

LEVEL 1 • TERM 3 • LESSON 1 • FOR PARENTS

1 What Time Is It?

WHAT WE DID

We learned to read a clock. The short hand names the hour and the long hand counts the minutes, five at a time. Your child read and set o'clock and half past, wrote times such as 7:00 and 7:30, and counted the minutes in 5s. Reading o'clock and half past is Primary 1 school work. The Go further page has a Mirror Clock puzzle (what time is it really, if the clock is seen in a mirror?). A mirror is not part of Primary 1; it is on the page for children who enjoy a puzzle.

> **The short hand names the hour. The long hand counts the minutes.**

TRY AT HOME (5 MINUTES)

1. Set the clock: put the clock hands on your child's cut-out face. Call a time such as 4 o'clock or half past 6 and let your child set it. Swap roles and make a mistake on purpose for them to find.
2. Real clock: when you pass a clock, ask: which hand names the hour? Where is the long hand? What time is it?
3. Count in 5s: point the long hand at each number and count 5, 10, 15 together. How many minutes is it at the 6?

When your child is stuck

Let your child move the hands and watch, and wait 10 seconds before helping. Please do not teach a rule such as clockwise or hurry them: the clock hands are the teacher. If the look-back page says 'I am still stuck', photograph it and send it to our business WhatsApp (+65 9880 5962). Photos are kept 90 days after the program ends.

Words we used

- short hand: it names the hour
- long hand: it counts the minutes
- o'clock: the long hand is on the 12
- half past: the long hand is on the 6 (30 minutes)
- quarter past, quarter to: 15 minutes past, 15 minutes before the next hour

Good questions

- Which hand names the hour?
- Where is the long hand? What does that tell us?
- How do you know?

Have ready for next lesson

- Your Term 3 book open at the next lesson: tear out its event cards page along the dashed line; a grown-up cuts out the 8 event cards (the mat is not cut)
- Keep your clock from this lesson (2 faces and 6 hands) in an envelope
- Pencil, rubber and paper

Next lesson

Next lesson, Term 3 Lesson 2: Five Minutes at a Time. Online practice: your tutor shares the link, which is private to your group's families: please do not share it. The recording has the tutor, the shared screen and any voice that is not muted; your child may mute and keep the camera off. Missed a lesson? Every lesson is recorded; your tutor will share a private link with enrolled families.

Your child is learning to give a reason, and to read time and money in real life. We share what we see in your child’s thinking, never a rank or a mark compared with other children. Math Inquirers by Preciouslyours Pte Ltd.
