LESSON 5 • TERM 2 • LEVEL 1

Equal Groups

Same-size groups, counted fast

TODAY WE WILL

Make equal groups and count them fast.

2–8 MIN

Warm-up: count in jumps

Touch the yellow numbers as we say them

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20
21	22	23	24	25	26	27	28	29	30
31	32	33	34	35	36	37	38	39	40

Count in 5s: 5, 10, 15 ...

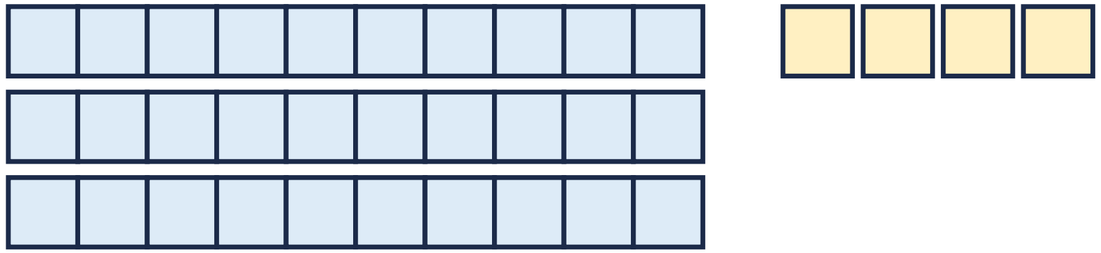

2s **5s** **10s**

Counting in jumps is fun!

Bundles of ten

2–8 MIN

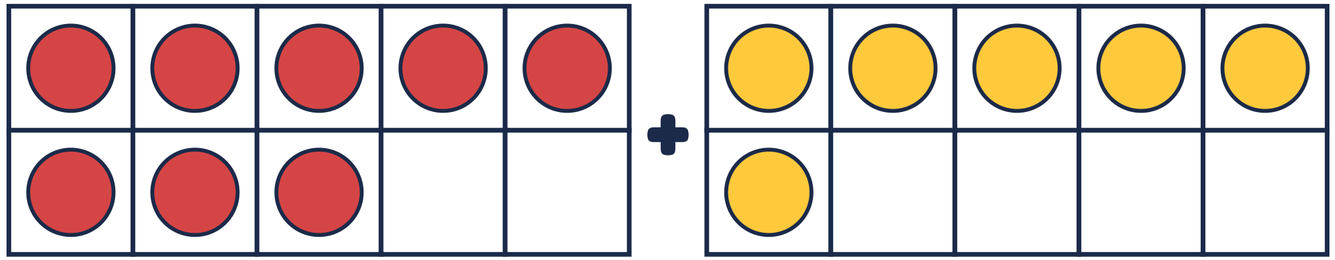

3 tens and 4 ones

Every bundle has the same number of sticks.

3 bundles

Make a ten

2–8 MIN

8 + 6: fill the first frame to make 10, then add the rest.

9 + 4 | 7 + 5

Sneak-peek puzzles

8–12 MIN

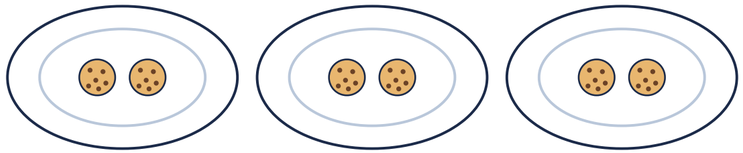

Ideas we have not learnt yet. A guess is a great start. Nobody is marked.

PUZZLE 1: anyone can try

Mei puts 2 cookies on each of 3 plates.

How many cookies are there altogether?

You may draw to help.

PUZZLE 2: think

Ben has 4 bags with 3 sweets in each bag.

Siti has 3 bags with 4 sweets in each bag.

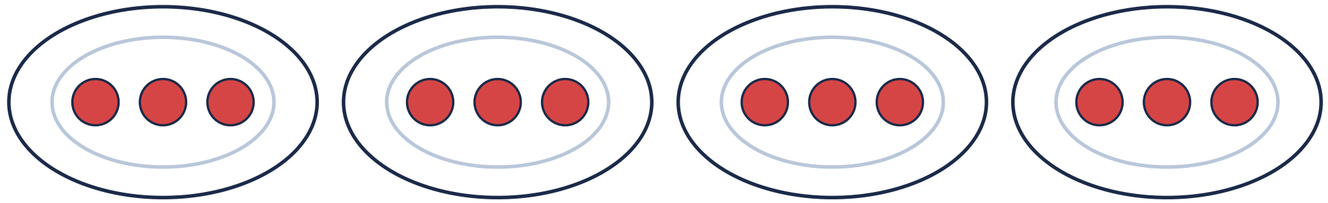

Who has more sweets? Circle Ben, Siti or Same.

Then write or draw how you know.

Explore: equal groups

12–26 MIN

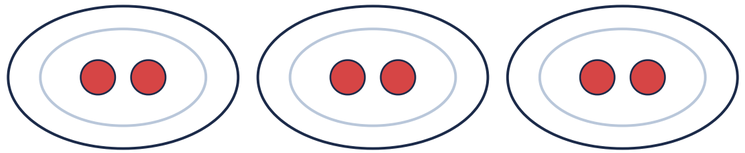

1. Put 3 counters on each of 4 plates.
2. Every plate has the same number. The groups are equal.
3. Count all the counters in jumps of 3.
4. Now try 5 counters on each of 3 plates.

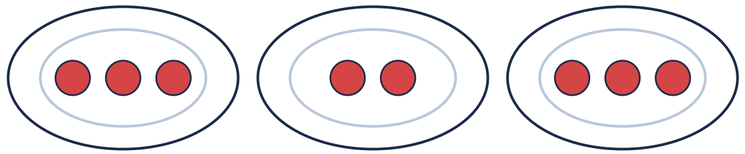

Are the groups equal?

12–26 MIN

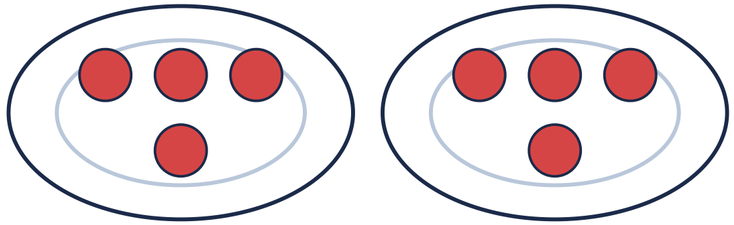

1 finger for equal. 2 fingers for not equal.

Picture A

Picture B

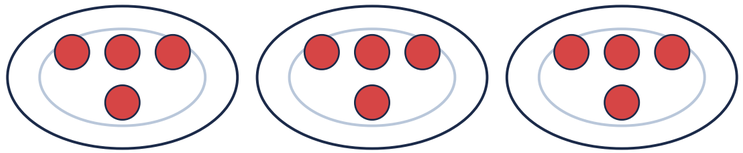

Picture C

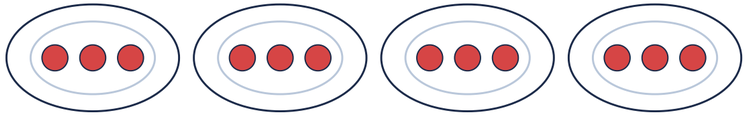

Two ways to see 12

12–26 MIN

Use the same 12 counters both times.

3 groups of 4

4 groups of 3

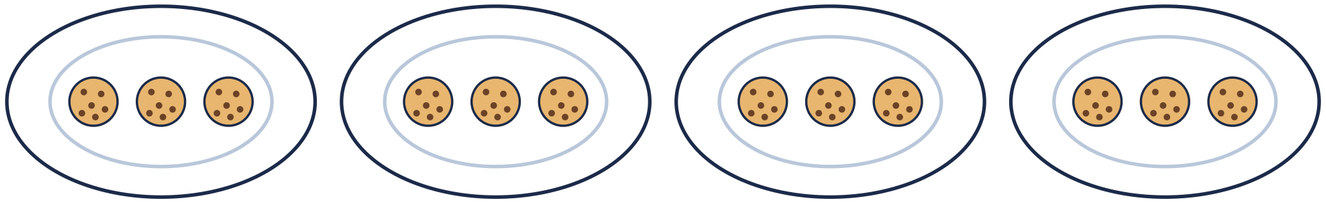

What did we notice?

12–26 MIN

- What makes groups equal?
- How can we count equal groups fast?
- What stayed the same when we changed 3 groups of 4 to 4 groups of 3?

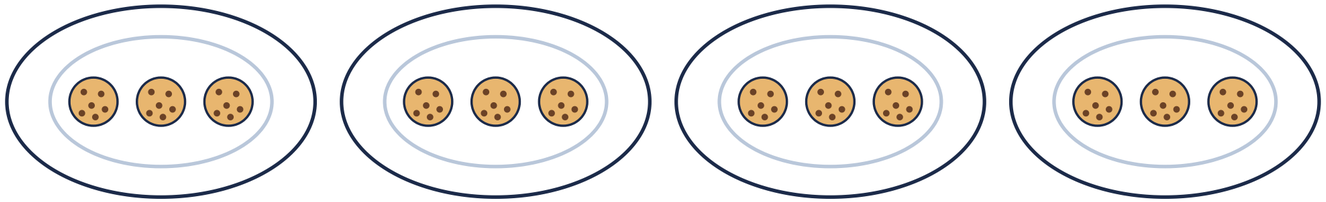

Groups of

26–38 MIN

Groups of

26–38 MIN

Say it	Add it
4 groups of 3	3 + 3 + 3 + 3 = 12

The × sign

26–38 MIN

Groups of	Add	× sentence
4 groups of 3	3 + 3 + 3 + 3 = 12	4 × 3 = 12

× means groups of: the first number is how many groups.

The × sign

26–38 MIN

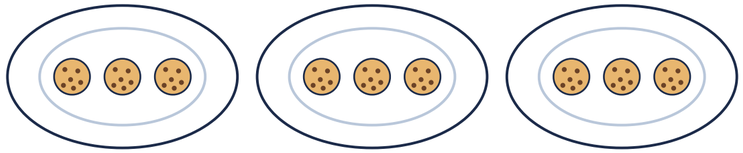

Groups of	Add	× sentence
4 groups of 3	3 + 3 + 3 + 3 = 12	4 × 3 = 12

× means groups of: the first number is how many groups.

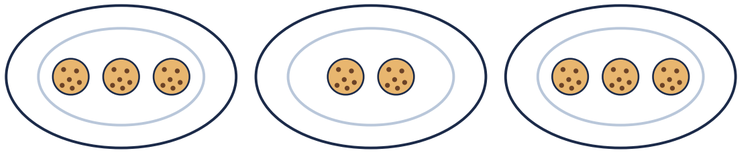

5 groups of 2: 2 + 2 + 2 + 2 + 2 = 10, so 5 × 2 = 10.

Equal groups only

26–38 MIN

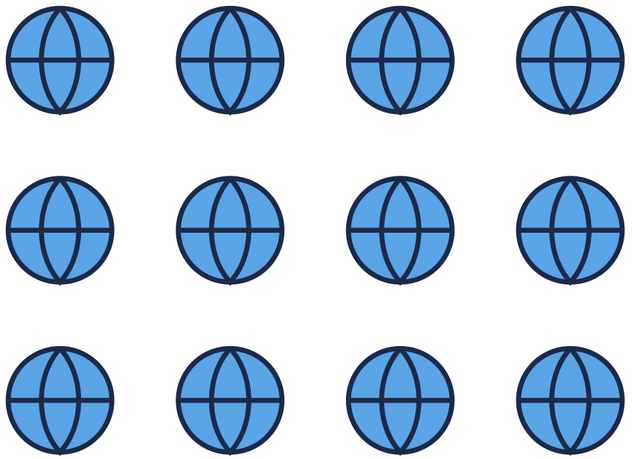

Equal groups: 3 groups of 3. We can write 3 × 3.

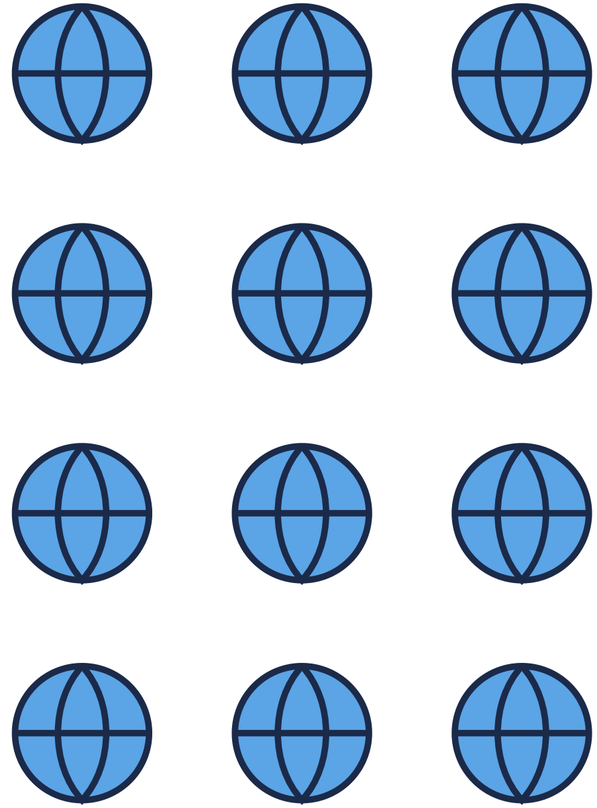

Not equal groups: 3, 2 and 3. We cannot write a × sentence yet.

Rows and columns

26–38 MIN

3 rows of 4: 3 × 4 = 12

Turn it: 4 rows of 3: 4 × 3 = 12

Your turn

26–38 MIN

Write the sum, the × sentence and the total.

2 groups of 6

3 groups of 6

4 groups of 4

Check: groups of

26–38 MIN

Groups of	Add	Total
2 groups of 6	6 + 6	12
3 groups of 6	6 + 6 + 6	18
4 groups of 4	4 + 4 + 4 + 4	16

38–42 MIN

Clap in groups

I say a group. Clap softly in groups and pause.

Say the total out loud together.

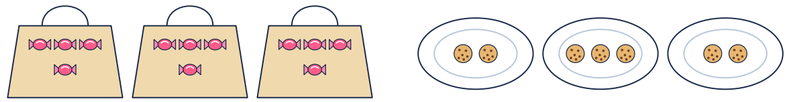

Stand up. Sip some water.

Workbook page 1: Start here

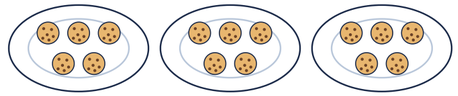

42–70 MIN

Questions 1 to 3. Take your time.

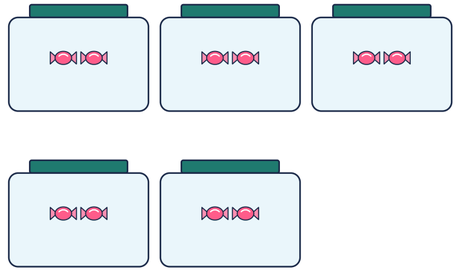

S1 Are the groups equal? Circle Yes or No for each picture.

S2 Look at the picture. Fill in the blanks.

S3 Mei has 5 jars. Each jar has 2 sweets. How many sweets does Mei have in all?

42–70 MIN

Check page 1

S1	Left: Yes. Right: No.
S2	3 plates; 5 cookies on each plate; 3 groups of 5 = 15
S3	2 + 2 + 2 + 2 + 2 = 10; 5 groups of 2 = 10

Workbook page 2: Start here

42–70 MIN

Questions 4 to 6. Take your time.

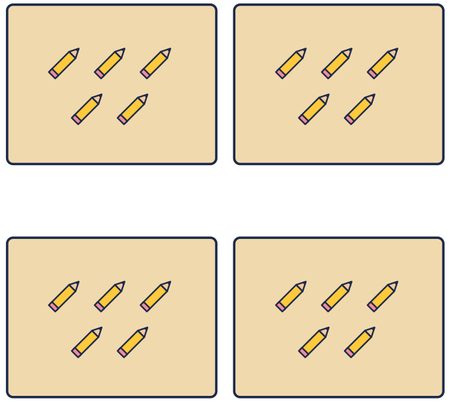

S4 Draw 4 dots on each plate. Then fill in the blank.

S5 Fill in the table.

Groups	In each	Total
3	5	☐☐
4	2	☐
2	5	☐☐

S6 Aisha has 4 boxes. Each box has 5 pencils. How many pencils does Aisha have in all?

Check page 2

42–70 MIN

S4	3 groups of 4 = 12
S5	15, 8, 10
S6	4 × 5 = 20 (5 × 4 = 20 is also right); 20 pencils

42–70 MIN

Choose your next page

Page	What it is
Think harder (page 3)	Arrays and missing numbers
Go further (page 4)	Two kinds of groups
Investigation (page 5)	Arrays with 12 counters
Check	Finish and check your own work

Everyone may choose. Not finished? Pages 3 to 5 are for home too.

Talk and explain

70–76 MIN

MEI TRIES 2 GROUPS OF 5 AND 5 GROUPS OF 2

She says: swap the numbers and the total stays the same.

Is Mei right? How could we be sure?

I think … because …

Back to the sneak-peek

70–76 MIN

Ben: 4 bags of 3

Siti: 3 bags of 4

The same! 12 each. 4 × 3 = 3 × 4.

Exit ticket

76–82 MIN

On your own. No looking back.

E1 **Fill in the blank.**

(a) 5 + 5 + 5 + 5 = ☐☐

E2 **Which is the same as 4 groups of 3? Write its number in the bracket.**

E3 **Ali has 3 boxes. Each box has 4 pencils. How many pencils does Ali have in all?**

(a) Write a number sentence. ☐ ◯ ☐ = ☐

(b) Ali has ☐☐ pencils in all.

Check the exit ticket

76–82 MIN

E1	20
E2	(2) 3 + 3 + 3 + 3
E3	3 × 4 = 12 (4 × 3 = 12 is also right); 12 pencils

Look-back

82–85 MIN

Three minutes. There are no right answers. You can pass. Nobody reads it out.

Something I did well	write or draw one thing
The hardest part was …	☐ telling equal from not equal ☐ counting the groups ☐ writing the × sentence ☐ something else
What helped me	☐ counters on plates ☐ drawing it ☐ counting in jumps ☐ I was not stuck
Next time I will try	☐ drawing it ☐ using objects ☐ checking my answer ☐ asking a question
	☐ I am still stuck (my grown-up will photograph this page for my tutor) ☐ I would like to pass

Take your time. You can pass.

85–90 MIN

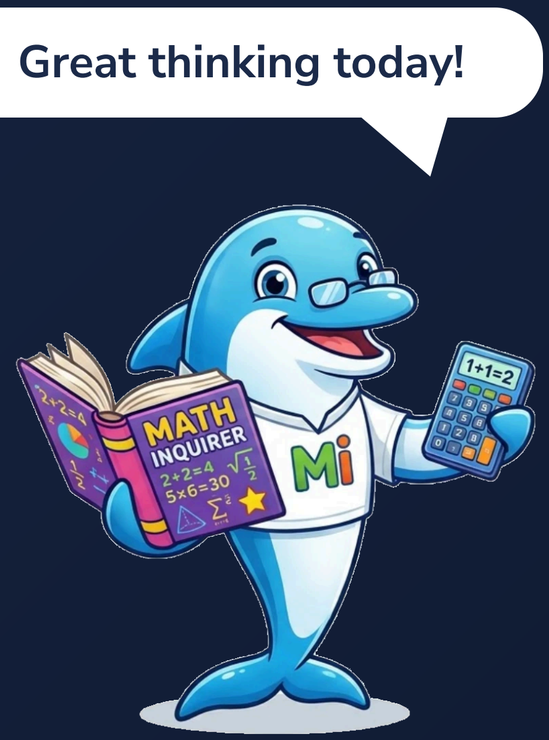

Well done, inquirers!

Show a grown-up one thing you found out today.

NEXT LESSON

Skip-Count Tables

Have ready: next lesson’s workbook printed (your tutor sends it ahead) with the 100 square page, 2 or 3 coloured pencils, about 20 counters, pencil and paper.

Go further: what if?

OPTIONAL

Mei has 3 bags with 5 sweets in each bag. Ali has 5 bags with 3 sweets in each bag.

Who has more sweets?

Try it with counters, then tell a friend how you know.

OPTIONAL

If we have time: pick one

Activity	What we do
Is it always true?	Swap two numbers. Does the total stay the same?
Make a puzzle	Draw equal groups. Ask your grown-up for the total.
Teach it back	Show a toy 3 groups of 5 with counters

Optional. Everyone may join.
