Fill the Grid: home practice answers

Name _____ Date _____

For grown-ups. Please let your child try first, then check together. Ask *how do you know?* If your child is stuck, wait 10 seconds, then suggest drawing it.

1. square
The circle and the triangle are in the row, so the square is missing.

2. 2
The column has 3 and 1. The digit 2 is missing, so the ? is 2.

3. row 2: 2 3 1; row 3: 3 1 2
Row 2 starts with 2. The middle box cannot be 2 (the column has 2), so it is 3 or 1. If it were 1, the last box would be 3, but the last column already has 3. So row 2 is 2, 3, 1. Row 3 is the digits left in each column: 3, 1, 2.

4. 4
The second column already has 2 and 1, so the second box of row 3 is 3 or 4. Row 3 already has a 3 at the start, so the second box is 4.

5. 6
Count up: 47, 48, 49, 50, 51, 52. That is 6 steps.
