

LEVEL 1 • TERM 3 • LESSON 7 • FOR PARENTS

7 Fill the Grid

WHAT WE DID

We played with a grid. Your child filled a 3 by 3 grid with circles, squares and triangles so that every row and every column has one of each, found a missing shape from its row or its column, and used both together for a box that needed them. Finding the missing one in a row is early Primary 1 work. Solving a 4 by 4 grid of digits, finding a box from only two clues, and saying how many of each digit a bigger grid holds go past the school Primary 1 syllabus on purpose.

> **Look along the row. Look down the column. If it is not this and not that, it must be the other one.**

TRY AT HOME (5 MINUTES)

1. Grid game: use mat 1 from your kit page, or draw a 3 by 3 grid. Put 9 small things of 3 kinds (buttons, coins, pasta) on it. Every row and every column has one of each.
2. Cover and find: cover two boxes of a finished grid. Ask your child what is hidden and how they know.
3. Ask: how do you know? Which one told you, the row or the column?

When your child is stuck

Let your child use the tiles and wait 10 seconds before helping. Asking "what is in the row?" works better than giving the shape. Please do not teach a rule such as always start in a corner: the reason for each box is the lesson. If the look-back page says "I am still stuck", photograph it and send it to our business WhatsApp (+65 9880 5962). Photos are kept 90 days after the program ends.

Words we used

- row: boxes going across
- column: boxes going down
- grid: a square of boxes in rows and columns
- one of each: every shape once, none twice, none missing

Good questions

- What is in this row already?
- What is in this column?
- Why can it not be a circle?

Have ready for next lesson

- Your Term 3 book (Book 6): tear out the strip page along the dashed line, then a grown-up cuts out the 14 paper strips (no matches or toothpicks)
- The grid tiles are not needed again: keep them for puzzles at home
- A pencil, a rubber and paper

Next lesson

Next lesson: Make a Table. Online practice: your tutor will share the link. The recording has the tutor, the shared screen and any voice that is unmuted. Please do not share the link. Missed a lesson? Every lesson is recorded; your tutor will share a private link with enrolled families.
