

LEVEL 1 • TERM 1 • LESSON 4 • FOR PARENTS

4 The 100 Square Explorer

WHAT WE DID

We explored the 100 square. Your child counted in 10s, 5s and 2s with counters and saw the patterns: counting in tens makes one column, fives make two columns, twos make stripes. We also found that going right adds 1 and going down one row adds 10. Term 1 goes beyond the school Primary 1 syllabus on purpose, so some questions are harder than school work. Your child chooses how far to go, and can use the square and counters.

> **Going across a row adds 1. Going down a row adds 10.**

TRY AT HOME (5 MINUTES)

1. Counters on the square: say 5, 10, 15 and let your child cover each number. Swap and make a mistake on purpose for them to find. Keep small things away from mouths and little ones.
2. Move it: put a counter on any number. Call moves such as down 2 rows, right 3. Ask what number it is on now, and how they know.
3. Look for rows: a calendar has rows of 7. Ask what the date straight below adds (it adds 7), and why.

When your child is stuck

Please let your child use the printed square and counters, and wait 10 seconds before helping. Asking what could you try? works better than giving the answer. Please do not hurry. If the look-back page says 'I am still stuck', photograph it and send it to our business WhatsApp (+65 9880 5962). Photos are kept 90 days.

Words we used

- row: a line of 10 numbers going across
- column: a line of numbers going down
- ten more: one row down on the 100 square
- last digit: the ones digit, which tells us which counting pattern a number belongs to

Good questions

- How do you know?
- What pattern do you see?
- What would the next number be, and why?

Have ready for next lesson

- About 20 small things of two kinds (buttons, pasta, clips)
- The kit page cut out (tens bars and ones squares)
- Pencil, rubber and paper

Next lesson

Lesson 5: Make-a-Ten Adding. Online practice: your tutor will share the practice link. Missed a lesson? Every lesson is recorded; your tutor will share a private link with enrolled families.
