Kit page: paper strips

A grown-up cuts out all 14 strips before the lesson. They are the sticks for triangles and squares in a row. We build up to 4 triangles in class and use up to 13 strips in the Investigation. No printer or no cutting? Use 14 short strips of paper or straws of the same length. Keep the strips in an envelope. Never use matches or toothpicks.

Print this page on its own sheet, or on one side only, so cutting never spoils another page. A grown-up cuts; children do not use scissors. Keep the pieces in an envelope with your name. We use them again.

Sticks: a grown-up cuts out all 14.
