in general are Primary 3 (p. 36). Named puzzle: Find the Start. Never in Start here, never advertised to children.
Contest-style move	Used at Think harder, Go further and the Investigation: add 1 hour or half an hour to a time; count back from the end to find the start; a trip in two stages (1 hour, then half an hour); a time that crosses noon. Never advertised to children or parents.

Before the lesson

- Solve every workbook question yourself first, on a real clock. Check the pairs: S1 9:00; S3 9:30 am; S4 clock B; S6 4:00, 8:30, 9:30; T1 6:30 and 6:00; T2 4:45 and 10:15; T3 6:30 pm and 4:30 pm; G1 3:30 pm and 2:30 pm; G2 12:30 pm and 1:00 pm; G3 3:30 pm, 4:00 pm and Mei.
- Tell parents a week before: your book has the workbook; no new cutting this lesson, but the clock pieces from the first lesson of Term 3 must be in their envelope (a real clock or a paper plate clock also works). The next lesson needs the two play-money pages cut out (29 pieces): it is the most cutting of the term, so give a week's notice.
- Have the slides open. Have your own clock to show on camera if you wish. Practise the arm clocks for the break.
- Check the recording captures the tutor and the shared screen. Children video is excluded; any unmuted voice is recorded. Greet the whole group warmly, then start the recording, then say the notice; do not use children's first names on the recording.
- Be plain with families: adding 1 hour or half an hour from an o'clock or half past start is Primary 1 work; quarter-time starts, a trip in two stages and crossing noon are beyond Primary 1 on purpose. Do not call the lesson MOE-aligned. Say the time both ways every time (half past 7, 7:30). Do not teach the 24-hour clock.
- Slides s-m3, s-m4 and s-m5 keep the answers off the screen while you ask: the filled table appears on s-m5a. Read every question with its times, and the four options of E2, aloud. The clocks on the slides are large, but a child cannot see small hands on a phone: say the time out loud too. A child who tilts the camera at the clock tilts it to the table, not the room.

Safeguarding and recording (this lesson)

- The clock pieces are loose paper strips: no pins, fasteners or anything sharp. Small things stay on the table: nothing goes in the mouth or ears. No matches or toothpicks. Nobody cuts during the lesson; a grown-up cut the pieces beforehand.
- This lesson uses the main room only: no breakout rooms, so the tutor sees every camera. A parent sits nearby but does not give answers.
- Nobody holds paper or a board up to the camera: a gallery view shows everyone. Children tick their own work against the answer slide, answer together on a count of three, or show fingers or a thumb for a choice. There is no private chat.
- Never read out a child's name with a right or wrong answer. The recording has the tutor, the shared screen and any voice that is unmuted. Children may mute and keep their cameras off. A child's page is never shown.
- Movement break: children need a little clear space, soft shoes or socks on a safe floor, no stairs and no running. Arm clocks are quiet; a child may stay seated and use fingers.
- A child who is still stuck ticks 'I am still stuck' on the look-back page. A grown-up may photograph that page after class and send it to the business WhatsApp only; photos are kept for 90 days after the program ends. The tutor then helps in the open session next lesson. No private messages to children, and no personal phones.
- The look-back is never collected in front of the group or read out. A pass is always allowed.

2. Timing plan (90 minutes exactly)

Minutes	Part	Min	Slides	Script fills
0–2	**Opening**	2	1: Time Passes	1:34
2–8	**Remember warm-up**	6	3: Warm-up: read the clock, Count in 5s round the clock, Jump on a line	4:26
8–12	**Sneak-peek puzzles**	4	1: Sneak-peek puzzles	3:08
12–23	**Explore**	11	3: Explore: one hour later, Explore: half an hour later, What did we notice?	8:52
23–34	**Mini-lesson**	11	7: One hour later, Half an hour later, Going back, Your turn: going back, How long?, Starts, lasts, ends, Check: starts, lasts, ends	8:30
34–38	**Brain break**	4	1: Clock arms	3:17
38–70	**Workbook**	32	7: Workbook page 1: Start here, Check page 1, Workbook page 2: Start here, Workbook page 2: question 5, Workbook page 2: question 6, Check page 2, Choose your next page	26:37
70–76	**Talk time**	6	2: Talk and explain, Back to the sneak-peek	4:33
76–82	**Exit ticket**	6	2: Exit ticket, Check the exit ticket	4:47
82–85	**Look-back**	3	1: Look-back	2:23
85–90	**Flex time and goodbye**	5	1: Well done, inquirers!	0:47
	Total	**90**		**68:54**

The script needs 68:54 of the 90:00 when children are quick. A slow class (speech 10% slower, children and slide changes 20% slower) needs 81:30. The last 5 minutes are a standing buffer: if you are behind, use them; do not start anything new. Clock checks: minute 12 (end of sneak-peek), minute 38 (start of workbook), minute 70 (talk time). If more than 2 minutes behind at minute 38, skip in this order: Start with: shorten Explore round 3 (what did we notice) to one question; Then: cut the second pair on the How long? slide (s-m4); Then: take the extra minutes from the flex time. Never skip the look-back or the camera and privacy moments.

3. Lesson script

Times show when each line should start, counted from the start of the lesson, if you keep to the script. SAY lines are spoken in your own words. REC lines are the short recording-voice cues for children who watch later. Children answer aloud, with fingers or hands; no private chat; no boards held up in front of the group.

0:00 – 2:00 Opening

script 1:34 of 2:00

0:00	SLIDE	Show slide **Time Passes** (s-title)
0:15	REC	*If you are watching the recording: hello! Get a pencil, paper, your workbook and your cut-out clock. Pause or rewind any time.*
0:26	SAY	Hello, inquirers! Pencil ready, and your cut-out clock on the table. Cameras can be on or off, as you like.
0:36	SAY	This lesson is recorded so a friend who is away can catch up. The recording has me, the shared screen and any voice that is not muted. You may keep your microphone and camera off.
0:54	SAY	Microphone off until I ask you to speak. To answer, say it with me on three, show fingers, or give a thumbs up. Nobody holds paper up to the camera.
1:08	SAY	Today we look forward on the clock. If a film starts now, when does it end? We add one hour, and we add half an hour.
1:22	DO	Greet the whole group warmly. Do not use children's first names on the recording. [0:12]
	NOTE	Keep this to two minutes. Say the recording statement and the microphone routine in the same words every lesson, for anyone who joined late. The routine and the four inquirer rules were introduced in the first lesson of Term 1: do not re-teach them.
	NOTE	Plain statement for families when it comes up: adding 1 hour or half an hour from an o'clock or half past start is Primary 1 work; starts at quarter times, a trip in two stages and a time that crosses noon go beyond Primary 1 on purpose, always with the clock in hand.
	NOTE	New here? Say in one minute: our three rule words (notice it, test it, explain why); a guess is fine and you can always pass; after Start here you may choose Think harder, Go further or the Investigation; nobody holds paper to the camera. A child without the cut-out clock uses a real clock or a paper plate clock.

2:00 – 8:00 Remember warm-up

script 4:26 of 6:00

2:00	SLIDE	Show slide **Warm-up: read the clock** (s-rem1)
2:25	REC	*Recording: join in! Look at each clock and say the time out loud. Pause if you need longer.*
2:34	SAY	Look at the three clocks. The short hand shows the hour. The long hand shows the minutes. Long hand on 12 means o'clock. Long hand on 6 means half past.
2:49	ASK	What time does the first clock show? [wait about 12 s for answers]
3:04	ASK	The second clock? [wait about 12 s for answers]
3:18	ASK	The third clock? [wait about 12 s for answers]
3:32	SLIDE	Show slide **Count in 5s round the clock** (s-rem2)
3:56	SAY	Now count in fives round the clock. Point to each number on your clock and say the minutes: five, ten, fifteen, all the way round.
4:09	CHILDREN	Count in 5s round the clock together, pointing to each number on the clock, to 60. [0:35]
4:44	ASK	How many fives did we count to get all the way round? [wait about 12 s for answers]
5:02	ASK	Half way round is how many minutes? [wait about 12 s for answers]
5:18	SLIDE	Show slide **Jump on a line** (s-rem3)
5:42	SAY	A jump on a line. I start at thirty-four and jump ten.

5:48	**ASK**	Where do I land? [wait about 12 s for answers]
6:02	**ASK**	Jump ten from fifty-two. Where do you land? [wait about 12 s for answers]
6:18	**SAY**	A jump on a clock works the same way. Today we jump on a time line.
	IF STUCK	If a child is unsure on the clock, point to the long hand first (12 or 6), then to the short hand. For counting in fives, count along the number row on the slide. For the jump, count ten ticks along the line with a finger.
	NOTE	Answers: 3 o'clock, half past 6, 12 o'clock; 12 fives, 30 minutes; 44, 62. Children answer with a whisper, fingers or hands. Nobody writes. Joining cold: all you need is counting to 20 and the picture.

8:00 – 12:00 Sneak-peek puzzles

script 3:08 of 4:00

8:00	**SLIDE**	Show slide **Sneak-peek puzzles** (s-sneak)
8:25	**REC**	*Recording: pause now and try both puzzles on your paper. Guessing is fine. Press play for the next part.*
8:34	**SAY**	Two sneak-peek puzzles: ideas we have not learnt yet. A guess is a great start, and I do not know is welcome. Nobody is marked.
8:47	**READ**	Puzzle one. A clock shows 4 o'clock. What time will it show 1 hour later? Write the time.
8:57	**CHILDREN**	Children write the time on their own paper. A clock is fine to use. [0:45]
9:42	**READ**	Puzzle two. Mei starts to read at half past 8. She reads for half an hour. What time does she stop? I know because blank.
9:55	**CHILDREN**	Children write or draw their answer. [1:05]
11:00	**SAY**	Keep your paper. Nobody shows it. We will check our own thinking later, at Talk time.
	NOTE	Puzzle 1 answer: 5:00. Puzzle 2 answer: 9:00 (not 8:60, not 9:30). Look for good ideas to praise later (a child who moved the clock on, or said half an hour is 30 minutes). Do not write scores or keep a list.

12:00 – 23:00 Explore

script 8:52 of 11:00

12:00	**SLIDE**	Show slide **Explore: one hour later** (s-explore1)
12:25	**REC**	*Recording: pause now. Set your clock, then move the hands to show one hour later, and half an hour later. Press play when you have tried.*
12:38	**SAY**	Your clock is the teacher today. Set it to 1 o'clock: short hand on 1, long hand on 12. A film starts now, and it lasts 1 hour. Move the hands to show when it ends.
12:56	**CHILDREN**	Children set 1 o'clock and move the hands one hour later. Tutor scans the cameras and the clocks. [1:00]
13:56	**ASK**	What time does your clock show now? Which hand moved? [wait about 15 s for answers]
14:16	**SAY**	Two o'clock. The short hand moved on one number. The long hand stayed on the 12.
14:24	**SAY**	Again. Set half past 1: the long hand on 6, the short hand half way between 1 and 2. The film lasts 1 hour. Move the hands.
14:38	**CHILDREN**	Children set half past 1 and move the hands one hour later. [0:55]
15:32	**ASK**	What time is it now? [wait about 15 s for answers]
15:50	**SLIDE**	Show slide **Explore: half an hour later** (s-explore2)
16:15	**SAY**	Round two. Set your clock to 1 o'clock. A game lasts half an hour. Move the long hand to show when it ends.
16:26	**CHILDREN**	Children set 1 o'clock and move the hands half an hour later. [0:55]
17:22	**ASK**	Where is the long hand now? Where is the short hand? [wait about 20 s for answers]
17:47	**SAY**	Half past 1. The long hand went half way round, 30 minutes. The short hand is half way between 1 and 2. Now the game goes on for another half an hour. Move your hands again.
18:05	**CHILDREN**	Children move the hands another half an hour: from 1:30 to 2:00. [0:50]

18:55	**ASK**	What time is it now? What happened to the short hand? [wait about 20 s for answers]
19:20	**SLIDE**	Show slide **What did we notice?** (s-explore3)
19:46	**ASK**	What did you notice? Which hand moved when it was one hour later? What happened to the short hand when the long hand passed the 12? [wait about 40 s for answers]
20:38	**SAY**	One hour later, the short hand moves on one number and the long hand stays. When the long hand goes past the 12, the hour changes.
	IF STUCK	A child whose short hand sits on 1 at half past 1: show the short hand half way between 1 and 2. A child who moves both hands one hour: the long hand should not move. A child with no clock pieces uses a real clock or draws the hands.
	NOTE	Main room only; you cannot see small clocks, so ask children to say what time their clock shows and to tilt the camera if they like. Answers: 2:00, 2:30; 1:30, 2:00. Accept any child who explains with the hands or with the minutes. Do not say the rule before the children do.

23:00 – 34:00 Mini-lesson

script 8:30 of 11:00

23:00	**SLIDE**	Show slide **One hour later** (s-m1)
23:25	**REC**	*Recording: keep watching and copy the examples. Rewind if you miss a step.*
23:32	**SAY**	Look. It is 10 o'clock and a job lasts 1 hour. One hour later it is 11 o'clock. The short hand moves on one number and the long hand stays on the 12.
23:48	**ASK**	Your turn on your clock. It is 12 o'clock and a film lasts 1 hour. What time does it end? [wait about 15 s for answers]
24:13	**SAY**	One o'clock. After 12 the numbers go round to 1 again.
24:18	**SLIDE**	Show slide **Half an hour later** (s-m2)
24:44	**SAY**	Half an hour later. From 10 o'clock, the long hand goes half way round. That is half past 10, or 10:30. Half an hour is 30 minutes. On the time line each jump is half an hour.
25:02	**ASK**	Another half an hour from half past 10. What time do we land on? [wait about 15 s for answers]
25:24	**SAY**	Eleven o'clock. Two half hours make one hour, and the hour changed.
25:30	**SLIDE**	Show slide **Going back** (s-m3)
25:56	**SAY**	We can jump back too. The film ended at 6 o'clock. It lasted 1 hour. To find when it started, jump back one hour.
26:08	**ASK**	When did it start? [wait about 15 s for answers]
26:24	**SLIDE**	Show slide **Your turn: going back** (s-m3b)
26:50	**READ**	Your turn. The class ended at 10 o'clock. It lasted half an hour. When did it start? Write the start time on your paper.
27:03	**CHILDREN**	Children write the start time. Wait 10 seconds before helping. [0:35]
27:38	**READ**	It started at 9:30. Tick your own work with a tick.
27:44	**SLIDE**	Show slide **How long?** (s-m4)
28:09	**SAY**	Two pairs of clocks. Each pair shows when something starts and when it ends. We find how long it lasts.
28:19	**ASK**	How long does A last? [wait about 15 s for answers]
28:37	**ASK**	How long does B last? [wait about 15 s for answers]
28:54	**SLIDE**	Show slide **Starts, lasts, ends** (s-m5)
29:19	**SAY**	A table. Tea starts at 3:00 and lasts half an hour, so it ends at 3:30. Your turn. Games start at 9:00 and last 1 hour. Craft starts at 11:00 and lasts half an hour. Write when each one ends.
29:41	**CHILDREN**	Children write the two end times on their own paper. Wait 10 seconds before helping. [1:15]

30:56	SLIDE	Show slide **Check: starts, lasts, ends** (s-m5a)
31:21	READ	Games end at 10:00. Craft ends at 11:30. Tick your own work with a tick.
	NOTE	Key words to use every time: later, lasts, starts, ends, half an hour (30 minutes), hour hand, minute hand. Say the time both ways: o'clock or half past in words, then the digits. Do not teach quarter past or quarter to; it is in Think harder as digits only. Do not teach the 24-hour clock or the word clockwise.
	IF STUCK	If a child adds 1 to the minutes (10:01), show 10 o'clock on a clock and move the short hand on by one number. If a child writes 10:60 or 8:60, show the long hand going all the way round to 12. If a child cannot read the end clock, count the 5-minute steps the long hand made.

34:00 – 38:00 Brain break

script 3:17 of 4:00

34:00	SLIDE	Show slide **Clock arms** (s-break)
34:25	REC	*Recording: stand up and join in! Make clock hands with your arms.*
34:31	SAY	Stand up and get a sip of water. We make a clock with our arms. One arm is the long hand, one arm is the short hand. Twelve o'clock: both arms up.
34:47	CHILDREN	Call 12 o'clock, 3 o'clock, 6 o'clock, 9 o'clock, half past 6, then one hour later from 3 o'clock. Children make the hands with their arms; fingers are fine for a child who sits. [2:30]

38:00 – 70:00 Workbook

script 26:37 of 32:00

38:00	SLIDE	Show slide **Workbook page 1: Start here** (s-ws1)
38:25	REC	*Recording: pause now and do workbook page 1. When you finish a page, press play to check it.*
38:34	READ	Page 1, Start here. Question 1: the class starts at 8 o'clock. It lasts 1 hour. Draw the hands on the end clock, then write the end time. Question 2: the film starts at the time shown. It lasts 1 hour. What time does it end? Question 3: Ali starts to swim at 8:30 am. He swims for 1 hour. What time does he stop?
39:10	CHILDREN	Page 1, questions 1 to 3. Tutor walks the cameras, asks how do you know. Wait 10 seconds before helping. [8:00]
47:10	SLIDE	Show slide **Check page 1** (s-ws1ans)
47:35	READ	Question 1: 9:00. Question 2: 3:00. Question 3: 9:30 am. Tick your own page with a tick.
47:46	SAY	After question 3 you may choose: carry on, or try Think harder. Everyone may choose, at any time.
47:55	SLIDE	Show slide **Workbook page 2: Start here** (s-ws2)
48:20	READ	Page 2. Question 4: it is 6 o'clock now. Which clock shows half an hour later? Circle A, B or C.
48:31	SLIDE	Show slide **Workbook page 2: question 5** (s-ws2c)
48:56	READ	Question 5: the clocks show when the painting starts and ends. How long does the painting last? Circle one.
49:07	SLIDE	Show slide **Workbook page 2: question 6** (s-ws2b)
49:32	READ	Question 6: fill in the time each job ends. Swimming starts at 3:00 and lasts 1 hour. Reading starts at 8:00 and lasts half an hour. Painting starts at 9:00 and lasts half an hour.
49:52	CHILDREN	Page 2, questions 4 to 6. [9:00]
58:52	SLIDE	Show slide **Check page 2** (s-ws2ans)
59:17	READ	Question 4: clock B. Question 5: 1 hour. Question 6: 4:00, 8:30, 9:30.
59:26	SLIDE	Show slide **Choose your next page** (s-choice)
59:51	SAY	When you have finished Start here, you can choose Think harder, Go further or the Investigation. Everyone may choose. You can swap at any time. Anything not finished is for home too.
60:07	MOVE	Stand and reach up for 30 seconds, then sit down and choose.

60:37	**CHILDREN**	Choice time: Think harder (page 3), Go further (page 4), the Investigation (page 5), or finish and check your own work. Tutor never says who is on which page. If Start here took the whole time, say that pages 3 to 5 are for home, and keep the time. [4:00]
	IF STUCK	Q1: move the short hand on one number and keep the long hand on 12. Q2: read the short hand, then add one. Q3: the minutes stay 30; the hour goes on by one. Q4: half an hour later from 6 o'clock puts the long hand on the 6. Q5: did the short hand move on a whole number or did the long hand go half way round? Q6: do one row at a time with the clock.
	IF STUCK	A child who is still stuck ticks I am still stuck on the look-back page. The grown-up can photograph that page after class and send it to the business WhatsApp (never a personal phone). You then help in the open session in the next lesson. Never a private message to a child.
	NOTE	Think harder has quarter-time starts (4:15, 9:45), counting back to a start and a zoo timetable. Go further has a trip in two stages and a time that crosses noon (beyond Primary 1 on purpose). Do not announce who is on which page. Start here takes a middle child about 17 minutes, so the choice time is short: for most children pages 3 to 5 are for home. Say so plainly, do not skip the answer slides, and take any extra minutes from the flex time.

70:00 – 76:00 Talk time

script 4:33 of 6:00

70:00	**SLIDE**	Show slide **Talk and explain** (s-talk)
70:25	**REC**	*Recording: pause. Tell a grown-up who is right, and check it on your clock.*
70:32	**READ**	One child says: half an hour after 7:30 is 8:00. Another child says: half an hour after 7:30 is 8:30. Who is right? How could we check on the clock?
70:51	**CHILDREN**	Test it on your clock: set 7:30 and move the hands half an hour. [0:50]
71:41	**CHILDREN**	Talk to the grown-up next to you or to your screen for one minute. Use the sentence starter: I think... because... [0:40]
72:21	**ASK**	Who would like to share? Volunteers first. A pass is always fine. [wait about 70 s for answers]
73:37	**SLIDE**	Show slide **Back to the sneak-peek** (s-sneakans)
74:02	**SAY**	Remember the sneak-peek? Puzzle one: 4 o'clock and one hour later is 5 o'clock. Puzzle two: half past 8 and half an hour later is 9 o'clock.
74:15	**ASK**	Did anyone change their mind while we worked? You can just nod. [wait about 12 s for answers]
	NOTE	Model answer: the first child is right. Half an hour is 30 minutes; from 7:30 the long hand goes from the 6 to the 12 and the short hand moves on to 8, so it is 8:00. 8:30 is a whole hour after 7:30. Volunteers first; never call a child by name to answer; no tallies, no rankings. Praise the reason, not the speed.

76:00 – 82:00 Exit ticket

script 4:47 of 6:00

76:00	**SLIDE**	Show slide **Exit ticket** (s-exit)
76:25	**REC**	*Recording: pause and do the exit ticket on your own. Then press play to check it.*
76:33	**SAY**	Exit ticket. Three questions, on your own, without looking back. Write your answers on page 5.
76:41	**READ**	E1. The game starts at 7:30. It lasts 1 hour. What time does the game end? E2. It is 2 o'clock. What time is it half an hour later? Choose the correct answer. Option 1: 2:05. Option 2: 2:15. Option 3: 2:30. Option 4: 3:00. Write its number in the bracket. E3. A film ended at 7:30 pm. It lasted 1 hour. What time did it start?
77:21	**CHILDREN**	Children answer E1 to E3 on their own. [2:50]
80:11	**SLIDE**	Show slide **Check the exit ticket** (s-exitans)
80:36	**READ**	E1: 8:30. E2: option 3, 2:30. E3: 6:30 pm.
80:42	**SAY**	Tick your own ticket with a tick. Well done.

	NOTE	Nothing is collected or marked live. Children tick their own ticket. If many children miss one question, spend two minutes on it at the start of the next lesson, in the open session, no names. Do not read out any child result.

82:00 – 85:00 Look-back

script 2:23 of 3:00

82:00	**SLIDE**	Show slide **Look-back** (s-look)
82:25	**REC**	*Recording: pause and fill in your look-back box. You can pass.*
82:30	**SAY**	Look-back. Tick what was hard and what helped you. Write or draw one thing you did well. If you like, tick one thing to try next time. You can pass. Nobody reads it out. If you tick I am still stuck, ask your grown-up to take a photo of this page after class and send it to our business WhatsApp. Then we will help you.
83:03	**CHILDREN**	Children fill in the look-back box on page 5. [1:20]

85:00 – 90:00 Flex time and goodbye

script 0:47 of 5:00

85:00	**SLIDE**	Show slide **Well done, inquirers!** (s-end)
85:25	**SAY**	Well done, inquirers. Next lesson is Dollars and Change. Please have your Term 3 book, the two play-money pages cut out by a grown-up, and the dollar tokens from Term 2. Keep your clock in its envelope. Goodbye, and thank you to the grown-ups.
	SLIDE	Show slide **Go further: both ways** (s-opt) *(optional)*
	SAY	Optional, only if you are on time: a game lasts one hour. Another game lasts half an hour. Both end at 6:00. Which game started first?
	CHILDREN	Short think time, then take two answers. [1:30]
	SLIDE	Show slide **If we have time: pick one** (s-menu) *(optional)*
	SAY	Spare-time menu. If the whole class is ahead, pick one or two activities from the guide (about 4 minutes each).
	NOTE	This is the standing buffer. If you are behind, finish the look-back and say goodbye. Do not start anything new. Optional slide answer: the 1-hour game started at 5:00 and the half-hour game at 5:30, so the 1-hour game started first. If the whole class is ahead, use the Spare-time menu (guide section 3b) instead of rushing on.

3b. Spare-time menu: if the class is ahead

- Whole class ahead: use the Spare-time menu in the Flex time and the optional Go further slide. Pick one or two activities; do not start new content.
- A few children ahead: they may choose Go further or the Investigation, which are open to everyone. Never label or name a child, and never announce who is ahead.
- Never teach anything the next lesson needs. If the class is ahead, slow down: ask 'How do you know?' and let children explain, rather than rushing on.

Optional time, never added to the 90-minute sum. It comes from the 5-minute flex buffer, from slack in the parts, or from the optional Go further slide.

Activity	Minutes	You say	Recording cue	Answer
Is it always true?	4 (optional)	Mei says: one hour later, the long hand stays where it was and the short hand moves on one number. Is that always true? Test it with your clock at 3 o'clock, half past 7, 11 o'clock and 12 o'clock.	*Recording: pause. Mei says the long hand stays when it is one hour later. Test it at 11 and 12 o'clock.*	Yes. The long hand stays put because an hour is a whole trip round. At 12 o'clock the short hand moves on to 1, not to 13: the numbers on the clock go round. 11 o'clock and 1 hour is 12 o'clock.

Make a puzzle for your grown-up	4 (optional)	Pick a start time and say how long it lasts: 1 hour or half an hour. Write the start and ask when it ends. Give it to your grown-up, then check together on the clock.	*Recording: pause. Write a start time and how long it lasts. Ask your grown-up when it ends.*	No single answer. Check the end time on the clock: 1 hour keeps the long hand and moves the short hand on one; half an hour moves the long hand half way round.
Teach it back	3 (optional)	Pretend your grown-up or a toy has never added time. Teach them why half an hour after half past 5 is 6 o'clock and not 5:60.	*Recording: pause. Teach a grown-up why half an hour after half past 5 is 6 o'clock.*	Half an hour is 30 minutes. From half past 5 the long hand goes from the 6 all the way round to the 12. When the long hand reaches 12 it is a new hour, so it is 6 o'clock.

4. Questions, answers, hints and common mistakes

Sneak-peek puzzles (minutes 8 to 12)

Puzzle 1 (access): A clock shows 4 o'clock. What time will it show 1 hour later? Write the time.

Answer: 5:00 (5 o'clock)

Puzzle 2 (think): Mei starts to read at half past 8. She reads for half an hour. What time does she stop? I know because ___.

Answer: 9:00 (9 o'clock). Half an hour is 30 minutes, and 8:30 and 30 minutes more is 9:00.

Unmarked. Never put answers on boards in front of the group and never read a name with an answer. Reveal the answers where your script says (usually Talk time).

Start here (workbook pages 1 and 2)

S1 **The class starts at 8 o'clock. It lasts 1 hour. Draw the hands to show when it ends.**

(a) Draw the hands on the end clock.
(b) The class ends at ____ .

Answer: 9:00; 9:00

Hint (say this first): The class lasts 1 hour. Move the short hand on one number. The long hand stays on the 12.
Worked solution: One hour later, the short hand moves from 8 to 9 and the long hand stays on the 12. So the class ends at 9 o'clock, written 9:00.
Common mistakes: Moving the long hand as well.; Drawing the short hand on 8 and the long hand on 9.
Time for a middle child: about 3 min.

S2 **The film starts at the time shown. It lasts 1 hour. What time does it end?**

The film ends at ____ .

Answer: 3:00

Hint (say this first): Read the clock first. Then move the short hand on one number.
Worked solution: The clock shows 2 o'clock. One hour later the short hand is on 3 and the long hand is still on the 12. The film ends at 3:00.
Common mistakes: Writing 2:00 (the start).; Writing 2:01 or 2:10 (adding 1 to the minutes).
Time for a middle child: about 2 min.

S3 **Ali starts to swim at 8:30 am. He swims for 1 hour. What time does he stop?**

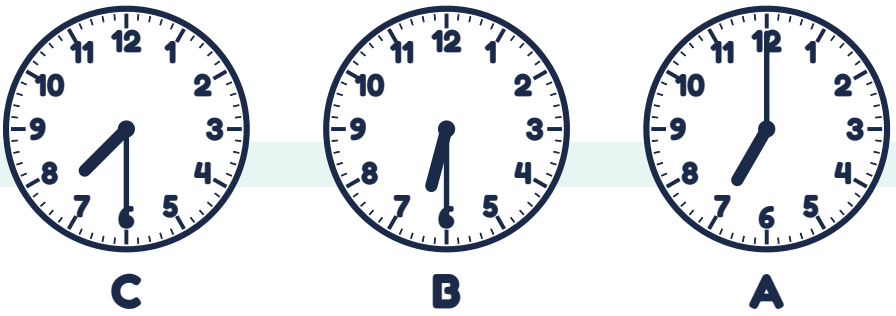

He stops at ____ am.

Answer: 9:30 am

Hint (say this first): The long hand stays on the 6. Only the hour goes on.
Worked solution: One hour later is the next hour with the same minutes: 8:30 am and 1 hour is 9:30 am.
Common mistakes: Writing 8:30 (the start) or 9:00 (half an hour instead of 1 hour).; Writing 9:30 pm.
Time for a middle child: about 2.5 min.

S4 **It is 6 o'clock now. Which clock shows half an hour later?**

Circle A, B or C.

Answer: B

Hint (say this first): Half an hour later, the long hand is half way round, on the 6.

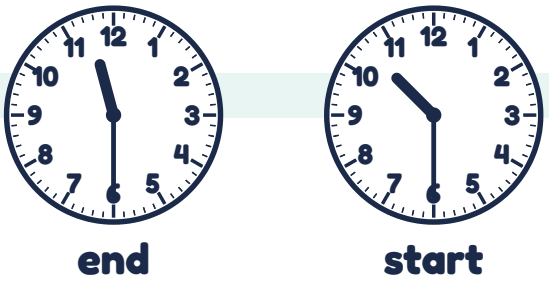

Worked solution: Half an hour after 6 o'clock is half past 6, 6:30. Clock B has the long hand on the 6 and the short hand half way between 6 and 7. Clock A is 7:00 and clock C is 7:30.

Common mistakes: Choosing A (1 hour later).; Choosing C (1 hour and half an hour later).

Time for a middle child: about 3 min.

S5 **The clocks show when the painting starts and ends.**

How long? Circle one.

Answer: 1 hour

Hint (say this first): Look at the long hand. Did it go half way round, or all the way round?

Worked solution: The painting starts at 10:30 and ends at 11:30. The short hand moved on one number and the long hand stayed on the 6, so the painting lasted 1 hour.

Common mistakes: Circling half an hour because the long hand points to the 6.; Counting the numbers on the clock instead of the hands.

Time for a middle child: about 2.5 min.

S6 **Fill in the time each job ends.**

Job	Starts	Lasts	Ends
Swimming	3:00	1 hour	
Reading	8:00	half an hour	
Painting	9:00	half an hour	

Answer: 4:00; 8:30; 9:30

Hint (say this first): Do one row at a time. Use your clock if you like.

Worked solution: Swimming: 3:00 and 1 hour is 4:00. Reading: 8:00 and half an hour is 8:30. Painting: 9:00 and half an hour is 9:30.

Common mistakes: Writing 4:30 for swimming (half an hour instead of 1 hour).; Writing 8:00 for reading (the start) or 9:00 for painting (the start).

Time for a middle child: about 3.5 min.

Think harder (page 3): the taught idea in a new setting

T1 **Ravi starts to read at 5:30.**

(a) He reads for 1 hour. He stops at ____ .

(b) On another day he reads for half an hour. He stops at ____ .

Answer: 6:30; 6:00

Hint (say this first): The long hand starts on the 6. Where is it after half an hour?

Worked solution: One hour after 5:30 is 6:30. Half an hour after 5:30 is 6:00: the long hand goes from the 6 round to the 12, and the short hand moves on to the 6.

Common mistakes: Writing 5:60 for half an hour later.; Writing 6:30 for both parts.

Time for a middle child: about 4 min.

T2 **Lily starts to paint at 4:15. Kumar starts to paint at 9:45. Each child paints for half an hour.**

(a) Lily stops at ____ .

(b) Kumar stops at ____ .

Answer: 4:45; 10:15

Hint (say this first): Half an hour is 30 minutes. Count on 15 minutes to the next hour, then 15 more.

Worked solution: 4:15 and 30 minutes is 4:45. 9:45 and 30 minutes goes past the hour: 15 minutes makes 10:00, and 15 more makes 10:15.

Common mistakes: Writing 4:30 or 4:75.; Writing 9:75 or 9:15 for Kumar.

Time for a middle child: about 4 min.

T3 **Siti and Ali each go for a swim. Find the start time of each swim.**

(a) Siti's swim ended at 7:00 pm. It lasted half an hour. It started at ____ pm.

(b) Ali's swim ended at 5:30 pm. It lasted 1 hour. It started at ____ pm.

Answer: 6:30 pm; 4:30 pm

Hint (say this first): The end time is known. Go back by how long the swim lasted.

Worked solution: Siti: back half an hour from 7:00 pm is 6:30 pm. Ali: back 1 hour from 5:30 pm is 4:30 pm. Check: 6:30 pm and half an hour is 7:00 pm; 4:30 pm and 1 hour is 5:30 pm.

Common mistakes: Adding instead of going back (7:30 pm and 6:30 pm).; Going back half an hour for Ali.

Time for a middle child: about 4 min.

T4 **The table shows the zoo shows this afternoon.**

Show	Starts	Ends
Penguins	4:00	4:30
Seals	4:30	5:30
Parrots	5:30	6:00

(a) Which show lasted 1 hour? Circle one.

(b) The next show starts straight after the Parrots. It lasts 1 hour. It ends at ____ pm.

Answer: Seals; 7:00 pm

Hint (say this first): Work out how long each show lasted from its start and end.

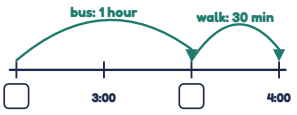

Worked solution: Penguins 4:00 to 4:30 is half an hour. Seals 4:30 to 5:30 is 1 hour. Parrots 5:30 to 6:00 is half an hour. The next show starts at 6:00 and lasts 1 hour, so it ends at 7:00 pm.

Common mistakes: Circling Penguins or Parrots (half an hour).; Writing 6:30 pm for the last show (half an hour).

Time for a middle child: about 4 min.

Go further (page 4): mastery and extension

G1 **Ravi rides a bus for 1 hour. Then he walks for half an hour. He gets home at 4:00 pm.**

(a) He started to walk at ____ pm.

(b) The bus ride started at ____ pm.

Answer: 3:30 pm; 2:30 pm

Hint (say this first): Start at the end of the time line and jump back. Go back by the walk first.

Worked solution: He walked for half an hour and got home at 4:00 pm, so he started to walk at 3:30 pm. The bus ride lasted 1 hour and ended at 3:30 pm, so it started at 2:30 pm. Check: 2:30, 1 hour, 3:30, half an hour, 4:00.

Common mistakes: Going back 1 hour for the walk (3:00 pm).; Adding instead of going back.

Time for a middle child: about 5 min.

G2 **Kumar goes to the cinema. A film starts at 11:30 am. Write am or pm after each time.**

(a) One day the film lasts 1 hour. It ends at ____ .

(b) Another day the film is longer: 1 hour, then half an hour more. It ends at ____ .

Answer: 12:30 pm; 1:00 pm

Hint (say this first): After 11:30 the hour goes on to 12, and the morning turns into the afternoon.

Worked solution: 11:30 am and 1 hour is 12:30 pm: the clock goes from 11 to 12 and it is now pm. 1 hour and half an hour is 90 minutes: 12:30 pm and half an hour is 1:00 pm.

Common mistakes: Writing 12:30 am.; Writing 12:00 pm for 1 hour and half an hour.

Time for a middle child: about 5 min.

G3 **Mei and Ali both finish their homework at 4:30 pm. Mei works for 1 hour. Ali works for half an hour.**
(a) Mei starts at ____ pm.
(b) Ali starts at ____ pm.
(c) Who starts first? Circle one.

> **Answer: 3:30 pm; 4:00 pm; Mei**

Hint (say this first): Go back from 4:30 pm. Who goes back further?
Worked solution: Mei: back 1 hour from 4:30 pm is 3:30 pm. Ali: back half an hour from 4:30 pm is 4:00 pm. 3:30 pm is earlier than 4:00 pm, so Mei started first.
Common mistakes: Saying Ali started first because his time is bigger.; Writing 5:30 pm for Mei.
Time for a middle child: about 5 min.

Investigation (page 5): Plan the afternoon

Easy first step: Start at 12:30 pm. Swim for 1 hour. What time is it now?
Then: Mi has from 12:30 pm to 3:00 pm. Jobs: swim 1 hour, painting 1 hour, story half an hour, snack half an hour. Use each job once at most. Fill the time exactly. Write each start and end.

> **Model answer: First: 1:30 pm. From 12:30 pm to 3:00 pm is 2 hours and half an hour. Only 1 hour + 1 hour + half an hour fits: swim and painting plus either the story or the snack, in any order. For example: swim 12:30 to 1:30, painting 1:30 to 2:30, story 2:30 to 3:00. Or swim, painting, snack. There are 2 different sets of jobs. Using all four jobs needs 3 hours, which is too long.**

Look for: A child who writes a plan whose times join up (each job starts when the one before ends) and ends exactly at 3:00 pm; a child who finds the second set by swapping the story for the snack; a child who says why all four jobs do not fit. Credit any clear reason. Do not mark a child down for stopping at one plan. Any order of the jobs is fine. Do not ask a child how many sets there are: the count is for the tutor.
Common mistakes: A gap between two jobs.; Adding up to more than 2 hours and half an hour.

Talk and explain (minutes 70 to 76)

One child says: half an hour after 7:30 is 8:00. Another child says: half an hour after 7:30 is 8:30. Who is right? How could we check on the clock? Sentence starter: I think ... because ...

> **Model answer: The first child is right. Half an hour is 30 minutes, so the long hand goes from the 6 to the 12, and the short hand moves on to the 8: 8:00. 8:30 is a whole hour after 7:30. We can check by moving the hands on the clock.**

Look for: A child who tests it on the clock, or says half an hour is 30 minutes, or says the hour changes when the long hand passes 12. Not just a name. Volunteers first, a pass is always fine, never call a child by name to answer, no tallies.

Exit ticket (minutes 76 to 82): 3 questions

E1 **The game starts at 6:30. It lasts 1 hour. What time does the game end?**
The game ends at ____ .

> **Answer: 7:30**

Worked solution: The game starts at 6:30. One hour later is 7:30: the short hand moves on to 7 and the long hand stays on the 6.
Common mistakes: Writing 6:30.; Writing 7:00.

E2 **It is 2 o'clock. What time is it half an hour later? Choose the correct answer. Write its number in the bracket.**

> **Answer: (3) 2:30**

Worked solution: Half an hour is 30 minutes. 2 o'clock and 30 minutes is 2:30.
Common mistakes: Choosing (4) 3:00, which is 1 hour later.; Choosing (1) 2:05 or (2) 2:15 after counting 5 or 15 minutes.

E3 **A film ended at 10:30 pm. The film lasted 1 hour. What time did it start?**

It started at ____ pm.

> **Answer: 9:30 pm**

Worked solution: Go back 1 hour from 10:30 pm. The long hand stays on the 6 and the hour goes back one: 9:30 pm.
Common mistakes: Writing 11:30 pm (going forward).; Writing 10:00 pm (half an hour).

Look-back (minutes 82 to 85)

Children tick or write: *Something I did well*; *The hardest part was* (going back to the start; half an hour across the hour; reading the clock; something else); *What helped me* (my clock; the time line; checking my answer; I was not stuck); *Next time I will try* (using my clock; drawing a time line; checking my answer; asking a question); *I am still stuck (my grown-up will photograph this page for my tutor)* and *I would like to pass*. Never collected or read out in front of the group. A child who ticks still stuck gets a check-in in the open session next lesson.

5. Home practice and online practice

#	Tier	Question	Answer
H1	Start here	A film starts at 9:30 am. It lasts 1 hour. It ends at ____ am.	10:30
H2	Start here	The swimming lesson starts at 5 o'clock. It lasts half an hour. It ends at ____ .	5:30
H3	Think harder	Ben starts to paint at 3:45 pm. He paints for half an hour. He stops at ____ pm.	4:15
H4	Go further	Ravi rides a bus for 1 hour. Then he walks for half an hour. He gets home at 9:00 pm. The bus ride started at ____ pm.	7:30
H5	Start here	Arrange these in order. Begin with the smallest number: 72, 27, 70, 17.	17, 27, 70, 72

Online practice (`out/l23/practice`, key `t3l23`): 11 items; 8 have a template that makes unlimited similar questions with a computed answer. Every template variant is checked by the validator against a brute-force oracle and the runner's own JavaScript. No timers, no scores, no streaks.

6. Parent line for the term report

Your child is learning to add an hour or half an hour to a time on the clock and to count back to a start. This week: setting the clock later, reading two clocks and finding a start time.

Term line (plan, section 5): Your child is learning to give a reason, and to read time and money in real life. Add one named strength and one next step from your own observation. No marks, no ranking, no claim of exam results.

7. Slide list

#	Time	Slide	On screen	Speaker note
1	0–2	**Time Passes** s-title	TODAY WE WILL: / Add an hour or half an hour to a time.	Lesson 3 of Term 3, 90 minutes. Objective: find the time 1 hour or half an hour after a start time on the clock and on a time line, say how long between two clocks, and find the start by counting back. Plain statement for families: adding 1 hour or half an hour from an o'clock or half past start is Primary 1 work; starts at quarter times, a trip in two stages and a time that crosses noon go past the school Primary 1 syllabus on purpose. Time plan: opening 0 to 2, warm-up 2 to 8, sneak-peek 8 to 12, explore 12 to 23, mini-lesson 23 to 34, brain break 34 to 38, workbook 38 to 70, talk 70 to 76, exit ticket 76 to 82, look-back 82 to 85, flex time and goodbye 85 to 90 (the buffer: do not start anything new). Think harder, Go further and the Investigation are for every child to choose. Say the recording notice in one line: you and the screen only; a child may keep the camera off.
2	2–8	**Warm-up: read the clock** s-rem1	Say the time. Short hand: the hour. Long hand: the minutes. / [picture: clock] / [picture: clock] / [picture: clock]	Three clocks: 3 o'clock, half past 6 and 12 o'clock. Ask for each in turn: what time does it show? Long hand on 12 means o'clock; long hand on 6 means half past; the short hand names the hour (for half past 6 it sits half way between 6 and 7). Children answer aloud or with fingers. No writing, no marks. A child who is unsure points to the long hand first, then the short hand. Joining cold: this re-teaches o'clock and half past with nothing but the picture.
3	2–8	**Count in 5s round the clock** s-rem2	[picture: clock] / Point to each number and say the minutes. / 5 10 15 20 25 30 35 40 45 50 55 60	Count in 5s round the clock, pointing to the numbers 1 to 12 on the face: 5 minutes at 1, 10 at 2, 15 at 3, and so on to 60 at 12. Ask: how many fives to get all the way round (12); how many minutes is half way round (30, at the 6). This is Term 1 Lesson 4 (skip counting in 5s) taught again. A child who has not counted in 5s counts along the number row on the slide. Twelve steps of 5 minutes make 1 hour; six steps make half an hour.
4	2–8	**Jump on a line** s-rem3	[picture: number_line] / Start at 34. Jump 10. Where do you land?	A tens jump on a number line (Term 1 Lesson 6, taught again). Ask: where do I land from 34 with a jump of 10 (44); from 52 with a jump of 10 (62). Then say: on a clock, one hour is one jump too; today we jump on a time line. A child who is unsure counts ten ticks along the line with a finger, or counts on in tens: 34, 44. Children answer aloud. No writing.
5	8–12	**Sneak-peek puzzles** s-sneak	Ideas we have not learnt yet. A guess is a great start. Nobody is marked. / PUZZLE 1: anyone can try: / A clock shows 4 o'clock. / What time will it show 1 hour later? Write the time. / [picture: clock] / PUZZLE 2: think: / Mei starts to read at half past 8. / She reads for half an hour. / What time does she stop? I know because ___.	Puzzle 1 (4 o'clock, 1 hour later: 5:00) is an access question: any child can move the clock on by one number. Puzzle 2 is a thinking question on the lesson idea: half past 8 and half an hour more is 9 o'clock, not 8:60 and not 9:30. Say: two sneak-peek puzzles, ideas we have not learnt yet; a guess is a great start and I do not know is welcome; nobody is marked. Children write on their own paper. Nobody holds paper to the camera. There is no private chat. Answers: 5:00; 9:00. Do not reveal puzzle 2 until Talk time. Do not write scores or keep a list.

6	12–23	**Explore: one hour later** s-explore1	[picture: clock] / Set your clock to 1 o'clock. / A film starts now. It lasts 1 hour. / Move the hands to show when it ends. / Which hand moved? Which hand stayed?	Round 1, about 4 minutes. Children use their cut-out clock (a face, one short hour hand, one long minute hand; a real clock or a paper plate clock is fine). Set 1 o'clock: short hand on 1, long hand on 12. A film lasts 1 hour: they move the hands to show the end. Ask what time it shows now (2 o'clock, 2:00), then which hand moved (the short hand, on by 1 number) and which stayed (the long hand, on 12). Then do half past 1 with 1 hour later (2:30). The slide shows only the start clock: the end is never on the slide. Do not name a child with a wrong answer. A child with no clock pieces uses a real clock or draws the hands.
7	12–23	**Explore: half an hour later** s-explore2	[picture: clock] / Set your clock to 1 o'clock. / A game lasts half an hour. Move the hands to show when it ends. / The game goes on for another half an hour. Move the hands again.	Round 2, about 5 minutes. From 1 o'clock, half an hour later is half past 1: the long hand goes half way round to the 6 (30 minutes) and the short hand sits half way between 1 and 2. Another half an hour later is 2 o'clock: the long hand goes the rest of the way round to the 12 and the short hand is now on 2. Ask: where is the long hand now; where is the short hand; what happened to the short hand when the long hand passed 12 (it moved on to the next number, the hour changed). The loose hands lie flat, so check the short hand sits between the numbers at half past. Answers: 1:30 then 2:00. The numbers differ from the sneak-peek puzzle.
8	12–23	**What did we notice?** s-explore3	One hour later: which hand moved? Which hand stayed? / Half an hour later: where did the long hand go? / What happened to the short hand when the long hand passed 12?	Take one or two answers from volunteers. Key ideas: one hour later keeps the long hand where it was and moves the short hand on by one number; half an hour later moves the long hand half way round (30 minutes); when the long hand passes 12, the hour changes. Repeat a child answer in your own words so the recording picks it up. Do not give the rule before the children say it.
9	23–34	**One hour later** s-m1	[picture: clock] / + 1 hour / [picture: clock] / NOTICE: / The short hand moves on 1 number. / The long hand stays on the 12.	Worked example: it is 10 o'clock and a job lasts 1 hour. One hour later it is 11 o'clock. The short hand moves on 1 number (10 to 11); the long hand stays on 12. Say it both ways: 10 o'clock, then 11 o'clock; digits 10:00 and 11:00. The digits show the same time as the clock. Then ask a new one on the children's clocks: it is 12 o'clock and a film lasts 1 hour; what time does it end (1:00: after 12 the numbers go round to 1). Link to Explore: this is what the hands did on your clock.
10	23–34	**Half an hour later** s-m2	[picture: clock] / + half an hour / [picture: clock] / [picture: number_line]	Worked example: 10 o'clock and half an hour later is half past 10 (10:30): the long hand goes half way round, 30 minutes. On the time line each jump is half an hour (30 minutes). A second half an hour from 10:30 lands on 11 o'clock (11:00): two half hours make 1 hour, and the hour changes from 10 to 11. The last tick is an empty box while you ask: what is half an hour after half past 10 (11:00)? Children answer aloud. Say that half an hour is the same as 30 minutes.
11	23–34	**Going back** s-m3	[picture: number_line] / The film ended at 6 o'clock. It lasted 1 hour. When did it start?	Counting back to find a start. The film ended at 6 o'clock and lasted 1 hour, so jump back 1 hour on the time line: 5 o'clock (5:00). Ask: when did it start? Say the answer after the children have tried; the box on the line is empty until then. The short hand goes back one number and the long hand stays. This is the move for Think harder: the end and how long are known, the start is the missing number. Answer: 5:00.
12	23–34	**Your turn: going back** s-m3b	[picture: number_line] / The class ended at 10 o'clock. It lasted half an hour. When did it start? / Write the start time on your paper.	Your turn, one try at going back. The class ended at 10 o'clock and lasted half an hour, so jump back half an hour (one tick on this line) to 9:30. Children write the start time on their own paper; wait 10 seconds before helping. Read the answer aloud afterwards: 9:30. Nobody holds paper up. A child who writes 9:00 went back 1 hour; a child who writes 10:30 added instead of going back: show it on the clock. Answer: 9:30.

13	23–34	**How long?** s-m4	[picture: clock] / [picture: clock] / [picture: clock] / [picture: clock] / How long does each one last?	Two pairs of clocks. A starts at 7 o'clock and ends at 8 o'clock: the short hand moved on 1 number and the long hand did not move, so it lasted 1 hour. B starts at 7 o'clock and ends at half past 7: the long hand went half way round, so it lasted half an hour. Ask: how long does A last; how long does B last. Say the answers after the children have tried. A child who is unsure counts the 5-minute steps the long hand makes (12 steps is 1 hour, 6 steps is half an hour).
14	23–34	**Starts, lasts, ends** s-m5	[picture: table] / Your turn: find the end of Games and Craft. Write on your paper.	A start, lasts, ends table. The first row is worked: tea starts at 3:00 and lasts half an hour, so it ends at 3:30. Your turn: games start at 9:00 and last 1 hour (ends 10:00); craft starts at 11:00 and lasts half an hour (ends 11:30). Children write the two ends on their own paper; walk the cameras and wait 10 seconds before helping. Nobody holds paper up. The next slide shows the filled table and children tick their own work. Answers: 10:00; 11:30.
15	23–34	**Check: starts, lasts, ends** s-m5a	[picture: table]	Read the two answers aloud so a child watching the recording can tick their own work: games end at 10:00 and craft ends at 11:30. Never ask a child to show a wrong answer to the group. A child who wrote 9:30 for games added half an hour instead of 1 hour: show it on the clock.
16	34–38	**Clock arms** s-break	Stand up. Make a clock with your arms. / One arm points up for the 12. The other arm is the short hand. / Sip some water.	Four minutes. Stand up on camera with a little clear space. Call times and children make the hands with their arms: one arm is the long hand, one is the short hand. Call 12 o'clock (both arms up), 3 o'clock (long arm up, short arm out to the side), 6 o'clock (long arm up, short arm down), 9 o'clock (long arm up, short arm out the other side), then half past 6 (long arm down, short arm half way between 6 and 7). Then call one hour later from 3 o'clock. No equipment, no running. A child may stay seated and use fingers. Do not give prizes or compare children.
17	38–70	**Workbook page 1: Start here** s-ws1	Questions 1 to 3. Take your time. / questions S1, S2, S3	Read questions 1 to 3 aloud. Children work on their own with their clock; the tutor walks the cameras and asks how do you know. Wait 10 seconds before helping. After question 3 any child may choose to carry on or try Think harder. Question 1: a class starts at 8 o'clock and lasts 1 hour; draw the hands on the empty clock and write the end. Question 2: read the start clock; the film lasts 1 hour. Question 3: Ali swims from 8:30 am for 1 hour.
18	38–70	**Check page 1** s-ws1ans	answers S1, S2, S3	Read each answer aloud. Children tick their own page with a tick. Never ask a child to show a wrong answer to the group. Answers: Q1 9:00 (short hand on 9, long hand on 12); Q2 3:00; Q3 9:30 am.
19	38–70	**Workbook page 2: Start here** s-ws2	Question 4. Take your time. / questions S4	Read question 4 aloud: it is 6 o'clock now; which of three clocks shows half an hour later? The clocks have their own slide so that the hands are large. Children may use their clock to check. Wait 10 seconds before helping. Question 5 is on the next slide and question 6 on the one after.
20	38–70	**Workbook page 2: question 5** s-ws2c	Question 5. Take your time. / questions S5	Question 5: two clocks show when the painting starts and ends; how long is it? Read the question aloud and say the two times (10:30 and 11:30) if a child cannot see the hands. Children may use their clock to check. Wait 10 seconds before helping.
21	38–70	**Workbook page 2: question 6** s-ws2b	Question 6. Fill in the time each job ends. / [picture: table]	Question 6 is on its own slide so that the table is big enough to read. Read it row by row: swimming starts at 3:00 and lasts 1 hour; reading starts at 8:00 and lasts half an hour; painting starts at 9:00 and lasts half an hour. Children fill in the Ends column in their workbook. Use the clock to check one row if a child is unsure. Wait 10 seconds before helping.
22	38–70	**Check page 2** s-ws2ans	answers S4, S5, S6	Read each answer aloud so a child watching the recording can tick their own work. Never ask a child to show a wrong answer to the group. Answers: Q4 clock B (6:30); Q5 1 hour; Q6 4:00, 8:30 and 9:30.

23	38–70	**Choose your next page** s-choice	Page | What it is / Think harder (page 3) | Starts at 4:15 and 9:45, going back, a zoo timetable / Go further (page 4) | A trip in two stages, and crossing noon / Investigation (page 5) | Plan the afternoon / Check | Finish and check your own work / Everyone may choose. Not finished? Pages 3 to 5 are for home too.	Invite the whole group at once, for example: when you have finished Start here, you can choose Think harder, Go further or the Investigation. Never announce who is on which page and never name a child. Pairs are not split unless both children agree. Model answers are in the tutor guide. About 5 minutes.
24	70–76	**Talk and explain** s-talk	TWO CHILDREN SAY: / One child: half an hour after 7:30 is 8:00. / Another child: half an hour after 7:30 is 8:30. / Who is right? How could we check on the clock? / I think … because …	One minute of talk to the grown-up next to you, or to your screen. Children test it on the clock: set 7:30, move the long hand half an hour on (half way round, from 6 to 12) and see where the short hand lands. Then volunteers first; a pass is always fine; never call a child by name to answer. Model answer: the first child is right. Half an hour is 30 minutes. From 7:30 the long hand goes from the 6 to the 12 and the short hand moves on to the 8, so it is 8:00. 8:30 is a whole hour after 7:30. Repeat each child answer in your own words for the recording. The two children are in another class: no cast name is given the wrong answer.
25	70–76	**Back to the sneak-peek** s-sneakans	Puzzle 1: 5:00. Puzzle 2: 9:00. Half past 8 and half an hour more is 9 o'clock.	Reveal both puzzles now. Say: many of you wrote a good reason. Do not read out anyone earlier answer. Puzzle 1: 4 o'clock and 1 hour later is 5 o'clock. Puzzle 2: half past 8 and half an hour later is 9 o'clock, because the long hand goes round to 12 and the short hand moves on to 9. It was the same idea as the two children, with different numbers.
26	76–82	**Exit ticket** s-exit	On your own. No looking back. / questions E1, E2, E3	Children answer on page 5. Read E1, E2 and E3 aloud, and the four options of E2 (the figures on the slide are small). Children tick their own ticket against the next slide. Nobody holds paper to the camera and there is no private chat.
27	76–82	**Check the exit ticket** s-exitans	answers E1, E2, E3	Read each answer aloud. Children tick their own ticket with a tick. Answers: 8:30; option 3, 2:30; 6:30 pm.
28	82–85	**Look-back** s-look	[look-back box]	Three minutes. Children tick or write the look-back box on page 5. A pass is always allowed. It is never marked, never collected in front of the group and never read out. If a child ticks I am still stuck, a grown-up may photograph that page after class and send it to the business WhatsApp (the number is in the parent summary, never on a slide). You then help in the open session next lesson. Never a direct message to a child. The Next time I will try row is optional.
29	85–90	**Well done, inquirers!** s-end	Show a grown-up one thing you found out today. / NEXT LESSON: / Dollars and Change / Have ready: the two play-money pages, cut out by a grown-up (29 pieces), and the $1 tokens from Term 2. Keep your clock.	Say goodbye and thank the grown-ups. Minutes 85 to 90 are flex time: the buffer. If you ran late, finish any open item (the look-back). Do not start anything new. Remind families that the next lesson needs the two play-money pages cut out by a grown-up (29 pieces: a week's notice, the most cutting of the term) and the $1 tokens from Term 2 Lesson 10, and that the clock stays in its envelope. If the whole class is ahead, show the optional slides and use the Spare-time menu from the tutor guide.
30	optional	**Go further: both ways** s-opt	A game lasts 1 hour. Another game lasts half an hour. Both end at 8:30. / Write the time each game started. Who started first?	Optional, only if you are on time. Both games end at 8:30. The 1-hour game started at 7:30 and the half-hour game started at 8:00, so the 1-hour game started first. The longer a game lasts, the earlier it must start to end at the same time. Take two answers and move on. This links to Go further and the Investigation.

31	optional	**If we have time: pick one** s-menu	Activity | What we do / Is it always true? | One hour later, the long hand stays. Try 12 o'clock too. / Make a puzzle | Pick a start and how long. Ask when it ends. / Teach it back | Show a toy why half an hour after half past 5 is 6 o'clock. / Optional. Everyone may join.	Optional Spare-time menu, used only if the whole class is ahead. Pick one or two activities (3 to 5 minutes each); full tutor lines and answers are in the tutor guide. Never start new content and never name who is ahead. Slow down with how do you know rather than rushing on. These minutes come from the flex buffer and are not part of the 90-minute sum.

8. Recording cues and chapter markers

Say each cue once, to the camera, at the start of the part. Add a chapter marker at each time. A child watching alone cannot ask you a question, so say the page and question number aloud, read each question and each answer aloud, and repeat a child's answer in your own words.

Chapter	Part	You say (recording voice)	A child watching later
0:00	Opening	*If you are watching the recording: hello! Get a pencil, paper, your workbook and your cut-out clock. Pause or rewind any time.*	Gather your workbook, clock pieces, pencil and paper. Press play when ready.
2:00	Remember warm-up	*Recording: join in! Look at each clock and say the time out loud. Pause if you need longer.*	Play along. Say each time out loud before the video does.
8:00	Sneak-peek puzzles	*Recording: pause now and try both puzzles on your paper. Guessing is fine. Press play for the next part.*	Pause. Try both puzzles on your own paper. A guess is fine.
12:00	Explore	*Recording: pause now. Set your clock, then move the hands to show one hour later, and half an hour later. Press play when you have tried.*	Pause. Set your clock, move the hands one hour later, then half an hour later.
23:00	Mini-lesson	*Recording: keep watching and copy the examples. Rewind if you miss a step.*	Watch and copy the examples. Rewind any step you missed.
34:00	Brain break	*Recording: stand up and join in! Make clock hands with your arms.*	Stand up. Make the clock hands with your arms for each time.
38:00	Workbook	*Recording: pause now and do workbook page 1. When you finish a page, press play to check it.*	Pause. Do page 1, then play to check. Then page 2. Then choose a page to try.
70:00	Talk time	*Recording: pause. Tell a grown-up who is right, and check it on your clock.*	Pause. Explain your answer to someone at home, and check it on your clock.
76:00	Exit ticket	*Recording: pause and do the exit ticket on your own. Then press play to check it.*	Pause. Do the exit ticket alone, then play to check it.
82:00	Look-back	*Recording: pause and fill in your look-back box. You can pass.*	Pause. Fill in the look-back box, or pass.
85:00	Flex time and goodbye	*Recording: well done for finishing! Show a grown-up one thing you found out.*	Show a grown-up your workbook and tell them one thing you found out.

9. Timing check (model, not a stopwatch)

Part	Allocated	Script	Slow class	Flag
opening	2:00	1:34	1:46	ok
remember	6:00	4:26	5:15	ok

sneak	4:00	3:08	3:41	ok
explore	11:00	8:52	10:28	ok
mini	11:00	8:30	10:00	ok
break	4:00	3:17	3:54	ok
work	32:00	26:37	31:43	ok
talk	6:00	4:33	5:24	ok
exit	6:00	4:47	5:38	ok
look	3:00	2:23	2:48	ok
flex	5:00	0:47	0:54	ok
Total	90:00	68:54	81:30	

Assumptions as docs/audit/timing_p1.md: speech 120 words a minute, read-aloud 110, slide change 25 s, a group question 10 s thinking plus 20 s answers, papers to the camera 30 s. Workbook: Start here has 6 questions; a middle child needs about 7.5 min for page 1 and 9.0 min for page 2 (a slower child about 1.7 times as long, so may finish page 1 and part of page 2; that is fine, the check-together slides cover every answer). The lesson has no breakout rooms, so no breakout time is counted.
