Investigation (page 5): Plan the afternoon

First: 1:30 pm. From 12:30 pm to 3:00 pm is 2 hours and half an hour. Only 1 hour + 1 hour + half an hour fits: swim and painting plus either the story or the snack, in any order. For example: swim 12:30 to 1:30, painting 1:30 to 2:30, story 2:30 to 3:00. Or swim, painting, snack. There are 2 different sets of jobs. Using all four jobs needs 3 hours, which is too long.

Look for: A child who writes a plan whose times join up (each job starts when the one before ends) and ends exactly at 3:00 pm; a child who finds the second set by swapping the story for the snack; a child who says why all four jobs do not fit. Credit any clear reason. Do not mark a child down for stopping at one plan. Any order of the jobs is fine. Do not ask a child how many sets there are: the count is for the tutor.
