MATH INQUIRERS HOLIDAY PROGRAM

# What Learners Get

Ages 9-11 (builds on Primary 4 maths) • 10 lessons • 5 weeks • small groups (up to 8 per tutor) • live online from home

## In one line

Your child gets 15 hours of hands-on maths thinking with a tutor, a printed workbook and cut-out kit, a stamped Inquiry Journal, and the chance to move on to harder puzzles when they are ready.

## In the lessons

- **Teaching time.** Ten lessons of 90 minutes, two a week for five weeks (15 hours in all).
- **A clear routine.** Every lesson: warm-up, explore with objects, mini-lesson, brain break, worksheet, talk time and exit ticket.
- **Small group.** Up to 8, so the tutor can ask each child "How do you know?"
- **A way of thinking.** The four Inquirer rules: Notice the pattern. Test it with objects. Check your answer. Explain why.
- **Three tiers of questions.** Start here, Think harder and Go further, plus an open Investigation. All are open to every child; nobody is placed in a tier.

## Progress and feedback

- **Progress marks** after every exit ticket: secure, developing, or needs help.
- **Readiness tracker:** four signs of readiness for harder work, noted after each lesson.
- **Room to go further:** Think harder and Go further questions and an open Investigation are there for any child who wants more.
- **Parent feedback:** a short, honest note about how your child thinks, not just a score.

## Ten topics

**1** Factor Hunters | **2** Big Number Puzzles | **3** Operation Detectives | **4** Fraction Frontier | **5** Decimal Detectives | **6** Angle Turns | **7** Area Architects II | **8** Symmetry and Nets | **9** Data Detectives | **10** Puzzle Day

## What the child takes home

| Item | What it is | When |
|---|---|---|
| **Student workbook** | 66 printable pages: 10 lessons with Start here, Think harder and Go further questions | Weekly pages by email; full book at the start |
| **Inquirer Kit (cut-outs)** | Fraction wall, square grid, dot grid, cube net, right-angle testers. Nothing needs to be bought. | Week 1 pages |
| **Inquiry Journal** | A stamp page at the front of the workbook. The tutor stamps a box after each lesson. | Every lesson |
| **Exit ticket** | One short question at the end of each lesson to show what they understood | Every lesson |
| **Certificate of Completion** | A printable certificate with the child's name | Week 5 |
| **Weekly parent email** | That week's workbook pages plus one thing to try at home | Weekly |

## Skills your child builds

- Working backwards
- Making a list in order
- Looking for a pattern
- Explaining why
- Drawing a bar model
- Guess and check
- Explaining thinking out loud, in words and drawings

## What is not included

- It is enrichment. It does not replace school maths or follow a school syllabus, and it is not linked to MOE or the Gifted Education Programme.
- No exam or ranking. Readiness notes are private to your family.

## Beta fee

S$250 per child for all 10 lessons (S$25 a lesson), with the printed workbook, cut-out kit and all materials included. Same fee at every level.
