LESSON 8 • TERM 2 • LEVEL 1

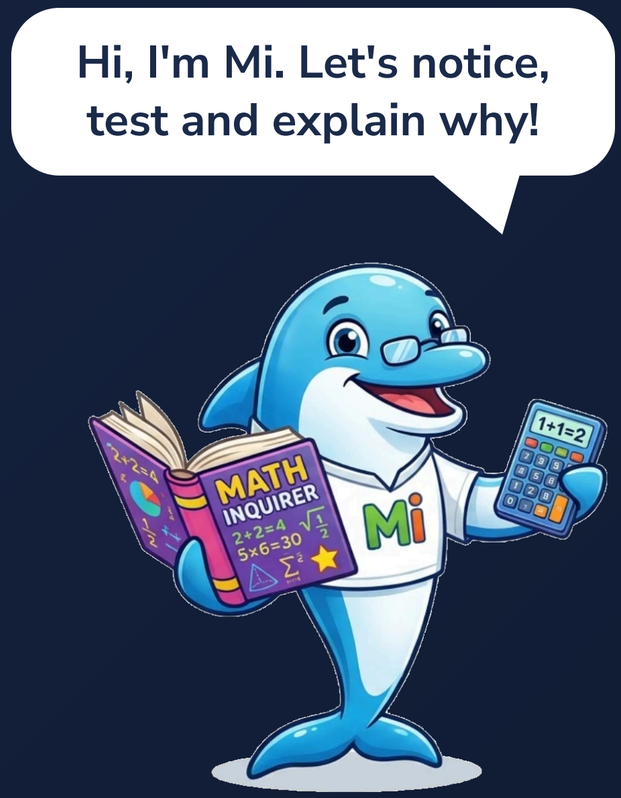

Times Stories

Equal strips, one step at a time

TODAY WE WILL

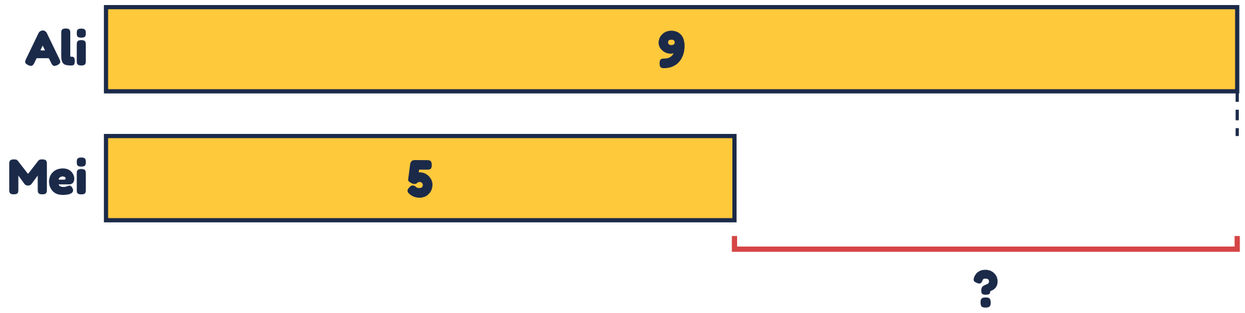

Draw a story as strips, then solve it.

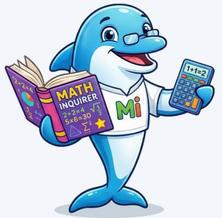

Warm-up: two strips

2–8 MIN

A longer strip has more. The gap is how many more.

Strips tell stories!

Same-size groups

2–8 MIN

4 groups of 5. Every bag has the same number.

How many groups? | **How many in each?** | **How many in all?**

One step at a time

2–8 MIN

Step	The story
Step 1	Ali has 6 stickers and gets 4 more.
Step 2	Then he gives away 3.

6 and 4 more

then take away 3

Sneak-peek puzzles

8–12 MIN

Ideas we have not learnt yet. A guess is a great start. Nobody is marked.

PUZZLE 1: anyone can try

Ali has 3 bags.

Each bag has 4 sweets.

How many sweets does Ali have in all?

You may draw to help.

PUZZLE 2: think

Mei has 5 stickers.

Ben has twice as many stickers as Mei.

How many stickers do they have together?

Then write or draw how you know.

Explore: cups and a strip

12–26 MIN

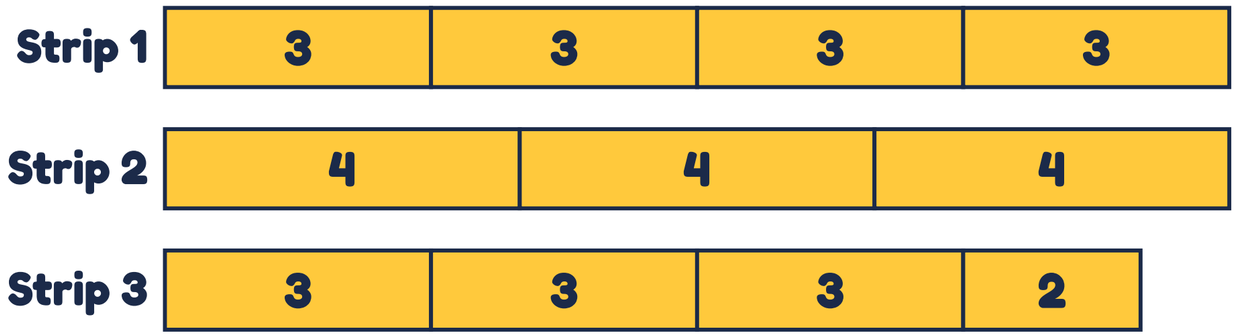

1. Put 3 cups on the table.
2. Put 5 counters in each cup.
3. Draw 3 boxes in a row. Write 5 in each box.
4. How many counters in all?

12–26 MIN

Which strip is the story?

Ben has 4 bags. Each bag has 3 sweets. Show 1, 2 or 3 fingers.

A total and some loose ones

12–26 MIN

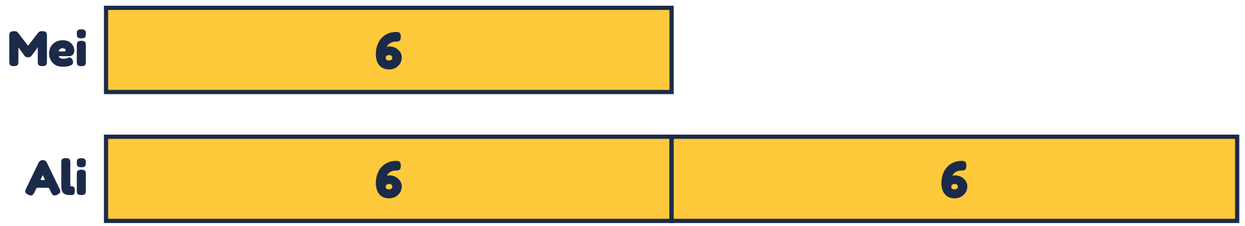

1. Put 3 cups on the table with 5 counters in each cup.
2. Put 2 more counters on the table. They are loose: not in a cup.
3. How many counters are there in all?

Twice as many

12–26 MIN

1. Make a strip of 6 cells for Mei.
2. Ali has twice as many. Make Ali a strip the same as Mei, and then another the same.
3. How many cells has Ali? How many are there together?

Draw the story

26–38 MIN

1. Read it.
2. Draw equal boxes.
3. Write the number in each box.
4. Find the total.

3 bags with 5 sweets in each bag.

A total, then one more step

26–38 MIN

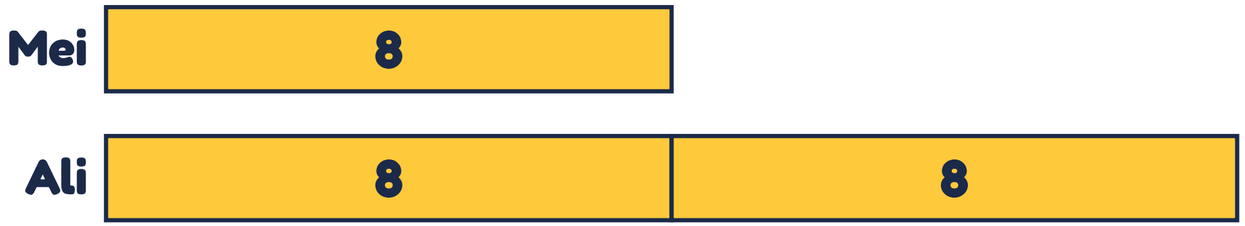

Step	Number sentence
Step 1	4 × 5 = ?
Step 2	? + 6 = ?

4 boxes of 5 pens and 6 loose pens.

Twice as many

26–38 MIN

Step	Number sentence
Step 1	Ali: 8 + 8 = ?
Step 2	Together: 8 + ? = ?

Twice as many is two equal strips. It is not 2 more.

Your turn

26–38 MIN

Draw a strip. Write each step. Say the total.

3 bags of 4 sweets

5 boxes of 2 pens and 3 loose pens

Mei has 5. Ali has twice as many.

Check: draw the strip

26–38 MIN

Story	Answer
3 bags of 4 sweets	12 sweets
5 boxes of 2 pens and 3 loose pens	13 pens
Mei has 5. Ali has twice as many.	Ali 10, together 15

38–42 MIN

Clap in groups

I say a story. Clap softly in groups and pause.

Say the total out loud together.

Sip some water.

Workbook page 1: Start here

42–70 MIN

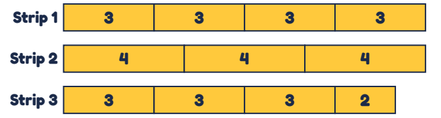

Questions 1 to 3. Take your time.

S1 Mei has 3 bags. Each bag has 5 sweets. Write the number in each box of the strip. Then fill in the blank.

S2 Ben has 4 boxes. Each box has 3 pencils. How many pencils does Ben have in all?

S3 Ben has 4 bags. Each bag has 3 sweets. Which strip shows Ben’s sweets? Write its number in the bracket.

Check page 1

42–70 MIN

S1	5, 5, 5 in the boxes; 15 sweets
S2	4 groups of 3 = 12; 12 pencils
S3	Strip 1

Workbook page 2: Start here

42–70 MIN

Questions 4 to 6. Take your time.

S4 Ali has 3 boxes with 5 pens in each box. He also has 2 loose pens. How many pens does Ali have in all?

S5 Mei has 2 bags. Each bag has 6 sweets. Draw a strip. Then fill in the blank.

S6 Ravi has 4 bags with 3 marbles in each bag. He loses 2 marbles. How many marbles does Ravi have now?

Check page 2

42–70 MIN

S4	15 pens in the boxes; 17 pens in all
S5	A strip of 2 boxes with 6 in each box; 12 sweets
S6	12 marbles in the bags; 10 marbles now

42–70 MIN

Choose your next page

Page	What it is
Think harder (page 3)	Twice as many
Go further (page 4)	Different groups and 3 times as many
Investigation (page 5)	Doubling again and again
Check	Finish and check your own work

Everyone may choose. Not finished? Pages 3 to 5 are for home too.

Talk and explain

70–76 MIN

MEI HAS 8 STICKERS

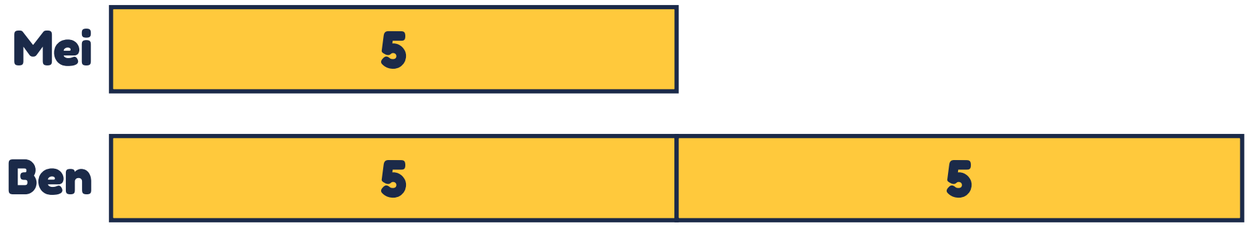

Ali has twice as many as Mei.

Does twice as many mean 2 more? How could we be sure?

I think … because …

Back to the sneak-peek

70–76 MIN

Together: 5 and 10 make 15.

Exit ticket

76–82 MIN

On your own. No looking back.

E1 **Ali has 4 bags. Each bag has 5 sweets. Which number sentence finds how many sweets Ali has in all? Write its number in the bracket.**

E2 **Lily has 2 bags with 5 marbles in each bag. She also has 3 loose marbles. How many marbles does Lily have in all?**

(a) Lily has ☐☐ marbles in all.

E3 **Ravi has 3 bags with 4 sweets in each bag. He eats 2 sweets. How many sweets does Ravi have now?**

(a) Ravi has ☐☐ sweets now.

Check the exit ticket

76–82 MIN

E1	(2) 4 × 5
E2	13
E3	10

Look-back

82–85 MIN

Three minutes. There are no right answers. You can pass. Nobody reads it out.

Something I did well	write or draw one thing
The hardest part was …	☐ drawing the strip ☐ the second step ☐ twice as many ☐ something else
What helped me	☐ cups and counters ☐ drawing it ☐ one step at a time ☐ I was not stuck
Next time I will try	☐ drawing it ☐ using objects ☐ checking it ☐ asking a question
	☐ I am still stuck (my grown-up will photograph this page for my tutor) ☐ I would like to pass

Take your time. You can pass.

85–90 MIN

Well done, inquirers!

Show a grown-up one thing you found out today.

NEXT LESSON

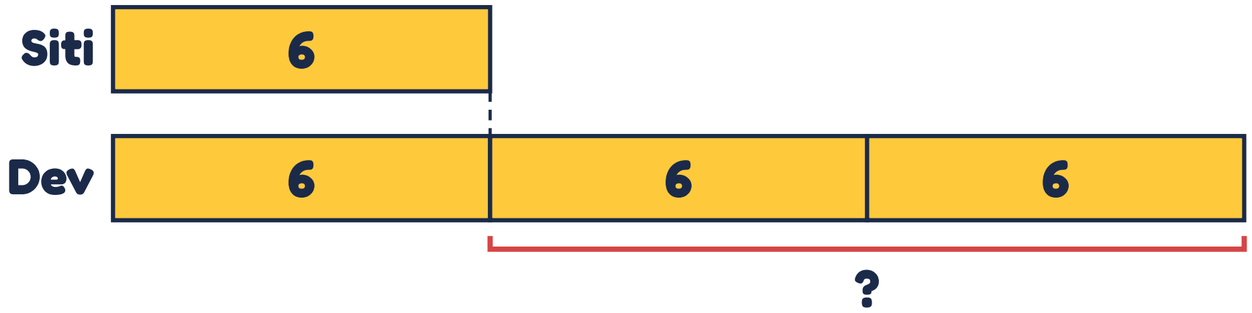

Picture Equations

Have ready: your workbook with its counters page, about 30 counters, 2 cups, 4 paper shape cards, pencil and paper.

Go further: what if?

OPTIONAL

Dev has 3 times as many stickers as Siti. Who has more? How many more?

OPTIONAL

If we have time: pick one

Activity	What we do
Is it always true?	Is twice as many the same as the number plus itself?
Make a puzzle	Draw a strip story. Ask your grown-up.
Teach it back	Show a toy 3 cups of 4 counters

Optional. Everyone may join.
