Who Is Where?: practice at home

Name _____ Date _____

About 15 minutes, a few days after the lesson. Use toys in a row, or draw the line. A grown-up may read the questions aloud. Wrong answers are fine: they show what to try next.

No.1

Start here

Put 6 toys in a row. Put a coin on the 4th toy from the front. The coin is on the toy that is _____ from the back.

No.2

Start here

Kumar is 7th in the line. There are _____ children in front of Kumar.

No.3

Start here

Aisha is 2nd. Wei is right behind Aisha. Lily is right behind Wei. Lily is _____ in the line.

No.4

Think harder

Jenny is 4th from the front and 4th from the back. How many children are in the line? Write: I know because ...

No.5

Go further

Draw a line of 9 children. Ali is in the middle. Ben stands 2 places behind Ali. Ben is _____ from the front.

Answers for grown-ups

Please let your child try first, then check together. Ask *how do you know?* If your child is stuck, wait 10 seconds, then suggest drawing it.

1. 3rd
From the front the coin is on the 4th toy. Count from the back: the last toy is 1st, then 2nd, then the coin toy is 3rd.

2. 6 children
The children in front are the 1st to the 6th. That is 6 children. Kumar himself is the 7th.

3. 4th
Wei is right behind Aisha, so Wei is 3rd. Lily is right behind Wei, so Lily is 4th.

4. 7 children
In front of Jenny are 3 children, behind her are 3 children, and Jenny makes 1. 3 + 1 + 3 = 7. It is not 8, because 4 + 4 counts Jenny twice.

5. 7th
A line of 9 has 4 children in front of the middle child and 4 behind, so Ali is 5th. Ben is 2 places behind Ali, so Ben is 5 + 2 = 7th.
