

LEVEL 1 • TERM 3 • LESSON 2 • FOR PARENTS

2 Five Minutes at a Time

WHAT WE DID

We learned to read the minutes on a clock. The long hand counts in 5s: the 1 is 5 minutes, the 2 is 10, the 3 is 15. Your child read and wrote times such as 4:10 and 7:25, noticed that the short hand waits at the hour until the long hand has gone all the way round, and chose am or pm for events in a day. Reading and writing 5-minute times is Primary 1 school work. The Go further page has Chunk the Gap puzzles (how many minutes from 3:10 to 4:05?). Finding how long something lasts is not part of Primary 1; it is on the page for children who enjoy a puzzle.

> **The long hand counts the minutes in 5s. The short hand waits at the hour.**

TRY AT HOME (5 MINUTES)

1. Clock talk: at a few times in the day, ask your child to read your clock or a watch in digits, then say am or pm.
2. Count in 5s: point the long hand at each number on the cut-out clock and count 5, 10, 15 together. How many minutes is it at the 8?
3. Set and swap: you set a time on the cut-out clock, your child reads it. Swap, and make a mistake on purpose for your child to find.

When your child is stuck

Let your child move the hands and count in 5s, and wait 10 seconds before helping. Please do not say 'ten past' or 'quarter to' yet: digits are the main thing. If the look-back page says 'I am still stuck', photograph it and send it to our business WhatsApp (+65 9880 5962). Photos are kept 90 days after the program ends.

Words we used

- minutes: counted by the long hand, 5 for each number
- colon and two digits: 4:05 (not 4:5)
- am: morning, from the middle of the night to noon
- pm: afternoon and evening, from noon to the middle of the night
- h and min: 1 h 20 min is 1 hour and 20 minutes

Good questions

- Which hand counts the minutes?
- How do you know it is not the next hour?
- Is that am or pm?

Have ready for next lesson

- Your clock from the first lesson of Term 3 (2 faces and 6 hands), kept in its envelope; a real clock also helps
- Pencil, rubber and paper
