No.E3

A cup costs $3. Ali buys 4 cups. How much do the cups cost altogether?

They cost $_____ altogether.

Look-back There are no right answers. You can pass. Nobody reads it out.

Something I did well: .....

The hardest part was ... ☐ choosing two items ☐ listing every way ☐ the change ☐ something else

What helped me: ☐ the table ☐ my price tags ☐ checking my answer ☐ I was not stuck

Next time I will try: ☐ going in order ☐ using a table ☐ checking my answer ☐ asking a question

☐ I am still stuck (my grown-up will photograph this page for my tutor)

☐ I would like to pass
