Find One First: practice at home

Name _____ Date _____

About 15 minutes, a few days after the lesson. Use tokens or counters. Small things stay on the table, away from mouths and little brothers and sisters. A grown-up may read the questions aloud. Wrong answers are fine: they show what to try next.

No.1

3 mugs cost $12. 2 plates cost $10. Siti buys 1 mug and 1 plate. How much does Siti pay? $_____

Answers for grown-ups

Please let your child try first, then check together. Ask *how do you know?* If your child is stuck, wait 10 seconds, then suggest drawing it.

1. $2
$10 shared equally among 5 pens is $2 each.

2. 18; $18
6 groups of $3: 3 + 3 + 3 + 3 + 3 + 3 = 18.

3. $6
$12 shared equally among 4 rubbers is $3 each. 2 rubbers cost 2 groups of $3, which is $6.

4. $8
A dozen is 12 eggs. $24 shared equally among 12 eggs is $2 each. 4 eggs cost 4 groups of $2, which is $8.

5. $9
1 mug costs $12 shared among 3 mugs, which is $4. 1 plate costs $10 shared between 2 plates, which is $5. 1 mug and 1 plate cost $4 + $5 = $9.
