The School Shop: home practice answers

Name _____ Date _____

For grown-ups. Please let your child try first, then check together. Ask *how do you know?* If your child is stuck, wait 10 seconds, then suggest drawing it.

1. Yes. 3 and 4 make 7, and 7 is less than 10.
Add the prices: 3 and 4 make 7. 7 is less than 10, so $10 is enough.

2. 15
3 and 3 make 6, then 9, then 12, then 15. Five stickers cost $15.

3. 7
8 and 5 make 13. Count up from 13 to 20: 7. Mei has $7 left.

4. 0 five-dollar and 9 two-dollar; 2 five-dollar and 4 two-dollar (either way can come first)
No $5 notes: $18 is 9 two-dollar notes. One $5 note leaves $13, which $2 notes cannot make. Two $5 notes leave $8, which is 4 two-dollar notes. Three $5 notes are $15 and leave $3, which cannot be made.

5. 46 and 82
40 is 4 tens, a jump back: 46. 4 is a hop back: 82.

More practice online (no timers, no scores): ask your tutor for the practice link.
