

LEVEL 1 • TERM 4 • LESSON 10 • FOR PARENTS

10 Inquirers' Showcase

WHAT WE DID

We looked back over the year. Your child chose a favourite idea to teach, learned what a good puzzle needs (a story, numbers, one question and one answer), checked a puzzle a child in another class wrote, and played Mi's Challenge Quest, our end-of-year game, on private paper. Your tutor then sends one line about what we saw. Writing a puzzle with a rule and showing why its answer is the only one goes past the Primary 1 syllabus on purpose.

> **Teach what you found. A good puzzle has one answer and a check.**

TRY AT HOME (5 MINUTES)

1. Ask your child to teach you a favourite idea from the year in one minute: my idea, how it works, an example.
2. Write a puzzle together. Ask: does it have exactly one answer? How do you know?
3. Make a mistake on purpose in a sum. Ask your child to check it clue by clue.

When your child is stuck

Let your child look at a favourite page and wait 10 seconds before helping. Asking "What is the question?" works better than giving the answer. Please do not chant rules. If the look-back page says "I am still stuck", photograph it and send it to our business WhatsApp (+65 9880 5962). Photos are kept 90 days after the program ends.

Words we used

- puzzle: a story with numbers and one question
- clue: a fact that helps to find the answer
- rule: what the numbers must follow
- check: solve it a second way
- quest partner: you, or a brother or sister, beside your child

Good questions

- What is your favourite idea, and why?
- What does a good puzzle need?
- How do you know there is only one answer?

Have ready for next lesson

- Nothing to prepare yet. Your tutor will send a note about the first lesson of Level 2 or the holiday program
- Keep your Term 4 book and your Quest Log: you may like to look back at them

Next lesson

What comes next is the first lesson of Level 2 or the holiday program. Your tutor will tell you which one, and the start date, and send a note about what to have ready. Mi's Challenge Quest: please send one photo of each of the 4 pages to the business WhatsApp today. Online practice: your tutor will share the link. The recording link is private: please do not share it. Missed a lesson? Every lesson is recorded; your tutor will share a private link with enrolled families.

Your child is learning to choose a way to solve a problem, and to make and test their own puzzles. We share what we see in your child's thinking, never a rank or a mark compared with other children. Math Inquirers by Preciouslyours Pte Ltd.
