MATH INQUIRERS HOLIDAY PROGRAM

What Learners Get

Ages 9-11 (finishing P4) • 10 lessons • 5 weeks • small groups (up to 8 per tutor) • live online from home

In one line

Your child gets 15 hours of hands-on maths thinking with a tutor, a printed workbook and cut-out kit, a stamped Inquiry Journal, and the chance to move on to harder puzzles when they are ready.

In the lessons

- **Teaching time.** Ten lessons of 90 minutes, two a week for five weeks (15 hours in all).
- **A clear routine.** Every lesson: warm-up, explore with objects, mini-lesson, brain break, worksheet, talk time and exit ticket.
- **Small group.** Up to 8, so the tutor can ask each child "How do you know?"
- **A way of thinking.** The four Inquirer rules: Notice the pattern. Test it with objects. Check your answer. Explain why.
- **Three levels of questions.** Start here for everyone, Think harder, and Go further with an open Investigation for when your child wants more.

Progress and feedback

- **Progress marks** after every exit ticket: secure, developing, or needs help.
- **Readiness tracker:** four signs of readiness for harder work, noted after each lesson.
- **A path to go further:** a short Challenge Screening Set and Challenge Group for children who show the signs.
- **Parent feedback:** a short, honest note about how your child thinks, not just a score.

Ten topics

1 Factor Hunters | **2** Big Number Puzzles | **3** Operation Detectives | **4** Fraction Frontier | **5** Decimal Detectives | **6** Angle Turns | **7** Area Architects II | **8** Symmetry and Nets | **9** Data Detectives | **10** Challenge Day

What the child takes home

Item	What it is	When
Student workbook	64 printable pages: 10 lessons with Core, Think Harder and Challenge questions	Weekly pages by email; full book at the start
Inquirer Kit (cut-outs)	Fraction wall, square grid, dot grid, cube net, right-angle testers. Nothing needs to be bought.	Week 1 pages
Inquiry Journal	A stamp page at the front of the workbook. The tutor stamps a box after each lesson.	Every lesson
Exit ticket	One short question at the end of each lesson to show what they understood	Every lesson
Certificate of Completion	A printable certificate with the child's name	Week 5
Weekly parent email	That week's workbook pages plus one thing to try at home	Weekly

Skills your child builds

- Working backwards
- Making a list in order
- Looking for a pattern
- Explaining why
- Guess and check
- Drawing a bar model
- Explaining thinking out loud, in words and drawings

What is not included

- It is enrichment. It does not replace school maths or follow a school syllabus, and it is not linked to MOE or the Gifted Education Programme.
- No exam or ranking. Readiness signs guide extra challenge and are not shared between families.

Planned price (to confirm)

S$650 per child for the 15-hour programme (S$65 a lesson), with the printed workbook, cut-out kit and all materials included. Introductory price for the first intake: S$500 (S$50 a lesson). Same price at every level.
