

LEVEL 1 • TERM 2 • LESSON 10 • FOR PARENTS

10 Find One First

WHAT WE DID

We found the cost of one by sharing a total equally ("4 pens cost $20, so 1 pen costs $5"), then the cost of many, with tokens and a strip. We met the words each, a dozen and such. Money is whole dollars only. Sharing within 20 and multiplying within 40 is Primary 1 work; chaining the steps, a dozen, such and how many can be bought go past the Primary 1 syllabus on purpose. Your child may also have taken the end-of-term check.

> **Find one, then find many.**

TRY AT HOME (5 MINUTES)

1. Shop: put 3 small things on the table and a price of $6 for the three. Ask your child to find the price of 1, then of 2, using tokens.
2. A dozen: look for a dozen of something (12 spoons, 12 buttons). Ask: if a dozen costs $24, how much does 1 cost?
3. Check it: ask your child to put the price of 1 back into the story. 4 pens at $3 each: do they make $12?

When your child is stuck

Let your child share tokens or counters one at a time, and wait 10 seconds before helping. Asking ‘how many do we want?’ works better than giving the answer. Please do not teach a rule or the division sign: tokens and ‘share equally’ are enough. Money is whole dollars only. If the look-back page says ‘I am still stuck’, photograph it and send it to our business WhatsApp (+65 9880 5962). Photos are kept 90 days after the program ends.

Words we used

- each: for one
- a dozen: 12
- such: of the same kind
- find one first: share the total equally to find the price of 1
- ×: groups of (6 × 3 is 6 groups of 3)

Good questions

- What do we find first?
- How do you know your answer is right?

Have ready for next lesson

- The printed workbook for the first lesson of Term 3 (print it a week before the first lesson of next term)
- A toy or real clock with a face, if you have one (optional)
- Pencil, rubber and paper
