What this is

Twenty single-page maths puzzles for Primary 1 pupils who finish their work early. This is Semester 1 of two booklets (Terms 1 and 2). Each page stands alone, so you can hand out one page or keep a tray of pages. The pupil needs no help to start.

Which terms

The pages are grouped by the order in which Primary 1 topics are typically taught: this booklet follows Terms 1 and 2, the other booklet follows Semester 2 (Terms 3 and 4). Schools vary, so check your scheme of work: a page can be used at any time once the topic has been taught, and a school that teaches a topic earlier can use the other booklet early.

Stars

One star pages practise a topic as it is usually taught (7 pages). Two star pages use the same topics with two steps or two clues to combine (4 pages).

Every page checks itself

The boxed strip at the foot of each page tells the pupil how to check. The check shows that something is wrong. It does not give the answer, and it asks the pupil to see whether the answer makes sense.

- **Code word.** The answers give letters that spell a word. The strip gives no hint of the word. Each word can be spelt from its letters in one way only, so answers in the wrong boxes never make another word.
- **Colour by code.** Each answer is found in a key of five numbers and the part is coloured with that crayon. The pupil counts the parts of each colour and compares with the box on the page; matching parts must share a colour.
- **Route.** The line must reach FINISH through the stated number of boxes, and every box on it must follow the rule on the page.
- **Logic grid, queue, strips and matching pictures.** Each number, child, strip or picture has a letter; the letters, read in the order asked, must spell a word. Where one item is left out, its letter is a decoy that is not part of the word.
- **Total.** The whole count must make the total printed in the strip (the graph pages add a second sum).

Marking is not needed. To spot-check, look only at the check strip.

Teacher notes: using the pages (DRAFT)

Using the pages

- **Time.** Most pages take 5 to 15 minutes; the colour-by-code pages (S1-02, S1-04) take longer because pupils colour a picture. Pupils need their own crayons (five colours: yellow, red, blue, green, orange). For a pencil-only copy the pupil writes Y, R, B, G or O in each part; the tally and the matching parts are checked the same way.
- **If the check fails.** The pupil goes back, looks for the slip, and asks a friend or you if still stuck.
- **Stars.** One star: one skill, as usually taught. Two stars: the same topics with two steps or two clues to combine.

Photocopying

All pages are black and white with solid lines, so they copy cleanly. Each page is one side only. Pupils write on the page: the boxes are large for young hands. Use A4 and print at 100% (actual size); on the ruler pages a real ruler matches the drawn ruler only at 100%.
