Doubles and Near Doubles: practice at home

Name _____ Date _____

About 15 minutes, a few days after the lesson. Use counters or draw. Small things stay on the table, away from mouths and little brothers and sisters. A grown-up may read the questions aloud. Wrong answers are fine: they show what to try next.

No.1

Start here

Fill in the missing numbers. (a) Double 4 is ☐. (b) Double 6 is ☐☐. (c) Double 8 is ☐☐.

No.2

Start here

Mei has 7 red marbles and 7 blue marbles. How many marbles does she have altogether? She has _____ marbles.

No.3

Start here

Fill in the missing numbers. (a) Double 20 is ☐☐. (b) Double 40 is ☐☐.

No.4

Think harder

Add. (a) 6 + 7 = ☐☐ (b) 9 + 10 = ☐☐

No.5

Go further

Add 7 + 8 + 7 + 6 + 7. The total is _____.

Answers for grown-ups

Please let your child try first, then check together. Ask *how do you know?* If your child is stuck, wait 10 seconds, then suggest drawing it.

1. 8, 12, 16
4 + 4 = 8. 6 + 6 = 12. 8 + 8 = 16.

2. 14
7 + 7 = 14. Two of the same number is a double.

3. 40, 80
Double 2 tens is 4 tens: 40. Double 4 tens is 8 tens: 80.

4. 13, 19
Double 6 is 12 and 1 more is 13. Double 9 is 18 and 1 more is 19.

5. 35
The 8 is 1 more than 7 and the 6 is 1 less, so the sum is five 7s: 35.

More practice online (no timers, no scores): ask your tutor for the practice link.
