LESSON 6 • TERM 2 • LEVEL 1

Skip-Count Tables

Counting in jumps: the 2s, 5s and 10s

TODAY WE WILL

Build tables by counting in jumps.

2–8 MIN

Warm-up: count in jumps

Touch the yellow numbers as we say them

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20
21	22	23	24	25	26	27	28	29	30
31	32	33	34	35	36	37	38	39	40

Count in 2s: 2, 4, 6, 8 ...

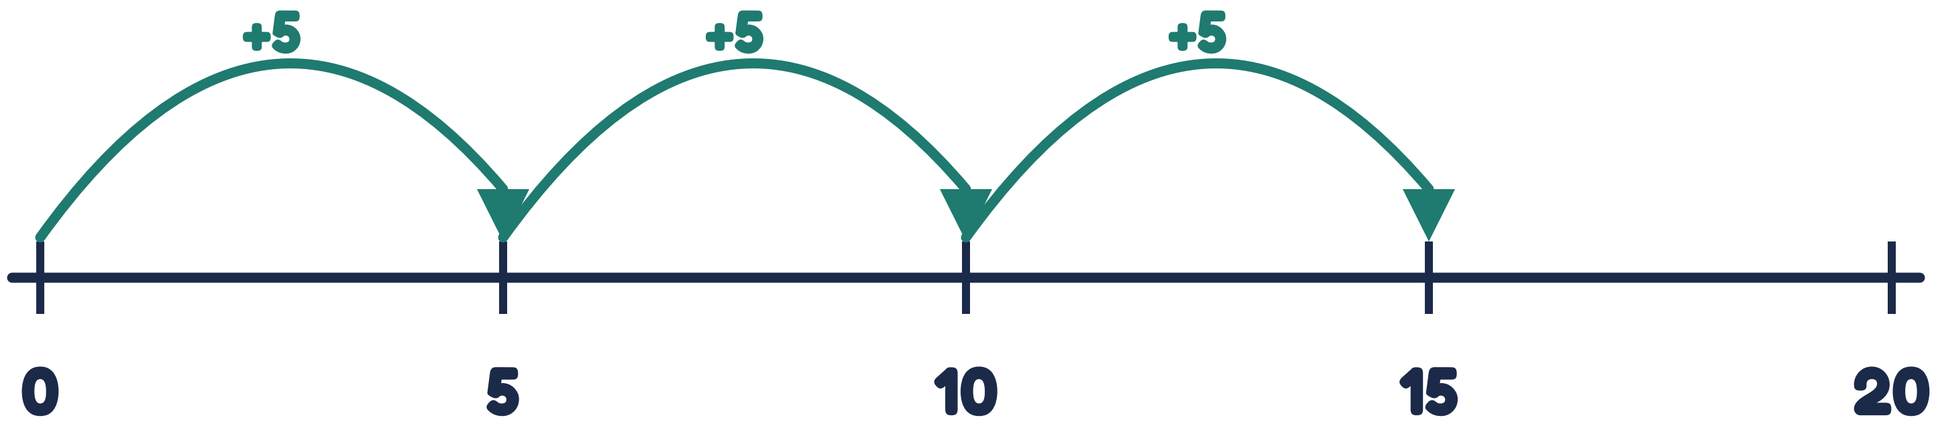

2s | **5s** | **10s**

Counting in jumps is fun!

Jumps on a number line

2–8 MIN

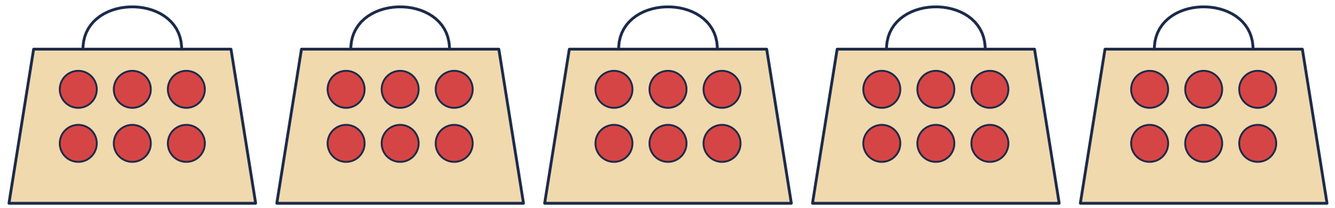

Every jump is the same size.

next jump | **3 jumps of 5** | **4 jumps of 2**

5 groups of 6

2–8 MIN

6 + 6 + 6 + 6 + 6: add one group at a time.

6 + 6 | **12 + 6** | **3 groups of 5**

Sneak-peek puzzles

8–12 MIN

Ideas we have not learnt yet. A guess is a great start. Nobody is marked.

PUZZLE 1: anyone can try

Jenny puts 5 stickers on each page.

She fills 4 pages.

How many stickers is that altogether?

You may draw or count in 5s.

PUZZLE 2: think

Ali counts in 2s: 2, 4, 6, 8 and so on up to 20.

Mei counts in 5s: 5, 10, 15, 20.

Which numbers do they both say?

Write them.

Explore: jumps of 5

12–26 MIN

1. Put a counter on 0, just before the 1.
2. Jump 5 at a time. Colour each number you land on.
3. Say it: 1 five is 5, 2 fives is 10, 3 fives is 15 …
4. How many jumps to land on 30?

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20
21	22	23	24	25	26	27	28	29	30
31	32	33	34	35	36	37	38	39	40

Jumps of 2 and of 10

12–26 MIN

Use a different colour for each table.

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20
21	22	23	24	25	26	27	28	29	30
31	32	33	34	35	36	37	38	39	40

- Jump 2 at a time: how many jumps to land on 12?
- Jump 10 at a time: how many jumps to land on 40?

What do you notice?

12–26 MIN

Look at the last digits of the numbers you landed on.

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20
21	22	23	24	25	26	27	28	29	30
31	32	33	34	35	36	37	38	39	40

- The 5s end in …
- The 10s end in …
- The 2s end in …

The 5s table

26–38 MIN

Jumps of 5	Say it	Write it
1 jump	1 five is 5	1 × 5 = 5
2 jumps	2 fives is 10	2 × 5 = 10
3 jumps	3 fives is 15	3 × 5 = 15
4 jumps	4 fives is 20	4 × 5 = 20
5 jumps	5 fives is 25	5 × 5 = 25
6 jumps	6 fives is 30	6 × 5 = 30
7 jumps	7 fives is 35	7 × 5 = 35
8 jumps	8 fives is 40	8 × 5 = 40

The 2s and the 10s

26–38 MIN

The 2s

1 × 2 = 2

2 × 2 = 4

3 × 2 = 6

4 × 2 = 8

5 × 2 = 10

6 × 2 = 12

The 10s

1 × 10 = 10

2 × 10 = 20

3 × 10 = 30

4 × 10 = 40

Last digits

26–38 MIN

Table	The last digit is
The 5s	5 or 0
The 10s	0
The 2s	0, 2, 4, 6 or 8

A last digit can tell you if a number is in a table.

Add or jump?

26–38 MIN

Sum	What it means	Total
6 + 5	6 and 5 more	11
6 × 5	6 jumps of 5	30

The sign tells you what to do.

Your turn

26–38 MIN

Write the fact and the total.

3 × 5	6 × 2	4 × 10	8 × 5

Check: the facts

26–38 MIN

Fact	Jumps	Total
3 × 5	5 + 5 + 5	15
6 × 2	2 + 2 + 2 + 2 + 2 + 2	12
4 × 10	10 + 10 + 10 + 10	40
8 × 5	5 + 5 + 5 + 5 + 5 + 5 + 5 + 5	40

38–42 MIN

Whisper and say

I count 1, 2, 3 … Say the 5s out loud.

Whisper the numbers in between.

Stand up. Sip some water.

Workbook page 1: Start here

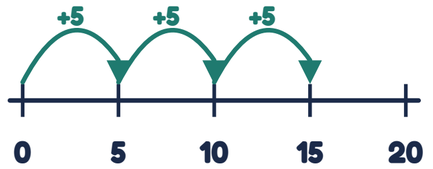

42–70 MIN

Questions 1 to 3. Take your time.

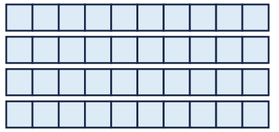

S1 Count in 5s. Fill in the missing numbers.

5	10	☐☐	20	☐☐	30	☐☐	40

S2 A frog jumps along the number line. Fill in the blanks.

S3 Ravi has 4 bundles of 10 straws. How many straws does Ravi have in all?

Check page 1

42–70 MIN

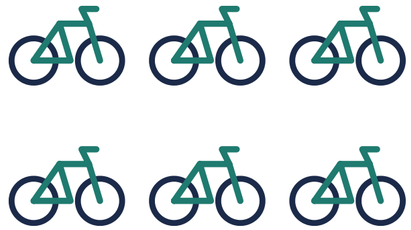

S1	15, 25, 35
S2	3 jumps; each jump is 5; 3 × 5 = 15
S3	10 + 10 + 10 + 10 = 40; 4 × 10 = 40

Workbook page 2: Start here

42–70 MIN

Questions 4 to 6. Take your time.

S4 Each bike has 2 wheels. How many wheels do 6 bikes have?

S5 Fill in the table.

Jumps of 5	Total
1 × 5	5
2 × 5	☐☐
4 × 5	☐☐
6 × 5	☐☐
8 × 5	☐☐

S6 Read each statement. Decide if it is True or False.

Check page 2

42–70 MIN

S4	12 wheels
S5	10, 20, 30, 40
S6	True, False, True, False

42–70 MIN

Choose your next page

Page	What it is
Think harder (page 3)	The 4s and numbers in two tables
Go further (page 4)	The 4s and 3s, and jumps
Investigation (page 5)	Last digits
Check	Finish and check your own work

Everyone may choose. Not finished? Pages 3 to 5 are for home too.

Talk and explain

70–76 MIN

WEI SAYS

A number is in the 5s table if its last digit is 5 or 0.

Is Wei right? How could we test it?

I think … because …

Back to the sneak-peek

70–76 MIN

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20
21	22	23	24	25	26	27	28	29	30
31	32	33	34	35	36	37	38	39	40

Yellow: 2s only. Green: 5s only. Border: both.

10 and 20 are in both. So are 30 and 40.

Exit ticket

76–82 MIN

On your own. No looking back.

E1 **Count in 5s. Fill in the missing numbers.**

5, 10, ☐☐, 20, ☐☐, 30

E2 **Which sentence is true? Write its number in the bracket.**

E3 **Ben puts 5 stickers on each of 6 pages. How many stickers does Ben have in all?**

(a) ☐ × ☐ = ☐☐

(b) Ben has ☐☐ stickers in all.

Check the exit ticket

76–82 MIN

E1	15 and 25
E2	(2) 4 × 10 = 40
E3	6 × 5 = 30; 30 stickers

Look-back

82–85 MIN

Three minutes. There are no right answers. You can pass. Nobody reads it out.

Something I did well	write or draw one thing
The hardest part was …	☐ counting the jumps ☐ writing the facts ☐ finding the last digits ☐ something else
What helped me	☐ the 100 square ☐ a counter as a frog ☐ drawing it ☐ I was not stuck
Next time I will try	☐ drawing it ☐ using objects ☐ checking my answer ☐ asking a question
	☐ I am still stuck (my grown-up will photograph this page for my tutor) ☐ I would like to pass

Take your time. You can pass.

85–90 MIN

Well done, inquirers!

Show a grown-up one thing you found out today.

NEXT LESSON

Sharing and Grouping

Have ready: about 20 counters or buttons, 5 plates or cups, pencil and paper.

Go further: what if?

OPTIONAL

Ben says: every number in the 10s table is also in the 5s table.

Is Ben right?

Try	In the 5s table?
10	Yes: 2 fives
20	Yes: 4 fives
30	Yes: 6 fives

OPTIONAL

If we have time: pick one

Activity	What we do
Is it always true?	Every number in the 10s is in the 5s. Test it.
Make a puzzle	Pick a number to 40. Ask your grown-up: is it in the 5s table?
Teach it back	Show a toy how to find 6 × 5 by jumping

Optional. Everyone may join.
