

LEVEL 1 • TERM 2 • LESSON 9 • FOR PARENTS

9 Picture Equations

WHAT WE DID

We met picture equations: a shape is a hidden number, and the same shape is always the same number. We found hidden numbers with counters, checked them in the line, and took one line from another to find two shapes. One hidden number in a line, like 4 + box = 10, is Primary 1 work. Using one shape in two lines, taking one line from another and a times line go past the school Primary 1 syllabus on purpose. We use shapes and boxes, never letters.

> **A shape is a hidden number, and the same shape is always the same number.**

TRY AT HOME (5 MINUTES)

1. Hidden cup: put 5 counters in a cup, add 4 loose ones, and tell your child the total is 9. How many are in the cup?
2. Two cups: put the same number of counters in two cups. Say the total is 12. How many in each cup? Check by counting.
3. Your turn to hide: your child hides counters in a cup and tells you the total. Can you find the number?

When your child is stuck

Let your child use counters and two cups, and wait 10 seconds before helping. Asking ‘what is the total?’ works better than giving the answer. If the look-back page says ‘I am still stuck’, photograph it and send it to our business WhatsApp (+65 9880 5962). Photos are kept 90 days after the program ends.

Words we used

- shape: a picture that stands for a hidden number
- line: one picture equation, such as circle + square = 10
- check: put the number back into the line
- take one line from another: find what the extra shape is

Good questions

- What does the shape hide?
- How can you check your number in the line?

Have ready for next lesson

- The printed Term 2 • Lesson 10 workbook, with its $1 tokens page (a grown-up cuts out 20 tokens)
- 3 to 6 small things for a shop, such as pencils or cups
- The end-of-term check sheet (3 pages), printed at 100% and closed in an envelope
- Pencil, rubber and paper

Next lesson

Term 2 • Lesson 10: Find One First, with the end-of-term check. Online practice: your tutor will share the practice link. Missed a lesson? Every lesson is recorded; your tutor will share a private link with enrolled families.

Your child is learning to draw a story, to use groups and sharing, and to test a claim with an example. We share what we see in your child’s thinking, never a rank or a mark compared with other children. Math Inquirers by Preciouslyours Pte Ltd.
