LESSON 5 • TERM 3 • LEVEL 1

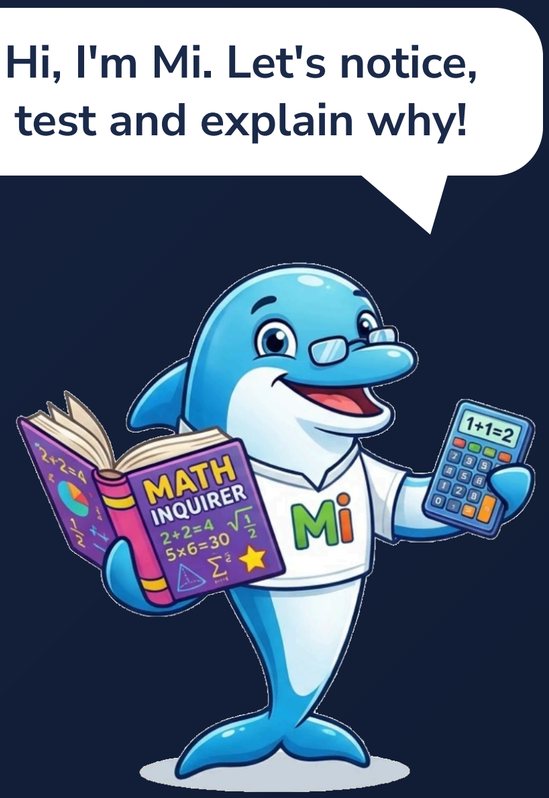

Price Tags: Compare and Choose

Which costs more? How much more?

TODAY WE WILL

Find which costs more, and how much more.

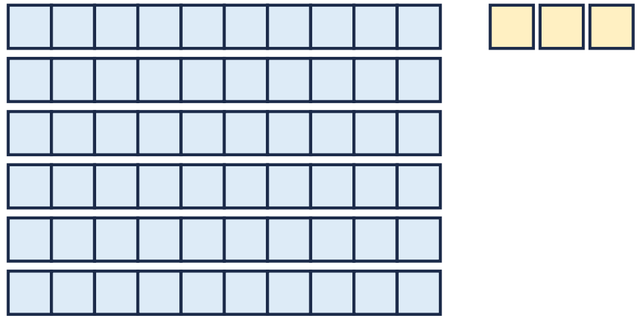

Warm-up: which is greater?

2–8 MIN

Which number is greater?

36

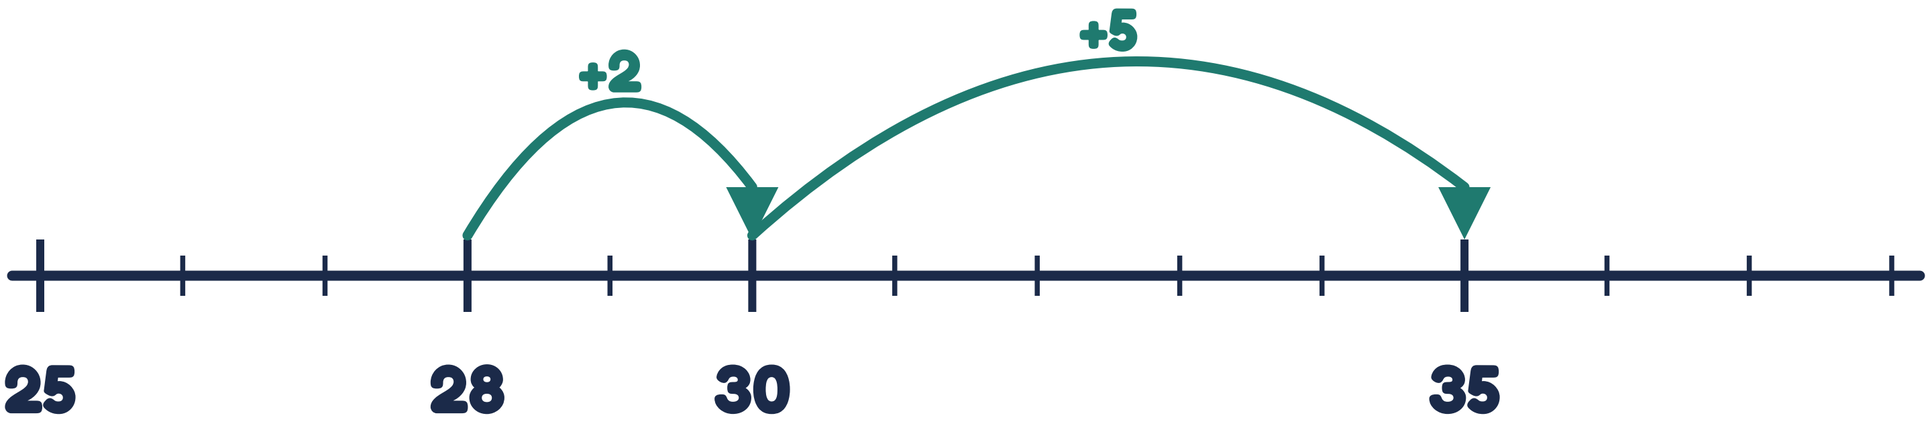

63

Take your time!

Count up to find the gap

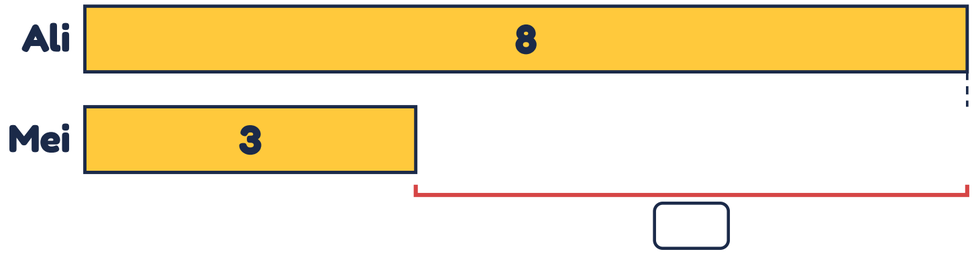

2–8 MIN

From 28 up to 35. How many steps in all?

Two strips and the gap

2–8 MIN

Ali has 8 stickers. Mei has 3. How many more does Ali have?

Sneak-peek puzzles

8–12 MIN

Ideas we have not learnt yet. A guess is a great start. Nobody is marked.

PUZZLE 1: anyone can try

A bag costs $13.

A hat costs $8.

Which costs more? Write bag or hat.

PUZZLE 2: think

A kite costs $5 less than a book.

The book costs $14.

How much does the kite cost? I know because ___.

Explore: put the tags in order

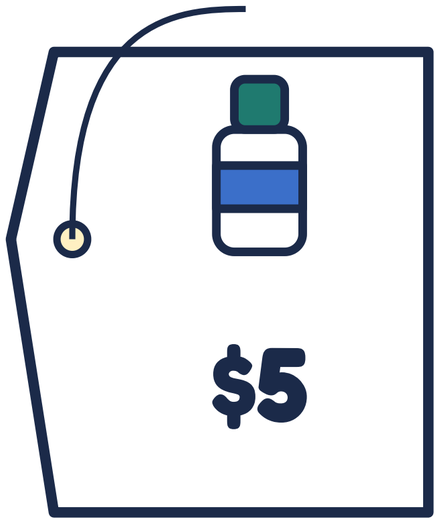

12–23 MIN

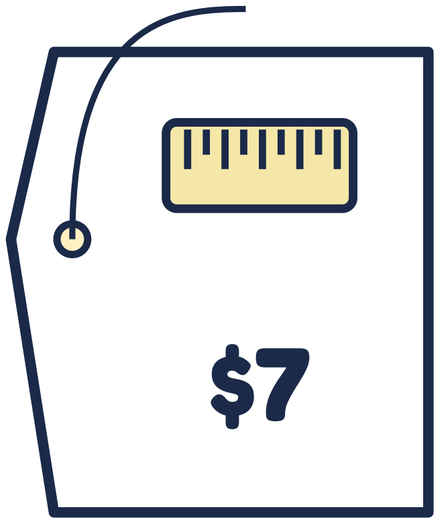

1. Take the pencil tag, the glue tag and the ruler tag.
2. Line them up. Put the tag that costs the least first.
3. Which tag costs the most?

In order: least to most

12–23 MIN

The ruler costs the most. The pencil costs the least.

Explore: how much more?

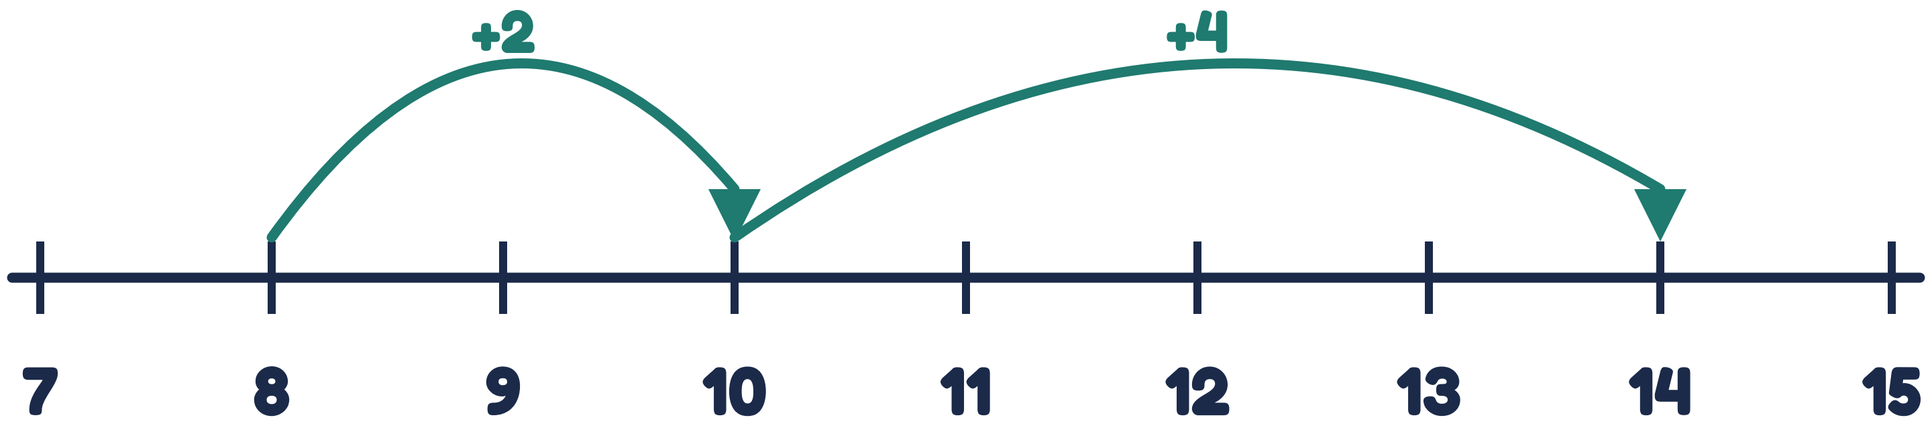

12–23 MIN

1. Take the cup tag and the ball tag.
2. Which costs more?
3. Count up from the cup price to the ball price. Use your fingers.
4. How many more dollars is the ball?

The gap is how much more

12–23 MIN

2 and 4 make 6. The ball costs $6 more than the cup.

What did we notice?

12–23 MIN

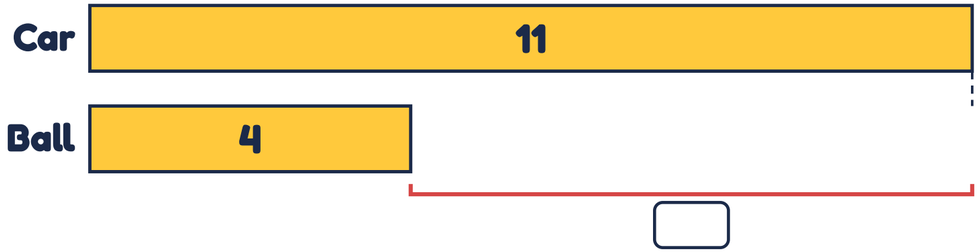

- The tag that costs more has the bigger number.
- How did you find how much more?
- What is the same about a gap on a line and a gap in two strips?

How much more?

23–34 MIN

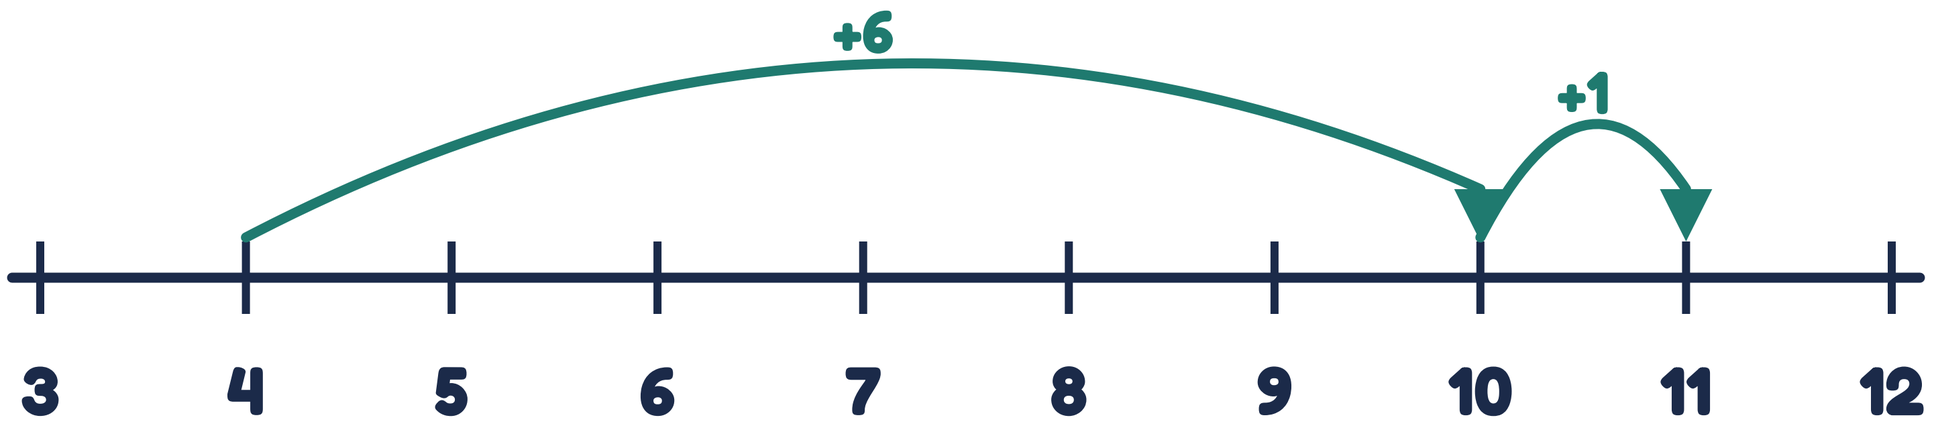

How much more does the car cost than the ball?

Count up: the gap is 7

23–34 MIN

6 and 1 make 7. The car costs $7 more than the ball.

Your turn: how much more?

23–34 MIN

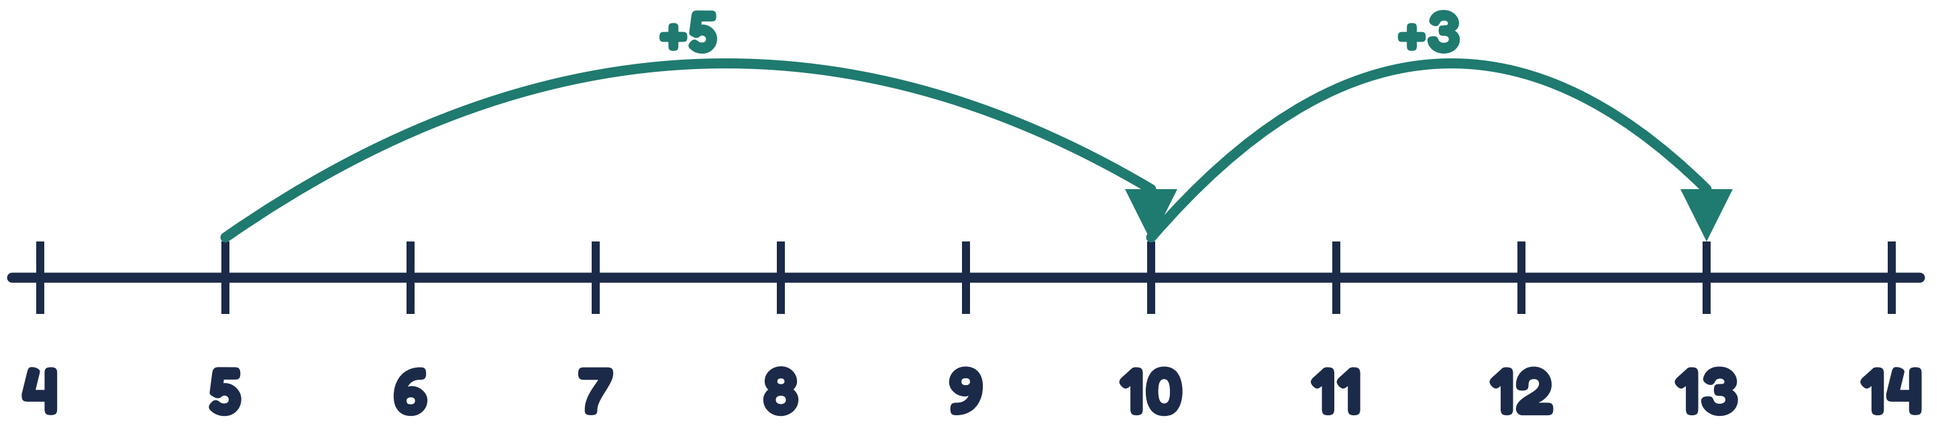

How much more does the bag cost than the pen? Write the number on your paper.

Check: the gap is 8

23–34 MIN

5 and 3 make 8. The bag costs $8 more than the pen.

Altogether

23–34 MIN

Ben buys the cup and the rubber. How much does he pay altogether?

Altogether: add the prices

23–34 MIN

$10 + $2 = $12. Ben pays $12 altogether.

A sticker book $3 and a bag $13: $3 + $13 = $16.

Change: count up

23–34 MIN

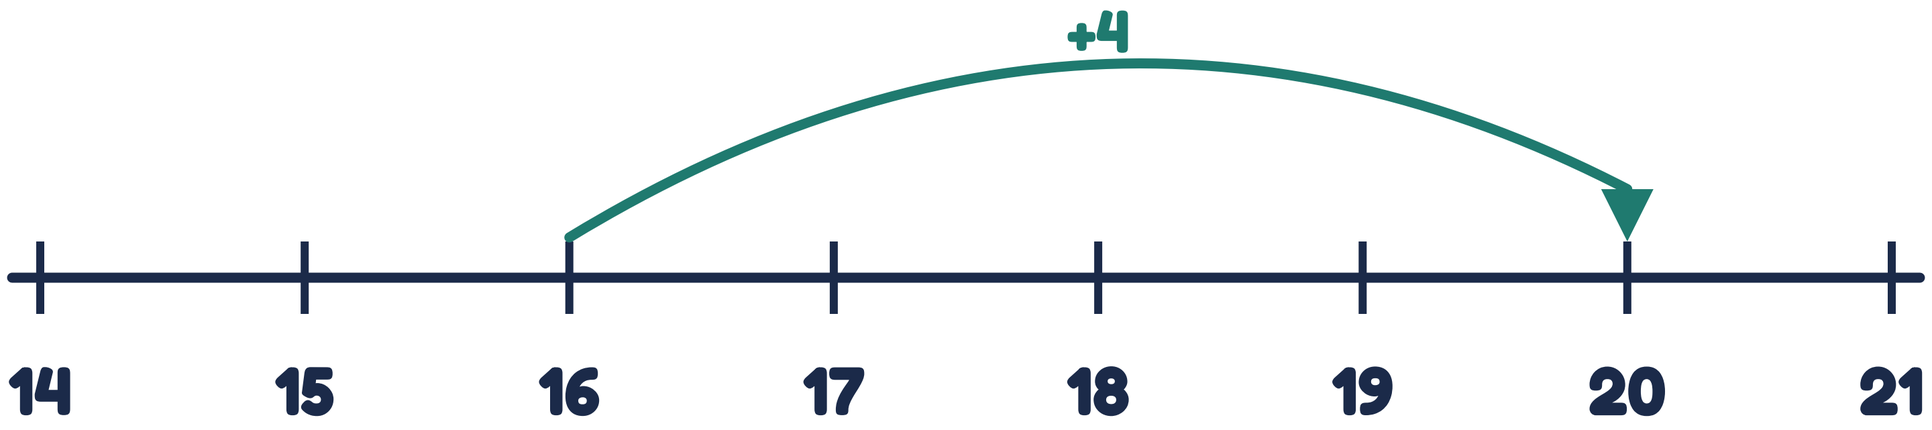

Mei pays with two ten-dollar notes. Count up from 16 to 20. How much change?

Change: count up to what was paid

23–34 MIN

16 up to 20 is 4. The change is $4. For the cap: 11 up to 20 is $9.

Which two cost exactly $15?

23–34 MIN

Ravi buys two things. They cost exactly $15. There are two answers.

23–34 MIN

Two answers: start with the cheapest

Tag	Needs	A match?
$5	$10	Yes: the book
$7	$8	Yes: the cup
$8	$7	Already found
$10	$5	Already found
$13	$2	No tag costs $2

$5 and $10, and $7 and $8.

34–38 MIN

Shopper moves

Stand up. Be a shopper.

Big price: reach up high. Small price: crouch down low.

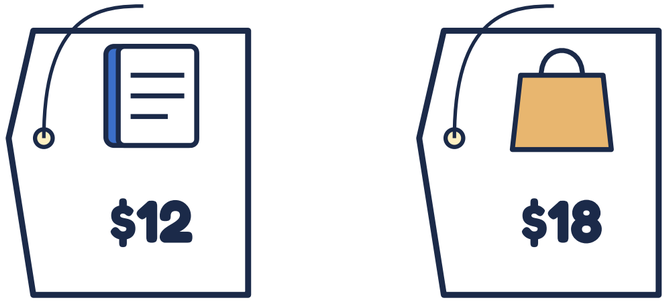

Sip some water.

Workbook page 1: Start here

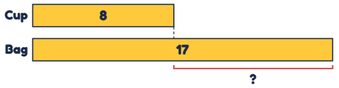

38–70 MIN

Questions 1 to 3. Take your time.

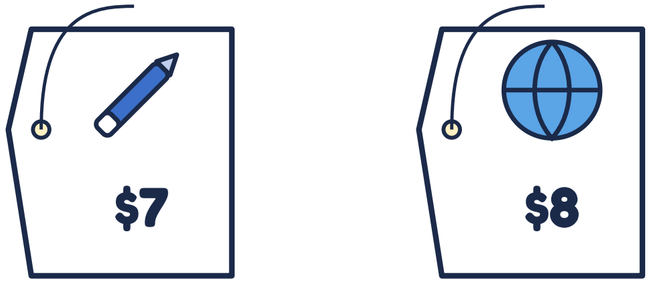

S1 Look at the two price tags.

S2 A cup costs $8. A bag costs $17. How much more does the bag cost than the cup?

S3 Siti buys a pen for $7 and a ball for $8.

38–70 MIN

Check page 1

S1	bag ($18 is more than $12)
S2	$9
S3	$7 + $8 = $15; $15

Workbook page 2: Start here

38–70 MIN

Questions 4 to 6. Take your time.

S4 Look at the three price tags.

S5 A ball costs $13. Ravi pays with two ten-dollar notes. How much change does he get?

S6 Mei wants a book that costs $16. She has $11. How much more money does she need?

38–70 MIN

Check page 2

S4	ball ($11 is the smallest)
S5	$7
S6	$5

38–70 MIN

Choose your next page

Page	What it is
Think harder (page 3)	Three prices, change from $50, two or three tags that make an exact amount
Go further (page 4)	The Hidden Price, three toys from clues
Investigation (page 5)	Mind the gap
Check	Finish and check your own work

Everyone may choose. Not finished? Pages 3 to 5 are for home too.

Talk and explain

70–76 MIN

TWO CHILDREN SAY

A kite costs $17. A top costs $12.

One child: the top costs $5 more than the kite.

Another child: the kite costs $5 more than the top.

Who is right? How could we show it on a number line?

I think … because …

Back to the sneak-peek

70–76 MIN

Puzzle 1: the bag. Puzzle 2: $9. $5 less than $14 is $9.

Exit ticket

76–82 MIN

On your own. No looking back.

E1 **A hat costs $14. A scarf costs $5. How much more does the hat cost than the scarf?**

The hat costs $_____ more.

E2 **Ali buys a book for $8 and a pen for $5. How much does he pay altogether? Choose the correct answer. Write its number in the bracket.**

E3 **A cap costs $14. Ben gives the cashier $20. How much change does he get?**

He gets $_____ change.

Check the exit ticket

76–82 MIN

E1	$9
E2	(3) $13
E3	$6

Look-back

82–85 MIN

Three minutes. There are no right answers. You can pass. Nobody reads it out.

Something I did well	write or draw one thing
The hardest part was …	☐ how much more ☐ the change ☐ which two make the amount ☐ something else
What helped me	☐ the number line ☐ the strips ☐ checking my answer ☐ I was not stuck
Next time I will try	☐ using a number line ☐ drawing two strips ☐ checking my answer ☐ asking a question
	☐ I am still stuck (my grown-up will photograph this page for my tutor) ☐ I would like to pass

Take your time. You can pass.

85–90 MIN

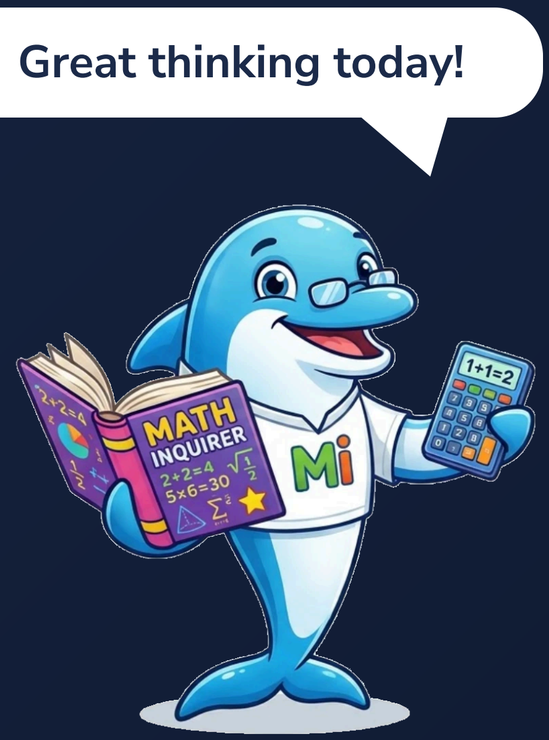

Well done, inquirers!

Show a grown-up one thing you found out today.

NEXT LESSON

The School Shop

Have ready: your price tags and play money in their envelope. Nothing new to cut.

OPTIONAL

Go further: the same price

A pen and a rubber cost $11 together. The pen costs $9.

How much does the rubber cost?

OPTIONAL

If we have time: pick one

Activity	What we do
Is it always true?	The dearer item always has the bigger number. Try two prices with the same tens.
Make a puzzle	Pick two tags. Ask how much more.
Teach it back	Show a toy how to find the change by counting up.

Optional. Everyone may join.
