MAKE A TABLE!

Name _____ Date _____

After question 2 you may choose: carry on, or try **Think harder**.

Use your strips to check. Look at how the numbers grow.

No.S1

Squares in a row are made with sticks. Look at the three pictures. Count the sticks in each.

(a) 1 square uses _____ sticks.

(b) 2 squares use _____ sticks.

(c) 3 squares use _____ sticks.

No.S2

For every 3 red beads there are 2 blue beads. Fill in the table. The last column is spare.

Groups	1	2	3	4	5
Red beads	3	6		12	
Blue beads	2	4	6		

Ali uses 10 blue beads. How many red beads does he use? _____

Name _____ Date _____

Use the table to go further. How many more each time?

No.S3

Siti keeps adding squares to the row. Fill in the table. The last column is spare.

Squares	1	2	3	4	5	6	7
Sticks	4	7	10	☐	☐	☐	

(a) Each new square needs _____ more sticks.

(b) 7 squares need _____ sticks.

No.S4

Ravi reads 5 pages each day. The table shows the pages he has read in all. Fill in the table.

Day	1	2	3	4	5	6
Pages	5	10	☐	20	☐	☐

Ravi has read 25 pages in all. It is day _____.

No.S5

Look at the squares in a row. Tick True or False for each statement.

Statement	True	False
Each new square needs 3 more sticks.	☐	☐
4 squares need 16 sticks.	☐	☐
6 squares need 19 sticks.	☐	☐

Put a tick (✓) in the correct box.

Name _____ Date _____

Use your strips, the table or a rule in words. Choose any question, in any order.

No.T1

Mi makes triangles in a row with sticks. Fill in the table. Then finish the rule.

Triangles	1	2	3	4	10	20
Sticks	3	5	7	9		

Double the number of triangles, then add _____ .

No.T2

Look at rows of triangles made with sticks.

(a) Can exactly 20 sticks make a row of triangles with none left over? Circle Yes or No. **Yes** **No**

(b) Are the sticks in a row of triangles always odd, or always even? Circle one. **odd** **even**

(c) Can exactly 25 sticks make a row of triangles with none left over? Circle Yes or No. **Yes** **No**

No.T3

A child made a table for squares in a row. One number is wrong.

Squares	1	2	3	4	5	6
Sticks	4	7	10	12	16	19

(a) Which number of squares has the wrong number of sticks? Circle 3, 4 or 5. **3** **4** **5**

(b) The right number is _____ .

(c) The sticks go up by _____ each time.

Name _____ Date _____

Choose any question. You do not have to finish them all.

No.G1

Picture 100. Look at the tables for rows of triangles and rows of squares.

Pictures	1	2	3	4
Triangle sticks	3	5	7	9
Square sticks	4	7	10	13

(a) 100 triangles in a row need _____ sticks.

(b) 100 squares in a row need _____ sticks.

(c) 50 squares in a row need _____ sticks.

No.G2

Work back from the number of sticks.

(a) 31 sticks make a row of triangles, with none left over. How many triangles? _____

(b) 37 sticks make a row of squares, with none left over. How many squares? _____

No.G3

A row of squares and a row of triangles have the same number of pictures.

(a) With 10 pictures each, the squares need _____ more sticks.

(b) With 20 pictures each, the squares need _____ more sticks.

(c) With 5 pictures each, the squares need _____ more sticks.

Name _____ Date _____

Investigation: Strips left over

First: Make 3 triangles in a row. How many strips do you use? _____

Next: You have 14 strips. What is the most triangles in a row you can make? What is the most squares? Can you use all 14 strips?

Exit ticket

On your own, at the end of the lesson. No looking back.

No.E1

Each tray holds 7 cups. 1 tray has 7 cups. 2 trays have 14 cups.

3 trays have _____ cups.

No.E2

Mei reads 3 pages each day. How many pages does she read in 5 days? Choose the correct answer. Write its number in the bracket.

(1) 8

(2) 12

(3) 15

(4) 35

( )

No.E3

Rows of triangles use 3, 5, 7 and 9 sticks for 1, 2, 3 and 4 triangles. Each new triangle needs 2 more sticks.

8 triangles need _____ sticks.

Look-back There are no right answers. You can pass. Nobody reads it out.

Something I did well:

The hardest part was ... ☐ counting the sticks ☐ finding the number more each time ☐ using the table ☐ something else

What helped me: ☐ my strips ☐ the table ☐ checking my answer ☐ I was not stuck

Next time I will try: ☐ using my strips ☐ checking the table ☐ checking my answer ☐ asking a question

☐ I am still stuck (my grown-up will photograph this page for my tutor)

☐ I would like to pass

Name _____ Date _____

Kit page: paper strips

A grown-up cuts out all 14 strips before the lesson. They are the sticks for triangles and squares in a row. We build up to 4 triangles in class and use up to 13 strips in the Investigation. No printer or no cutting? Use 14 short strips of paper or straws of the same length. Keep the strips in an envelope. Never use matches or toothpicks.

Print this page on its own sheet, or on one side only, so cutting never spoils another page. A grown-up cuts; children do not use scissors. Keep the pieces in an envelope with your name. We use them again.

Sticks: a grown-up cuts out all 14.
