TUTOR GUIDE • LEVEL 1 • TERM 3 • LESSON 2 OF 10

Five Minutes at a Time

Big idea: Minutes live between the hours: each number the long hand passes is 5 more minutes. The long hand counts the minutes in 5s: the 1 is 5 minutes, the 2 is 10 minutes, the 3 is 15 minutes, and so on. We write the hour, a colon and two digits for the minutes, like 4:10.

90 minutes • live online or face to face • up to 8 children • ages 6-8 • Notice it. Test it. Explain why.

1. At a glance

Strand	Measurement: Time (Primary 1) (Telling time to 5 minutes, written as digits such as 4:10 and 8:35 (Primary 1, Measurement, Time 2.1, p. 32); am and pm for events in a day (Time 2.2, p. 32); Hours and minutes: 1 h 20 min (Time 2.3, p. 32); How many minutes between two times, found in chunks: finding a duration in general is Primary 3 (p. 36)) Strand label for the tutor only. NEW TOPIC in the plan (split from the old What Time lesson): the syllabus label is the plan's best reading and is flagged for tutor review. Start here is school Primary 1 work: read and write times to 5 minutes as digits, draw the hands, count the minutes in 5s, choose am or pm for a clear daily event. In the Primary 1 school papers we have seen, 5-minute times appear only as digits with am or pm, so this lesson says 4:10 and not ten past 4; 'ten past', 'twenty to' and 'quarter' words are not on any child page. Think harder uses am and pm where the hour is tricky (12:30 is pm), 1 h 20 min, the short hand just before the next hour (3:50 is not 4:50) and a timetable of start times. BEYOND PRIMARY 1 ON PURPOSE: the Chunk the Gap puzzles in Go further (how many minutes from 3:10 to 4:05, found in chunks: to the next hour, then the rest); finding a duration in general is Primary 3, p. 36. Owner decision, 22 Oct 2026: strong content with scaffolding, said plainly to families. Do not describe the lesson as MOE-aligned. Contest tag (tutor only): clock chunks (time and calendar).
Objectives	• Count the minutes in 5s round the face and say what the long hand shows (the 1 is 5 minutes, the 2 is 10, ... the 11 is 55). • Read and write times to 5 minutes as digits (4:10, 7:25, 9:50), with two digits for the minutes (4:05, not 4:5). • Know that the hour stays the same until the long hand has been all the way round: at 8:55 the short hand is nearly at the 9, but the hour is still 8. • Choose am or pm for an event in the day, and read 1 h 20 min as 1 hour and 20 minutes. • Go further (Chunk the Gap): find how many minutes between two times in chunks (to the next hour, then the rest).
Joining cold	**Remember warm-up covers:** Count in 5s to 60 (Term 1 Lesson 4 and the holiday course, taught again with claps and 12 steps round a clock); Read o'clock and half past (the first lesson of Term 3, taught again with two clocks); Pairs that make 60: 50 and 10, 40 and 20 (Term 1 Lesson 5, make a ten, taught again on a number line). Only counting in 5s and the cut-out clock page (or a real clock, or a paper plate clock). Nothing from the first lesson of Term 3 is needed except the idea that the short hand names the hour and the long hand counts the minutes, and the warm-up teaches that again with two clocks. Not safe to miss: the next lesson (Time Passes) and Mi's Challenge Quest in Term 3 Lesson 10 use 5-minute times. A child who misses it watches the recording and does workbook pages 1 and 2 before the next lesson. A child who joins here without the first lesson of Term 3 can follow: the warm-up re-teaches the two hands, and a real clock or a paper plate clock replaces the cut-out one.

Child materials	• Your Term 3 book: workbook pages 1 to 5 and the event cards page (page 6), which a grown-up cuts out before the lesson: 8 event cards. The morning and afternoon mat on the page is not cut • The clock from the first lesson of Term 3: 2 clock faces, 3 short hour hands and 3 long minute hands, kept in their envelope. A real clock also works • No clock pieces? A paper plate with 1 to 12 written round the edge and two strips of card for hands • A ruler for drawing the hands (a straight card edge works too) • A pencil, a rubber and spare paper • No printer: draw 8 small cards on paper (wake up, breakfast, go to school, morning break, come home, play ball, have a bath, go to bed)
Tutor materials	• The slide deck • Your own cut-out clock and the 8 event cards, to show on camera if you wish • A visible clock or watch for yourself (not shown to the group) Nothing needs to be bought: a real clock is a help, not a need. No pins, fasteners, matches, toothpicks or anything sharp: the clock hands are loose paper pieces that lie flat on the face. Nobody cuts during the lesson: a grown-up cuts the kit beforehand. The mat says a.m. and p.m., the same as am and pm.
Tiers	Start here (6 questions, pages 1 and 2), Think harder (4, page 3), Go further (3, page 4), Investigation and look-back (page 5), kit page (page 6). Labels are neutral; nobody is told which page they are on.
Beyond Primary 1 (tutor only)	Chunk the Gap at G1, G2, G3: How many minutes between two times when the end is in the next hour: go to the next hour first, then add the rest (3:10 to 4:05 is 50 + 5 = 55; 2:45 to 3:20 is 15 + 20 = 35; compare two readers). Level note: finding a duration in general is Primary 3 (p. 36, Time 2.2); 1 h 20 min as hours and minutes is Primary 2 conversion only in the other direction and is read, not converted, here. Never in Start here, never advertised to children.
Contest-style move	Used at Think harder (am and pm, 1 h 20 min, the timetable) and Go further (Chunk the Gap): count the minutes in 5s round the face; context: the short hand just before the next hour (3:50 is not 4:50); context: a timetable of start times, which show is on and how long to wait; compare: minutes between two times found in chunks (to the next hour, then the rest). Never advertised to children or parents.

Before the lesson

- Solve every workbook question yourself with a real cut-out clock first. Check that no workbook time repeats a time shown in the warm-up, sneak-peek, Explore, mini-lesson, Talk or the event cards (9:00, 2:30, 3:15, 11:50, 4:10, 7:25, 9:50, 1:05, 6:35, 10:05, 8:55, 2:20, 5:40, 5:50; card times 6:10, 6:50, 7:20, 10:40, 1:15, 4:45, 7:05, 8:05; spoken 6:45, 7:15, 12:45).
- Tell parents a week before: your Term 3 book is at the second lesson; tear out the event cards page along the dashed line and a grown-up cuts out the 8 event cards (the morning and afternoon mat is not cut); keep the clock from the first lesson (2 faces and 6 hands) in its envelope; a ruler for drawing the hands. No printer: draw 8 small cards on paper. Keep the cards in an envelope.
- Have the slides open. Have your own cut-out clock and event cards to show on camera if you wish. Draw nothing under the webcam: the recording cannot show it.
- Check the recording captures the tutor and the shared screen. Children's video is excluded; any unmuted voice is recorded. Greet each child by first name as they arrive. Say the recording notice, then start the recording; once it is running, avoid first names. Say the recording statement and the microphone routine in the same words every lesson.
- Be plain with families: reading and writing 5-minute times as digits is Primary 1 school work, so we say 4:10 and not 'ten past four' (the school papers write times as digits with am or pm, without full stops). The Chunk the Gap puzzles (Go further) are beyond Primary 1 on purpose: finding a duration in general is Primary 3. Do not call the lesson MOE-aligned. This lesson is a new topic in the plan: ask a tutor to confirm the strand.
- The kit mat prints a.m. and p.m. with full stops while the lesson writes am and pm: tell children they are the same. Slides s-explore1, s-explore2, s-explore3, s-m3 and s-m6 keep the picture or the answer off the screen while you ask (their titles are neutral too): it appears on the slide after. The short hand never waits: it creeps all the time, so say that it is nearly at the next number but the hour stays the same until the long hand is back on the 12. Read every question with its options aloud (S4, S5, T1, T4): the clocks and table on the slides are small.

Safeguarding and recording (this lesson)

- The clock hands are loose paper pieces with no pin, so nothing is sharp. A grown-up cuts the kit and the event cards beforehand: nobody cuts during the lesson. Small things stay on the table and never go near the mouth or ears; keep them away from younger brothers and sisters. No matches, toothpicks or anything sharp.
- This lesson uses the main room only: no breakout rooms. A parent sits nearby but does not give answers.
- Nobody holds paper or work up to the camera: a gallery view shows everyone. Children tick their own work against the answer slide, answer together on three, or show fingers or a thumb for a choice. There is no private chat and no board held up in front of the group.
- Never read out a child's name with a right or wrong answer. The recording captures the tutor, the shared screen and any voice that is not muted. Children may mute and keep their cameras off. Never show a child's page on the recording.
- A child who needs help ticks I am still stuck on their own look-back page. The grown-up may photograph that page and send it to the program's business WhatsApp after class (never to a personal phone); the tutor replies to the grown-up only. The next lesson starts with one short catch-up question for the whole group. No private messages to children and no private room. Photos are kept for 90 days after the program ends.
- Movement break: children need a little clear space, soft shoes or socks on a safe floor, no stairs and no running. A child may stay seated and move only their arms.
- The look-back is never collected in front of the group or read out. A pass is always allowed.
- The gallery shows faces and fingers, not tables or papers. Ask for a finger answer when you need to see something. Answers on three are said quietly with the microphone off; a child who is invited to share switches the microphone on, then off again. The still-stuck photo is of the whole of workbook page 5 (Investigation, exit ticket and look-back).

2. Timing plan (90 minutes exactly)

Minutes	Part	Min	Slides	Script fills
0–2	**Opening**	2	1: Five Minutes at a Time	1:47
2–8	**Remember warm-up**	6	3: Warm-up: count in 5s round the clock, Warm-up: two hands, two jobs, Warm-up: pairs that make 60	4:22
8–12	**Sneak-peek puzzles**	4	1: Sneak-peek puzzles	3:18
12–24	**Explore**	12	6: Explore: set the minutes, Explore: set the minutes, Explore: the long hand moves on, Explore: the long hand moves on, Explore: morning or afternoon?, Explore: morning or afternoon?	9:36
24–36	**Mini-lesson**	12	8: Each number is 5 minutes, Two digits for the minutes, Read this clock, Read this clock, am and pm, Hours and minutes, Your turn, Your turn	9:19
36–40	**Brain break**	4	1: Five at a time	2:56
40–70	**Workbook**	30	6: Workbook page 1: Start here, Workbook page 1: Start here, Check page 1, Workbook page 2: Start here, Check page 2, Choose your next page	24:52
70–76	**Talk time**	6	2: Talk and explain, Back to the sneak-peek	4:25
76–82	**Exit ticket**	6	2: Exit ticket, Check the exit ticket	4:56
82–85	**Look-back**	3	1: Look-back	2:06
85–90	**Flex time and goodbye**	5	1: Well done, inquirers!	0:26
	Total	**90**		**68:02**

The script needs 68:02 of the 90:00 when children are quick. A slow class (speech 10% slower, children and slide changes 20% slower) needs 80:38. The last 5 minutes are a standing buffer: if you are behind, use them; do not start anything new. Clock checks: minute 12 (end

of sneak-peek), minute 40 (start of workbook), minute 70 (talk time). If more than 2 minutes behind at minute 40, skip in this order: Start with: cut the event cards round of Explore to four cards (two morning and two afternoon); Then: shorten choice time (pages 3 to 5 can go home); Then: take the extra minutes from the flex time; Never shorten the exit ticket reading or the look-back. Never skip the look-back or the camera and privacy moments.

3. Lesson script

Times show when each line should start, counted from the start of the lesson, if you keep to the script. SAY lines are spoken in your own words. REC lines are the short recording-voice cues for children who watch later. Children answer aloud, with fingers or hands; no private chat; no boards held up in front of the group.

0:00 – 2:00 Opening

script 1:47 of 2:00

0:00	SLIDE	Show slide **Five Minutes at a Time** (s-title)
0:08	DO	Greet each child by first name as they arrive, before the recording starts. Check that you can see each child. [0:15]
0:23	SAY	Hello, inquirers! Pencil ready, and your clock pieces and event cards on the table. Cameras can be on or off, as you like.
0:34	SAY	This lesson is recorded so a friend who is away can catch up. The recording has me, the shared screen and any voice that is not muted. You may keep your microphone and camera off.
0:52	DO	Start the recording now. Do not use children's first names on the recording. [0:05]
0:57	REC	*If you are watching the recording: hello! Get a pencil, paper, your workbook, your clock pieces and the event cards. Pause or rewind any time.*
1:10	SAY	Microphone off until I ask you to speak. To answer, say it with me on three, show fingers, or give a thumbs up. If I invite you to talk to everyone, switch your microphone on, then off again. Nobody holds paper up to the camera.
1:32	SAY	Today we read the minutes on a clock, five at a time. Each number is 5 more minutes. Which hand counts the minutes? Think about it as we warm up.
	NOTE	Say the recording notice before you start the recording, and do not use children's first names once it is running. Say the recording statement and the microphone routine in the same words every lesson, for anyone who joined late. The routine and the four inquirer rules were introduced earlier in the term: do not re-teach them.
	NOTE	Plain statement for families when it comes up: reading and writing times to 5 minutes is school Primary 1 work. The Chunk the Gap puzzles in Go further go beyond Primary 1 on purpose. In school papers the times are written as digits, so we say 4:10 as four ten, not ten past four.
	NOTE	New here? Say in one minute: our three rule words (notice it, test it, explain why); a guess is fine and you can always pass; after Start here you may choose Think harder, Go further or the Investigation; nobody holds paper to the camera.

2:00 – 8:00 Remember warm-up

script 4:22 of 6:00

2:00	SLIDE	Show slide **Warm-up: count in 5s round the clock** (s-rem1)
2:08	REC	*Recording: join in! Say each answer out loud before I do. Pause if you need longer.*
2:16	SAY	Count in fives with me. Clap once for each count: five, ten, fifteen, and on to sixty.
2:24	CHILDREN	Count in fives together to 60 with one clap each; slow and clear. [0:30]
2:54	ASK	How many claps did we need to reach sixty? [wait about 15 s for answers]
3:14	ASK	How many claps to reach thirty? [wait about 15 s for answers]
3:32	CHILDREN	Count back from 60 in fives, whispering, with a soft clap each time. [0:25]
3:57	SLIDE	Show slide **Warm-up: two hands, two jobs** (s-rem2)
4:05	SAY	Two hands, two jobs. The short hand names the hour. The long hand counts the minutes.
4:13	CHILDREN	Children point to the short hand, then the long hand, on their own clock, and give a thumb. [0:30]
4:43	ASK	What time is the first clock? [wait about 12 s for answers]

4:58	ASK	What time is the second clock? [wait about 12 s for answers]
5:13	ASK	Which hand counts the minutes? [wait about 10 s for answers]
5:26	SLIDE	Show slide **Warm-up: pairs that make 60** (s-rem3)
5:34	SAY	Look at the line. Fifty and ten make sixty.
5:38	ASK	Forty and what make sixty? [wait about 12 s for answers]
5:52	ASK	Fifty-five and what make sixty? [wait about 12 s for answers]
6:07	ASK	Thirty and what make sixty? [wait about 12 s for answers]
	IF STUCK	If a child is unsure about the count in fives, count on one hand, then the other. If the two hands are mixed up, hold the short hand up on the kit clock and say it names the hour. For pairs that make sixty, count up on the line from the first number.
	NOTE	Answers: 12 claps, 6 claps; 9:00, 2:30, the long hand; 10, 20, 5. Children answer with a whisper, fingers or hands. Nobody writes. Joining cold: all you need is counting in 5s and the two hands.

8:00 – 12:00 Sneak-peek puzzles

script 3:18 of 4:00

8:00	SLIDE	Show slide **Sneak-peek puzzles** (s-sneak)
8:08	REC	*Recording: pause now and try both puzzles on your paper. Guessing is fine. Press play for the next part.*
8:18	SAY	Two sneak-peek puzzles: ideas we have not learnt yet. A guess is a great start, and I do not know is welcome. Nobody is marked.
8:30	READ	Puzzle one. Look at the clock. Write the time.
8:35	CHILDREN	Children write the time on their own paper. [1:00]
9:35	READ	Puzzle two. Look at the second clock. Write the time.
9:40	CHILDREN	Children write or draw their answer. [1:30]
11:10	SAY	Keep your paper. Nobody shows it. We will check our own thinking later, at Talk time.
	NOTE	Puzzle 1 answer: 3:15. Puzzle 2 answer: 11:50. Look for good ideas to praise later (a child who counted in fives, or who noticed the short hand has not reached the 12). Do not write scores or keep a list.

12:00 – 24:00 Explore

script 9:36 of 12:00

12:00	SLIDE	Show slide **Explore: set the minutes** (s-explore1)
12:08	REC	*Recording: pause now. Use your clock hands and event cards to follow each step. Press play when you have tried.*
12:18	SAY	Your hands are the teachers. Set your clock to four o'clock. Now move the long hand to the two. Count in fives from the twelve.
12:30	CHILDREN	Children set 4 o'clock, move the long hand to the 2 and count in 5s. [1:00]
13:30	ASK	What time is it? Say it on three. [wait about 12 s for answers]
13:46	SLIDE	Show slide **Explore: set the minutes** (s-explore1-ans)
13:54	SAY	Five, ten: ten minutes past four, written four ten. Now set seven o'clock and move the long hand to the five.
14:05	CHILDREN	Children set 7 o'clock, move the long hand to the 5 and count in fives. [1:00]
15:05	ASK	What time is it now? [wait about 12 s for answers]
15:20	SLIDE	Show slide **Explore: the long hand moves on** (s-explore2)
15:28	SAY	Round two. Set nine o'clock. Move the long hand round to the ten, counting in fives. Watch how I do it first.

15:38	**DO**	Show it on your own clock: long hand to the 10, then slide the short hand nearly to the 10 but not onto it. Say: a real clock does this by itself; our paper hand needs a nudge from us. [0:25]
16:04	**CHILDREN**	Children move the long hand to the 10, then slide the short hand nearly to the 10 but not onto it. [1:10]
17:14	**ASK**	What is the time? [wait about 12 s for answers]
17:28	**ASK**	Is the hour still nine, or has it become ten? [wait about 15 s for answers]
17:48	**SLIDE**	Show slide **Explore: the long hand moves on** (s-explore2-ans)
17:56	**SAY**	Nine fifty. The short hand has crept nearly to the ten, but it has not got there. The hour is still nine until the long hand is back on the twelve.
18:11	**SLIDE**	Show slide **Explore: morning or afternoon?** (s-explore3)
18:19	**SAY**	Round three. Take your eight event cards and the mat. Sort each card: morning goes in the am box, afternoon and evening go in the pm box. The time on each card will help you.
18:36	**CHILDREN**	Children sort the 8 event cards into the am box and the pm box. [1:40]
20:16	**ASK**	Which card is the first one in the day? [wait about 12 s for answers]
20:33	**ASK**	Which card is the last one in the day? [wait about 12 s for answers]
20:50	**ASK**	The night bath card says seven oh five. Is that am or pm? How do you know? [wait about 15 s for answers]
21:13	**SLIDE**	Show slide **Explore: morning or afternoon?** (s-explore3-ans)
21:21	**SAY**	Am is from the middle of the night to noon. Pm is from noon to the middle of the night. We write six forty-five am, and seven fifteen pm.
	IF STUCK	A child who reads the 2 as 2 minutes counts in 5s with a finger on each number. A child with no cut-out hands uses a real clock, or a paper plate with two strips of card. A child with no cards says each event aloud and points to morning or afternoon on the mat or a piece of paper.
	NOTE	Main room only; children say answers quietly on three and show fingers. You cannot see small clocks or cards on tiles: ask for a thumb when a child has set the time or sorted the cards. Answers: 4:10, 7:25; 9:50, still 9; wake up, breakfast, school and break are am; come home, play ball, night bath and go to bed are pm. Do not name a child with a wrong answer.

24:00 – 36:00 Mini-lesson

script 9:19 of 12:00

24:00	**SLIDE**	Show slide **Each number is 5 minutes** (s-m1)
24:08	**REC**	*Recording: keep watching and copy the examples. Rewind if you miss a step.*
24:14	**SAY**	Each number is five more minutes. Count in fives from the twelve to the long hand.
24:22	**ASK**	How many minutes past one is the first clock? [wait about 12 s for answers]
24:39	**ASK**	How many minutes past six is the second clock? [wait about 15 s for answers]
24:58	**SAY**	One oh five, and six thirty-five. We write the hour, a colon, then the minutes.
25:06	**CHILDREN**	Children set their clock to 1:05 and then 6:35 and check the long hand on the 1 and on the 7. [0:50]
25:56	**SLIDE**	Show slide **Two digits for the minutes** (s-m2)
26:04	**SAY**	The minutes always take two digits. Five minutes is zero five, so one oh five. We never write one colon five.
26:14	**ASK**	How do we write ten minutes past two? [wait about 12 s for answers]
26:30	**CHILDREN**	Children write 2:10 and 10:05 with digits on their own paper. [0:40]
27:10	**SLIDE**	Show slide **Read this clock** (s-m3)
27:18	**SAY**	The long hand is on the eleven. The short hand is almost on the nine.
27:26	**ASK**	What is the time? [wait about 15 s for answers]
27:43	**ASK**	Is it eight fifty-five or nine fifty-five? [wait about 12 s for answers]

27:58	SLIDE	Show slide **Read this clock** (s-m3-ans)
28:06	SAY	Eight fifty-five. The short hand is nearly at the nine, but it has not got there. The hour stays eight until the long hand is back on the twelve.
28:21	CHILDREN	Children set 8:55 on their clock: the long hand on the 11, the short hand just before the 9. [0:45]
29:06	SLIDE	Show slide **am and pm** (s-m4)
29:14	SAY	Am is the morning. Pm is the afternoon and evening. We write six forty-five am and seven fifteen pm, with a space and no full stops.
29:27	ASK	Breakfast at six forty-five: am or pm? [wait about 10 s for answers]
29:40	ASK	Bedtime at seven fifteen at night: am or pm? [wait about 10 s for answers]
29:55	ASK	Lunch at twelve forty-five: am or pm? Say it on three. [wait about 15 s for answers]
30:16	SLIDE	Show slide **Hours and minutes** (s-m5)
30:24	SAY	H means hour and min means minutes. One h twenty min is one hour and twenty minutes.
30:32	ASK	Say two h ten min in words. [wait about 15 s for answers]
30:50	ASK	How many minutes are in one hour? [wait about 12 s for answers]
31:06	SLIDE	Show slide **Your turn** (s-m6)
31:14	READ	Your turn. Set your clock to two twenty. Then set it to five forty. Write both times with digits.
31:24	CHILDREN	Children set their clocks and write the times on their own paper. Wait 10 seconds before helping. [1:40]
33:04	SLIDE	Show slide **Your turn** (s-m6-ans)
33:12	READ	Two twenty and five forty. Tick your own work with a tick.
	NOTE	Key words to use every time: short hand, long hand, minutes, count in fives, am, pm. We say 4:10 as four ten, not ten past four: the school papers write times as digits. Do not teach a rule to recite; the clock is the method.
	IF STUCK	If a child reads the long hand number as the minutes (the 2 as 2), count in 5s together. If a child writes 4:5, ask: how many digits for the minutes? If a child says 9:50 is ten to ten, say it is nine fifty and move on: digits first.

36:00 – 40:00 Brain break

script 2:56 of 4:00

36:00	SLIDE	Show slide **Five at a time** (s-break)
36:08	REC	*Recording: stand up and join in! Count in 5s with big arm circles.*
36:14	SAY	Stand up and get a sip of water. We count in fives with big arm circles, like the long hand going round.
36:26	CHILDREN	Count 5 to 60 with one slow arm circle for each count, then back from 60 to 30 in fives. Children may stay seated and move one hand. [2:30]

40:00 – 70:00 Workbook

script 24:52 of 30:00

40:00	SLIDE	Show slide **Workbook page 1: Start here** (s-ws1)
40:08	REC	*Recording: pause now and do workbook page 1. Press play to check it. Then page 2.*
40:16	READ	Page 1, Start here. Question 1: write the time for each clock. There are three clocks. Question 2: count in fives. How many minutes past the hour is the long hand showing?
40:33	SLIDE	Show slide **Workbook page 1: Start here** (s-ws1b)
40:41	READ	Question 3: draw the hands to show three twenty. Use a ruler.
40:48	CHILDREN	Page 1, questions 1 to 3. Tutor walks the cameras, asks how do you know. Wait 10 seconds before helping. [9:30]
50:18	SLIDE	Show slide **Check page 1** (s-ws1ans)

50:26	**READ**	Question 1: 2:35, 9:05, 11:10. Question 2: 40 minutes. Question 3: the long hand on the four and the short hand a little past the three. Tick your own page with a tick.
50:46	**SAY**	After question 3 you may choose: carry on, or try Think harder. Everyone may choose, at any time.
50:55	**SLIDE**	Show slide **Workbook page 2: Start here** (s-ws2)
51:03	**READ**	Page 2. Question 4: look at the clock. Choose the correct answer. Option 1: eight oh five. Option 2: eight twenty-five. Option 3: nine twenty-five. Option 4: eight thirty. Question 5: circle am or pm; Mei's bedtime is at night. Question 6: Ben and Mei leave home at different times. Who leaves first?
51:32	**CHILDREN**	Page 2, questions 4 to 6. [8:30]
60:02	**SLIDE**	Show slide **Check page 2** (s-ws2ans)
60:10	**READ**	Question 4: option 2, eight twenty-five. Question 5: am, then pm. Question 6: Mei leaves first.
60:18	**SLIDE**	Show slide **Choose your next page** (s-choice)
60:26	**SAY**	When you have finished Start here, you can choose Think harder, Go further or the Investigation. Everyone may choose. You can swap at any time. Anything not finished is for home too.
60:42	**MOVE**	Stand and stretch for 30 seconds, then sit down and choose.
61:12	**CHILDREN**	Choice time: Think harder (page 3), Go further (page 4), the Investigation (page 5), or finish and check your own work. Tutor never says who is on which page. If Start here took the whole time, say that pages 3 to 5 are for home, and keep the time. [3:40]
	IF STUCK	Q1: count in 5s from the 12 to the long hand. Q2: count in 5s up to the number. Q3: draw the long hand to the 4 first. Q4: find the clock with the long hand on the 5 and read the minutes. Q5: is it the morning or the afternoon and evening? Q6: read both times, then find the earlier.
	IF STUCK	A child who is still stuck ticks I am still stuck on the look-back page. The grown-up can photograph that page after class and send it to the business WhatsApp (never a personal phone). You then help in the open session in the next lesson. Never a private message to a child.
	NOTE	Think harder has am and pm with a tricky 12:30, 1 h 20 min, the short hand just before the next hour and a timetable. Go further is Chunk the Gap (beyond Primary 1 on purpose). Do not announce who is on which page. Start here takes a middle child about 18 minutes, so for most children pages 3 to 5 are for home. Say so plainly, do not skip the answer slides, and take any extra minutes from the flex time.

70:00 – 76:00 Talk time

script 4:25 of 6:00

70:00	**SLIDE**	Show slide **Talk and explain** (s-talk)
70:08	**REC**	*Recording: pause. Tell a grown-up your answer to the talk question, and say why.*
70:15	**READ**	A child says: the long hand is on the two, so it is two minutes past the hour. Is the child right? How could we check with our clock?
70:31	**CHILDREN**	Test the claim with your clock: move the long hand from the 12 to the 2 and count in fives. [1:00]
71:31	**CHILDREN**	Talk to the grown-up next to you or to your screen for one minute. Use the sentence starter: I think... because... [0:40]
72:11	**ASK**	Who would like to share? Volunteers first. A pass is always fine. [wait about 80 s for answers]
73:37	**SLIDE**	Show slide **Back to the sneak-peek** (s-sneakans)
73:45	**SAY**	Remember the sneak-peek? The first clock is three fifteen: the long hand is on the three, so five, ten, fifteen. The second is eleven fifty. The short hand has not reached the twelve, so the hour is still eleven.
74:04	**ASK**	Did anyone change their mind while we worked? You can just nod. [wait about 15 s for answers]
	NOTE	Model answer: no. Each number is 5 minutes: 5, 10. The 2 means 10 minutes past the hour. Volunteers first; never call a child by name to answer; no tallies, no rankings. Praise the reason, not the speed.

76:00 – 82:00 Exit ticket

script 4:56 of 6:00

76:00	SLIDE	Show slide **Exit ticket** (s-exit)
76:08	REC	*Recording: pause and do the exit ticket on your own. Then press play to check it.*
76:16	SAY	Exit ticket. Three questions, on your own, without looking back. Write your answers on page 5.
76:24	READ	E1. Write the time for the clock. E2. The bus home leaves at one twenty in the afternoon. Circle am or pm. E3. Draw the hands to show nine twenty-five. Use a ruler.
76:42	CHILDREN	Children answer E1 to E3 on their own. [3:50]
80:32	SLIDE	Show slide **Check the exit ticket** (s-exitans)
80:40	READ	E1: 10:15. E2: pm. E3: the long hand on the five and the short hand a little past the nine.
80:51	SAY	Tick your own ticket with a tick. Well done.
	NOTE	Nothing is collected or marked live. Children tick their own ticket. If many children miss one question, spend two minutes on it at the start of the next lesson, in the open session, no names. Do not read out any child result.

82:00 – 85:00 Look-back

script 2:06 of 3:00

82:00	SLIDE	Show slide **Look-back** (s-look)
82:08	REC	*Recording: pause and fill in your look-back box. You can pass.*
82:14	SAY	Look-back. Tick what was hard and what helped you. Write or draw one thing you did well. If you like, tick one thing to try next time. You can pass. Nobody reads it out. If you tick I am still stuck, ask your grown-up to take a photo of this page after class and send it to our business WhatsApp. Then we will help you.
82:46	CHILDREN	Children fill in the look-back box on page 5. [1:20]

85:00 – 90:00 Flex time and goodbye

script 0:26 of 5:00

85:00	SLIDE	Show slide **Well done, inquirers!** (s-end)
85:08	SAY	Well done, inquirers. Next lesson is Time Passes. Please have your clock from the first lesson of Term 3, with its hands, in its envelope, a pencil and paper. Goodbye, and thank you to the grown-ups.
	SLIDE	Show slide **Optional: the next hour** (s-opt) *(optional)*
	SAY	Optional, only if you are on time: it is five fifty. How many minutes until six o'clock?
	CHILDREN	Short think time, then take two answers. [1:30]
	SLIDE	Show slide **If we have time: pick one** (s-menu) *(optional)*
	SAY	Spare-time menu. If the whole class is ahead, pick one or two activities from the guide (about 4 minutes each).
	NOTE	This is the standing buffer. If you are behind, finish the look-back and say goodbye. Do not start anything new. Optional slide answer: 10 minutes, from the 10 to the 12 on the clock is two steps of 5. If the whole class is ahead, use the Spare-time menu (guide section 3b) instead of rushing on.

3b. Spare-time menu: if the class is ahead

- Whole class ahead: use the Spare-time menu in the Flex time and the optional Go further slide. Pick one or two activities; do not start new content. If you are more than 3 minutes ahead at minute 40, use one menu activity then.
- A few children ahead: a few children may choose Go further or the Investigation, which are open to everyone. Never label or name a child, and never announce who is ahead.
- Never teach anything the next lesson needs. If the class is ahead, slow down: ask "How do you know?" and let children explain, rather than rushing on.

Optional time, never added to the 90-minute sum. It comes from the 5-minute flex buffer, from slack in the parts, or from the optional Go further slide.

Activity	Minutes	You say	Recording cue	Answer
Clock hunt	4 (optional)	Find a clock or a watch at home. Read the minutes in 5s. What time is it? Is it am or pm?	*Recording: pause. Find a clock at home. Count the minutes in 5s and say the time.*	Any clock will do. Check: count in 5s from the 12 to the long hand; the short hand names the hour; the time of day tells am or pm.
Make a puzzle for your grown-up	4 (optional)	Set your clock to a time in 5s, such as 6:25. Ask your grown-up what time it is. Then ask them to set a time for you to read.	*Recording: pause. Set a 5-minute time on your clock and ask a grown-up to read it. Then swap.*	No single answer. Check the long hand with counting in 5s and check that the short hand has not reached the next number.
Teach it back	3 (optional)	Pretend a toy has never read minutes. Show it why the 2 on the clock means 10 minutes, not 2.	*Recording: pause. Show a toy or a grown-up why the 2 on the clock means 10 minutes.*	Each number the long hand passes is 5 more minutes: from the 12 to the 2 is 5, then 10.

4. Questions, answers, hints and common mistakes

Sneak-peek puzzles (minutes 8 to 12)

Puzzle 1 (access): Look at the clock. Write the time.

Answer: 3:15

Puzzle 2 (think): Look at the second clock. Write the time.

Answer: 11:50 (the short hand has not reached the 12 yet, so the hour is still 11)

Unmarked. Never put answers on boards in front of the group and never read a name with an answer. Reveal the answers where your script says (usually Talk time).

Start here (workbook pages 1 and 2)

S1 **Write the time for each clock.**

Answer: 2:35; 9:05; 11:10

Hint (say this first): Count in 5s from the 12 to the long hand. Then look at the short hand: which number has it passed?

Worked solution: First clock: the long hand is on the 7, so 35 minutes; the short hand has passed the 2: 2:35. Second clock: the long hand is on the 1, so 5 minutes: 9:05 (two digits for the minutes). Third clock: the long hand is on the 2, so 10 minutes; the short hand has just passed the 11: 11:10.

Common mistakes: Writing 2:7 (the number the long hand points to).; Writing 9:5 (one digit for the minutes).; Writing 11:2 or 12:10 (the 2 is read as 2 minutes, or the hour is the number after the 11).

Time for a middle child: about 4 min.

S2 **Count in 5s from the 12. How many minutes past the hour is the long hand showing?**

___ minutes

Answer: 40

Hint (say this first): Touch each number from the 12 and count 5, 10, 15 ... Stop at the long hand.

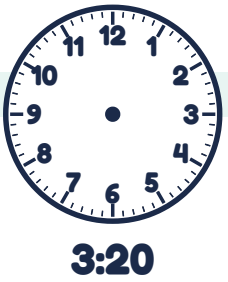

Worked solution: The long hand is on the 8. Count in 5s: 5, 10, 15, 20, 25, 30, 35, 40. It is 40 minutes past the hour.

Common mistakes: Writing 8 (the number the long hand points to).; Writing 35 or 45 (a slip in counting).

Time for a middle child: about 2.5 min.

S3 **Draw the hands to show 3:20. Use a ruler.**

Draw the short hand and the long hand.

3:20

Answer: The long hand on the 4 and the short hand a little past the 3

Hint (say this first): Count in 5s: 5, 10, 15, 20. Which number is that? Draw the long hand there first.

Worked solution: The minutes are 20: count 5, 10, 15, 20, so the long hand is on the 4. The hour is 3, so the short hand is a little past the 3.

Common mistakes: Drawing the long hand to the 3 or the 20.; Drawing the short hand exactly on the 3 or on the 4.

Time for a middle child: about 3 min.

S4 **Look at the clock. Choose the correct answer. Write its number in the bracket.**

Answer: (2) 8:25

Hint (say this first): Find the long hand first. Count in 5s from the 12.
Worked solution: The long hand is on the 5. Count in 5s: 25 minutes. The short hand is a little past the 8. The time is 8:25.
Common mistakes: Choosing (1) 8:05 (reading the 5 as 5 minutes).; Choosing (3) 9:25 (the hour the short hand is going towards).
Time for a middle child: about 3 min.

S5 **Circle am or pm.**

(a) Ali wakes up at 6:30.
(b) Mei goes to bed at 8:30 at night.

Answer: am; pm

Hint (say this first): Is it the morning, or the afternoon and evening?
Worked solution: Waking up at 6:30 is in the morning, so it is 6:30 am. Going to bed at 8:30 is in the evening, so it is 8:30 pm.
Common mistakes: Writing pm for waking up because 6 is a small number.; Writing am for bedtime.
Time for a middle child: about 2.5 min.

S6 **Ben and Mei leave home at different times. Look at the clocks.**

Mei

Ben

___ leaves first.

Answer: Mei

Hint (say this first): Read the time on each clock. The earlier time is first.
Worked solution: Ben leaves at 6:20 and Mei leaves at 6:15. Both are the same hour, so the one with fewer minutes is earlier. 6:15 is earlier than 6:20, so Mei leaves first.
Common mistakes: Choosing Ben because 20 is a bigger number.; Comparing the short hands only (they look alike).
Time for a middle child: about 3 min.

Think harder (page 3): the taught idea in a new setting

T1 **Circle am or pm.**

(a) School starts at 7:30.
(b) Break time is at 10:20.
(c) Lunch is at 12:30.
(d) Siti goes to sleep at 9:15 at night.

Answer: am; am; pm; pm

Hint (say this first): Noon is 12 o'clock in the middle of the day. Times just after noon are pm.
Worked solution: School starts in the morning: 7:30 am. Break at 10:20 is before noon: am. 12:30 is just after noon, so it is pm. Going to sleep at 9:15 at night is pm.
Common mistakes: Writing am for 12:30 because 12 is a small hour.; Thinking pm is only for night time.
Time for a middle child: about 3.5 min.

T2 **A film lasts 1 h 20 min.**

(a) 1 h 20 min is ___ hour and ___ minutes.
(b) Which is longer, 50 min or 1 h? Circle one.

Answer: 1 hour and 20 minutes; 1 h

Hint (say this first): h is hour and min is minutes. How many minutes are in 1 hour?
Worked solution: h means hour and min means minutes, so 1 h 20 min is 1 hour and 20 minutes. 1 hour is 60 minutes, which is more than 50 minutes, so 1 h is longer.
Common mistakes: Writing 120 minutes (reading 1 h 20 min as 120).; Choosing 50 min because 50 is a bigger number than 1.
Time for a middle child: about 3 min.

T3 **A child says this clock shows 4:50.**

(a) Is the child correct? Circle Yes or No.
(b) The time is ___.

Answer: No; 3:50

Hint (say this first): Count in 5s for the long hand. Has the short hand reached the 4?
Worked solution: The long hand is on the 10, so it is 50 minutes past. The short hand is almost on the 4, but it has not reached it. The hour is still 3, so the time is 3:50.
Common mistakes: Saying Yes because the short hand is near the 4.; Writing 4:10 (reading the 10 as the minutes).
Time for a middle child: about 3 min.

T4 **The shows start at the times in the table. Ravi arrives at 10:35.**

Show	Starts
Fish	10:20
Birds	10:50
Seals	11:25

(a) The ___ show is on.
(b) Ravi waits ___ minutes for the next show.

Answer: fish; 15

Hint (say this first): Which show started before 10:35? When does the next show start?
Worked solution: The fish show started at 10:20, and the birds show starts at 10:50. Ravi arrives at 10:35, between the two, so the fish show is on. From 10:35 to 10:50 is 15 minutes (10:35 to 10:40 is 5, then 10 more).
Common mistakes: Choosing the birds show (the next start time).; Writing 50 or 35 (a time, not the wait).
Time for a middle child: about 4 min.

Go further (page 4): mastery and extension

G1 **Mi starts to swim at 3:10 and stops at 4:05. Each step on the line is 5 minutes. Fill in the blanks.**

(a) From 3:10 to 4:00 is ___ minutes.
(b) From 4:00 to 4:05 is ___ minutes.
(c) Mi swims for ___ minutes.

Answer: 50; 5; 55

Hint (say this first): Go to the next hour first. Then add the minutes after it.
Worked solution: From 3:10 to 4:00 is 50 minutes (the 10 and the 50 make 60). From 4:00 to 4:05 is 5 minutes. 50 + 5 = 55, so Mi swims for 55 minutes.
Common mistakes: Subtracting digit by digit and writing 1:05 or 95.; Stopping at 4:00 and writing 50.
Time for a middle child: about 5 min.

G2 **A show starts at 2:45 and ends at 3:20. How many minutes does the show last?**

The show lasts ___ minutes.

Answer: 35

Hint (say this first): Go to the next hour first: 2:45 to 3:00. Then add the rest.
Worked solution: From 2:45 to 3:00 is 15 minutes. From 3:00 to 3:20 is 20 minutes. 15 + 20 = 35, so the show lasts 35 minutes.
Common mistakes: Writing 75 or 25 (taking 20 and 45 away from each other).; Writing 15 (stopping at the next hour).
Time for a middle child: about 4 min.

G3 **Ali reads from 5:35 to 6:20. Mei reads from 6:05 to 6:55.**

(a) Who reads for longer? Circle one.
(b) She reads ___ minutes longer.

Answer: Mei; 5

Hint (say this first): Find how long each child reads. Go to the next hour first for Ali.
Worked solution: Ali: 5:35 to 6:00 is 25 minutes, then 20 more: 45 minutes. Mei: 6:05 to 6:55 is 50 minutes. 50 is more than 45, so Mei reads for longer, by 5 minutes.
Common mistakes: Comparing only the start times or only the end times.; Writing 50 (Mei's time, not the difference).
Time for a middle child: about 5 min.

Investigation (page 5): Why 12 steps?

Easy first step: The long hand goes from the 12 to the 3. How many steps of 5 minutes is that?
Then: How many steps of 5 minutes make 1 whole hour? Why?

> **Model answer: First: 3 steps (5, 10, 15). Next: 12 steps. Each number the long hand passes is 5 minutes, and there are 12 numbers, so 12 fives make 60 minutes, which is 1 hour.**

Look for: A child who says 12 and gives a reason: there are 12 numbers and each one is 5 minutes, or 12 fives make 60. Credit any clear reason. Do not mark a child down for stopping at 12.
Common mistakes: Saying 60 (the minutes, not the steps).; Saying 5 (the size of one step).

Talk and explain (minutes 70 to 76)

A child says: the long hand is on the 2, so it is 2 minutes past the hour. Is the child right? How could we check with our clock? Sentence starter: I think ... because ...

> **Model answer: No. Each number the long hand passes is 5 minutes. From the 12 to the 2 is 5, then 10, so it is 10 minutes past the hour. We can check by moving the long hand on the clock and counting in 5s.**

Look for: A child who counts in 5s or says each number is 5 minutes. Not just yes or no. Volunteers first, a pass is always fine, never call a child by name to answer, no tallies.

Exit ticket (minutes 76 to 82): 3 questions

E1 **Write the time for the clock.**

> **Answer: 10:15**

Worked solution: The long hand is on the 3: count in 5s to 15 minutes. The short hand has passed the 10. The time is 10:15.
Common mistakes: Writing 10:3 (the number the long hand points to).; Writing 11:15 (the number the short hand is going towards).

E2 **The bus home leaves at 1:20 in the afternoon. Circle am or pm.**

> **Answer: pm**

Worked solution: The afternoon is after noon, so 1:20 in the afternoon is 1:20 pm.
Common mistakes: Writing am because 1 is a small number.

E3 **Draw the hands to show 9:25. Use a ruler.**
Draw the short hand and the long hand.

> **Answer: Long hand on the 5; short hand a little past the 9**

Worked solution: 25 minutes is 5 fives, so the long hand is on the 5. The hour is 9, so the short hand is a little past the 9.
Common mistakes: Drawing the long hand on the 25 or the 4.; Drawing the short hand on the 10.

Look-back (minutes 82 to 85)

Children tick or write: *Something I did well*; *The hardest part was* (counting in 5s; writing two digits; the short hand and the hour; something else); *What helped me* (my clock and hands; counting in 5s; drawing it; I was not stuck); *Next time I will try* (using my clock; counting in 5s; checking my answer; asking a question); *I am still stuck (my grown-up will photograph this page for my tutor)* and *I would like to pass*. Never collected or read out in front of the group. A child who ticks still stuck gets a check-in in the open session next lesson.

5. Home practice and online practice

#	Tier	Question	Answer

H1	Start here	The long hand is on the 4. Count in 5s. How many minutes past the hour is that? ___ minutes	20
H2	Start here	The long hand is on the 7. The short hand has passed the 8. Write the time in digits. ___	8:35
H3	Start here	Which is the correct way to write 5 minutes past 3? Circle one.	3:05
H4	Think harder	Lunch is at 12:10. Circle am or pm.	pm
H5	Start here	Fill in the missing numbers: 46 | 47 | ___ | 49 | ___	48 and 50

Online practice (`out/l22/practice`, key `t3l22`): 14 items; 8 have a template that makes unlimited similar questions with a computed answer. Every template variant is checked by the validator against a brute-force oracle and the runner's own JavaScript. No timers, no scores, no streaks.

6. Parent line for the term report

Your child is learning to read the minutes on a clock in 5s and to write times such as 4:10. This week: reading 5-minute times and am and pm.

Term line (plan, section 5): Your child is learning to give a reason, and to read time and money in real life. Add one named strength and one next step from your own observation. No marks, no ranking, no claim of exam results.

7. Slide list

#	Time	Slide	On screen	Speaker note
1	0–2	**Five Minutes at a Time** s-title	TODAY WE WILL: / Read the minutes on a clock. / Count in 5s: 5, 10, 15 …	Lesson 2 of Term 3, 90 minutes. Objective: read and write times to 5 minutes as digits (4:10, 7:25, 9:50), know that the hour stays the same until the long hand has been all the way round, choose am or pm for a daily event, and (Go further) find how many minutes between two times in chunks. Plain statement for families: reading and writing 5-minute times is school Primary 1 work; the Chunk the Gap puzzles go past Primary 1 on purpose. Time plan: opening 0 to 2, warm-up 2 to 8, sneak-peek 8 to 12, explore 12 to 24, mini-lesson 24 to 36, brain break 36 to 40, workbook 40 to 70, talk 70 to 76, exit ticket 76 to 82, look-back 82 to 85, flex time and goodbye 85 to 90 (the buffer: do not start anything new). Say the recording notice in one line before you start the recording: the tutor, the shared screen and any voice that is not muted are recorded; a child may keep the camera off. Think harder, Go further and the Investigation are for every child to choose.
2	2–8	**Warm-up: count in 5s round the clock** s-rem1	Clap and count in 5s. How many claps make 1 hour? / [picture: number_line]	Children clap and count in fives to 60: 5, 10, 15 … 60. Ask: how many claps get us to 60 (12); how many claps get us to 30 (6). The clock has 12 numbers, so the long hand takes 12 steps of 5 minutes to go once round. This is the count in 5s from Term 1 Lesson 4 and from the first lesson of Term 3, taught again. A child who is unsure counts on the fingers of one hand, then the other, or touches the numbers on the line. Answers: 12 claps; 6 claps. No writing.
3	2–8	**Warm-up: two hands, two jobs** s-rem2	Which hand names the hour? Read each clock. / [picture: clock] / [picture: clock]	Two clocks from the first lesson of Term 3. Ask: which hand names the hour (the short hand); which hand counts the minutes (the long hand). First clock: the long hand is on the 12, so it is an o'clock time: 9:00. Second clock: the long hand is on the 6, so it is half past: 2:30. Children answer aloud or with fingers. A child who has not met the clock lesson follows the two hand jobs here, and a child with a cut-out clock sets each time. Answers: 9:00 and 2:30.
4	2–8	**Warm-up: pairs that make 60** s-rem3	Look at the number line. What goes with each number to make 60? / [picture: number_line]	The number line shows 50 and a jump of 10 to 60. Ask: 50 and what make 60 (10); 40 and what make 60 (20); 55 and what make 60 (5). This is make a ten from Term 1 Lesson 5, taught again: later in the lesson we move to the next hour in the same way (from 3:50 to 4:00 is 10 minutes). Children answer with a whisper or fingers. A child who is unsure counts up from the first number on the line. Answers: 10, 20, 5.
5	8–12	**Sneak-peek puzzles** s-sneak	Ideas we have not learnt yet. A guess is a great start. Nobody is marked. / PUZZLE 1: anyone can try: / Look at the clock. / Write the time. / [picture: clock] / PUZZLE 2: think: / Look at the second clock. / Write the time. / [picture: clock]	Puzzle 1 is an access question: the long hand is on the 3, count in 5s: 15 minutes past 3, so 3:15. Puzzle 2 is a thinking question on the lesson idea: the long hand is on the 10, count in 5s to 50 minutes; the short hand is close to the 12 but has not reached it, so the hour is still 11: 11:50. Say: two sneak-peek puzzles, ideas we have not learnt yet; a guess is a great start and I do not know is welcome; nobody is marked. Children write on their own paper. Nobody holds paper to the camera. There is no private chat. Answers: 3:15 and 11:50. Do not reveal puzzle 2 until Talk time. Do not write scores or keep a list.
6	12–24	**Explore: set the minutes** s-explore1	Set your clock to 4 o'clock. / Move the long hand to the 2. / Count in 5s from the 12. What time is it?	Round 1, about 4 minutes. Children set their cut-out clock (or a real clock) to 4 o'clock, then move the long hand to the 2 and count 5, 10: 10 minutes past 4, written 4:10. Then the same for 7 o'clock and the long hand on the 5: count 5, 10, 15, 20, 25: 7:25. Ask each time: where is the short hand (just past the hour); what time is it. The picture appears on the next slide, after the children have answered. Answers: 4:10 and 7:25. A child who reads the 2 as 2 minutes counts in 5s with a finger on each number.

7	12–24	**Explore: set the minutes** s-explore1-ans	Set your clock to 4 o'clock. / Move the long hand to the 2. / Count in 5s from the 12. What time is it? / [picture: clock]	Round 1, about 4 minutes. Children set their cut-out clock (or a real clock) to 4 o'clock, then move the long hand to the 2 and count 5, 10: 10 minutes past 4, written 4:10. Then the same for 7 o'clock and the long hand on the 5: count 5, 10, 15, 20, 25: 7:25. Ask each time: where is the short hand (just past the hour); what time is it. (answer slide: shown after the children have answered)
8	12–24	**Explore: the long hand moves on** s-explore2	Set your clock to 9 o'clock. / Move the long hand to the 10. Count in 5s. / A real short hand creeps. Slide yours nearly to the 10, but not onto it. / What is the time? Is the hour 9 or 10?	Round 2, about 3 minutes. Show it first on your own clock: set 9 o'clock, move the long hand round to the 10 (count 5 … 50) and slide the short hand nearly to the 10 but not onto it, because on a real clock the short hand creeps by itself and our paper hand needs a nudge. Then every child does the same. Ask: what is the time (9:50); is it 9 or 10 (still 9: the short hand has not reached the 10; the hour changes when the long hand is back on the 12). Say: the short hand creeps, and at 9:50 it is nearly at the 10, but the hour stays 9 until the long hand is back on the 12. The picture appears on the next slide. Answer: 9:50, not 10:50. This is the hour-hand trap that the Think harder page asks about again with a different time.
9	12–24	**Explore: the long hand moves on** s-explore2-ans	Set your clock to 9 o'clock. / Move the long hand to the 10. Count in 5s. / A real short hand creeps. Slide yours nearly to the 10, but not onto it. / What is the time? Is the hour 9 or 10? / [picture: clock]	Round 2, about 3 minutes. Show it first on your own clock: set 9 o'clock, move the long hand round to the 10 (count 5 … 50) and slide the short hand nearly to the 10 but not onto it, because on a real clock the short hand creeps by itself and our paper hand needs a nudge. Then every child does the same. Ask: what is the time (9:50); is it 9 or 10 (still 9: the short hand has not reached the 10; the hour changes when the long hand is back on the 12). Say: the short hand creeps, and at 9:50 it is nearly at the 10, but the hour stays 9 until the long hand is back on the 12. (answer slide: shown after the children have answered)
10	12–24	**Explore: morning or afternoon?** s-explore3	Take your 8 event cards and the mat. / Put each card in the morning box (am) or the afternoon and evening box (pm). / Read the time on each card to help you decide.	Round 3, about 4 minutes. Each child has the 8 event cards, each with a time (wake up 6:10, breakfast 6:50, school 7:20, break 10:40; come home 1:15, play ball 4:45, night bath 7:05, go to bed 8:05), and the morning and afternoon mat from the kit page. They sort the cards into am (morning) and pm (afternoon and evening). Ask: which event is the first in the day; which is the last. Nobody holds cards to the camera: children say which box and show a thumb. The card with the rule appears on the next slide, after the children have sorted. Answers: wake up, breakfast, school and break are am; come home, play ball, night bath and go to bed are pm. If a child says they have a bath in the morning, say: this card is the bath before bed, at night.
11	12–24	**Explore: morning or afternoon?** s-explore3-ans	Take your 8 event cards and the mat. / Put each card in the morning box (am) or the afternoon and evening box (pm). / Read the time on each card to help you decide. / AM AND PM: / am is from the middle of the night to noon. / pm is from noon to the middle of the night. / We write 6:45 am and 7:15 pm.	Round 3, about 4 minutes. Each child has the 8 event cards, each with a time (wake up 6:10, breakfast 6:50, school 7:20, break 10:40; come home 1:15, play ball 4:45, night bath 7:05, go to bed 8:05), and the morning and afternoon mat from the kit page. They sort the cards into am (morning) and pm (afternoon and evening). Ask: which event is the first in the day; which is the last. Nobody holds cards to the camera: children say which box and show a thumb. The card with the rule appears on the next slide, after the children have sorted. Answers: wake up, breakfast, school and break are am; come home, play ball, night bath and go to bed are pm. If a child says they have a bath in the morning, say: this card is the bath before bed, at night. (answer slide: shown after the children have answered)
12	24–36	**Each number is 5 minutes** s-m1	[picture: clock] / [picture: clock] / Count in 5s from the 12 to the long hand.	Read the minutes in 5s. First clock: the long hand is on the 1: 5 minutes past 1, written 1:05. Second clock: the long hand is on the 7: count 5, 10, 15, 20, 25, 30, 35: 35 minutes past 6, written 6:35. Say: each number the long hand passes is 5 more minutes. Children answer aloud. Ask them to point to the number on their own clock face. Answers: 1:05 and 6:35.

13	24–36	**Two digits for the minutes** s-m2	WRITE THE TIME: / The hour, a colon, then 2 digits for the minutes. / 5 minutes is 05, so we write 1:05. / We do not write 1:5. / [picture: clock] / [picture: clock]	Minutes always take two digits: 5 minutes is 05, so 1:05, never 1:5 (which looks like 1 and 5 minutes but is not how times are written). Ask: how do we write 10 minutes past 2 (2:10); 5 minutes past 10 (10:05). Children write in the air or on their paper. Common slip: writing 1:5. Answers: 2:10 and 10:05; the second clock on the slide shows 10:05 for the children to write.
14	24–36	**Read this clock** s-m3	The long hand is on the 11. What is the time? / [picture: clock]	The short hand is close to the 9 but the long hand has not finished its round, so the hour is still 8: 8:55. Ask: what is the time (8:55); why is it not 9:55 (the short hand has not reached the 9; it gets there when the long hand is back on the 12). The card appears on the next slide, after the children have answered. Answer: 8:55. This is the trap in Think harder with a different time. The picture cannot show the small gap, so say the rule: past 30 minutes the short hand is nearly at the next number, but the hour stays the same until the long hand is back on the 12.
15	24–36	**Read this clock** s-m3-ans	The long hand is on the 11. What is the time? / [picture: clock] / STILL 8: / The long hand is on the 11: 55 minutes. / The short hand is nearly at the 9, but not there yet. / The hour stays 8 until the long hand is back on the 12. The time is 8:55, not 9:55.	The short hand is close to the 9 but the long hand has not finished its round, so the hour is still 8: 8:55. Ask: what is the time (8:55); why is it not 9:55 (the short hand has not reached the 9; it gets there when the long hand is back on the 12). (answer slide: shown after the children have answered)
16	24–36	**am and pm** s-m4	[picture: objects] / AM: / From the middle of the night to noon. / Wake up, breakfast, school. / [picture: objects] / PM: / From noon to the middle of the night. / Lunch after noon, tea, bedtime.	am is the morning: from the middle of the night (12 at night) to noon. pm is the afternoon and evening: from noon to the middle of the night. We write the time, a space, then am or pm, without full stops: 6:45 am, 7:15 pm. Ask: is breakfast at 6:45 am or pm (am); is bedtime at 7:15 at night am or pm (pm). Careful: 12:45 is just after noon, so it is pm; pm is not only night. Children answer on three. Answers: am, pm.
17	24–36	**Hours and minutes** s-m5	H AND MIN: / h is hour. min is minutes. / 1 h 20 min is 1 hour and 20 minutes. / A swim lasts 1 h 40 min. / How long is 2 h 10 min? Say it in words.	h stands for hour and min stands for minutes: 1 h 20 min is 1 hour and 20 minutes. Ask: say 2 h 10 min in words (2 hours and 10 minutes); how many minutes are in 1 hour (60). We only read hours and minutes this way, and we do not change them into minutes today, and we do not find how long between two times (that is the Go further page). Answer: 2 hours and 10 minutes.
18	24–36	**Your turn** s-m6	Set your clock to 2:20. / Then set it to 5:40. / Write both times with digits.	Each child works with their own clock. 2:20: the long hand on the 4 (count 5, 10, 15, 20) and the short hand just past the 2. 5:40: the long hand on the 8 (40 minutes) and the short hand about two thirds of the way from the 5 to the 6. Walk the cameras; do not ask children to hold their clock up. Wait 10 seconds before helping. The pictures appear on the next slide. Answers: 2:20 and 5:40. Children tick their own work.
19	24–36	**Your turn** s-m6-ans	Set your clock to 2:20. / Then set it to 5:40. / Write both times with digits. / [picture: clock] / [picture: clock]	Each child works with their own clock. 2:20: the long hand on the 4 (count 5, 10, 15, 20) and the short hand just past the 2. 5:40: the long hand on the 8 (40 minutes) and the short hand about two thirds of the way from the 5 to the 6. Walk the cameras; do not ask children to hold their clock up. Wait 10 seconds before helping. (answer slide: shown after the children have answered)
20	36–40	**Five at a time** s-break	Stand up. Count in 5s with me. / Make a big circle with one arm for each 5. / Stop at 60: that is 1 whole hour.	Four minutes. Stand up on camera with a little clear space. Count in 5s from 5 to 60 with one big, slow arm circle for each count, like the long hand going round: 12 steps make 1 hour. Then count back from 60 to 30 in 5s and sip some water. No running, no equipment. A child may stay seated and move one hand. No prizes and no comparing.

21	40–70	**Workbook page 1: Start here** s-ws1	Questions 1 and 2. Take your time. / questions S1, S2	Read questions 1 and 2 aloud. Children work on their own with their clock; the tutor walks the cameras and asks how do you know. Wait 10 seconds before helping. Question 1: read three clocks and write the times as digits. Question 2: the long hand is on a number; count in 5s to say the minutes.
22	40–70	**Workbook page 1: Start here** s-ws1b	Question 3. Take your time. / questions S3	Read question 3 aloud: draw the hands to show 3:20. Use a ruler. After question 3 any child may choose to carry on or try Think harder. Children draw the long hand on the 4 and the short hand a little past the 3.
23	40–70	**Check page 1** s-ws1ans	answers S1, S2, S3	Read each answer aloud. Children tick their own page with a tick. Never ask a child to show a wrong answer to the group. Answers: Q1 2:35, 9:05, 11:10; Q2 40 minutes; Q3 the long hand on the 4 and the short hand a little past the 3.
24	40–70	**Workbook page 2: Start here** s-ws2	Questions 4 to 6. Take your time. / questions S4, S5, S6	Read questions 4 to 6 aloud with the options. Question 4: choose the correct answer for a clock and write its number in the bracket. Question 5: circle am or pm for two events. Question 6: two clocks with names; who leaves home first.
25	40–70	**Check page 2** s-ws2ans	answers S4, S5, S6	Read each answer aloud so a child watching the recording can tick their own work. Never ask a child to show a wrong answer to the group. Answers: Q4 option (2), 8:25; Q5 am, then pm; Q6 Mei.
26	40–70	**Choose your next page** s-choice	Page | What it is / Think harder (page 3) | am and pm, hours and minutes, a timetable / Go further (page 4) | Chunk the Gap / Investigation (page 5) | Why 12 steps? / Check | Finish and check your own work / Everyone may choose. Not finished? Pages 3 to 5 are for home too.	Invite the whole group at once, for example: when you have finished Start here, you can choose Think harder, Go further or the Investigation. Never announce who is on which page and never name a child. Pairs are not split unless both children agree. Model answers are in the tutor guide. About 5 minutes.
27	70–76	**Talk and explain** s-talk	A CHILD SAYS: / The long hand is on the 2. / So it is 2 minutes past the hour. / Is the child right? How could we check with our clock? / I think … because …	One minute of talk to the grown-up next to you, or to your screen. Children test the claim with their clock: move the long hand from the 12 to the 2 and count in 5s. Then volunteers first; a pass is always fine; never call a child by name to answer. Model answer: no. Each number is 5 minutes: 5, 10. The 2 means 10 minutes past the hour. Repeat each child answer in your own words for the recording.
28	70–76	**Back to the sneak-peek** s-sneakans	[picture: clock] / [picture: clock] / The first clock shows 3:15. The second shows 11:50.	Reveal both puzzles now. Say: many of you wrote a good reason. Do not read out anyone's earlier answer. Puzzle 1: the long hand is on the 3: count in 5s, 5, 10, 15: 3:15. Puzzle 2: the long hand is on the 10: 50 minutes. The short hand is close to the 12 but has not reached it, so the hour is still 11: 11:50. It was the same idea: count the minutes in 5s, and the hour stays the same until the long hand has been all the way round.
29	76–82	**Exit ticket** s-exit	On your own. No looking back. / questions E1, E2, E3	Children answer on page 5. Read E1, E2 and E3 aloud with the clock and the options. The figures on the slide are small. Children tick their own ticket against the next slide. Nobody holds paper to the camera and there is no private chat.
30	76–82	**Check the exit ticket** s-exitans	answers E1, E2, E3	Read each answer aloud. Children tick their own ticket with a tick. Answers: 10:15; pm; for 9:25 the long hand is on the 5 and the short hand is a little past the 9.

31	82–85	**Look-back** s-look	[look-back box]	Three minutes. Children tick or write the look-back box on page 5. A pass is always allowed. It is never marked, never collected in front of the group and never read out. If a child ticks I am still stuck, a grown-up may photograph that page after class and send it to the business WhatsApp (the number is in the parent summary, never on a slide). You then help in the open session next lesson. Never a direct message to a child. The Next time I will try row is optional.
32	85–90	**Well done, inquirers!** s-end	Show a grown-up one thing you found out today. / NEXT LESSON: / Time Passes / Have ready: your clock from the first lesson of Term 3 in its envelope, a pencil and paper.	Say goodbye and thank the grown-ups. Minutes 85 to 90 are flex time: the buffer. If you ran late, finish any open item (the look-back). Do not start anything new. Remind families to keep the clock pieces in an envelope: the next lesson uses them again. If the whole class is ahead, show the optional slide and use the Spare-time menu from the tutor guide.
33	optional	**Optional: the next hour** s-opt	It is 5:50. / How many minutes until 6:00? / [picture: clock]	Optional, only if you are on time. From 5:50 to 6:00 is 10 minutes (the long hand goes from the 10 to the 12: two steps of 5). Take two answers and move on. This links to Chunk the Gap: go to the next hour first. Answer: 10 minutes.
34	optional	**If we have time: pick one** s-menu	Activity | What we do / Clock hunt | Find a clock at home. Read the minutes in 5s. / Make a puzzle | Set your clock. Ask your grown-up for the time. / Teach it back | Show a toy why the 2 means 10 minutes. / Optional. Everyone may join.	Optional Spare-time menu, used only if the whole class is ahead. Pick one or two activities (3 to 5 minutes each); full tutor lines and answers are in the tutor guide. Never start new content and never name who is ahead. Slow down with how do you know rather than rushing on. These minutes come from the flex buffer and are not part of the 90-minute sum.

8. Recording cues and chapter markers

Say each cue once, to the camera, at the start of the part. Add a chapter marker at each time. A child watching alone cannot ask you a question, so say the page and question number aloud, read each question and each answer aloud, and repeat a child's answer in your own words.

Chapter	Part	You say (recording voice)	A child watching later
0:00	Opening	*If you are watching the recording: hello! Get a pencil, paper, your workbook, your clock pieces and the event cards. Pause or rewind any time.*	Gather your workbook, clock, event cards, pencil and paper. Press play when ready.
2:00	Remember warm-up	*Recording: join in! Say each answer out loud before I do. Pause if you need longer.*	Play along. Say each answer out loud before the video does.
8:00	Sneak-peek puzzles	*Recording: pause now and try both puzzles on your paper. Guessing is fine. Press play for the next part.*	Pause. Try both puzzles on your own paper. A guess is fine.
12:00	Explore	*Recording: pause now. Use your clock hands and event cards to follow each step. Press play when you have tried.*	Pause. Set your clock and sort your cards as each step says, then play to check.
24:00	Mini-lesson	*Recording: keep watching and copy the examples. Rewind if you miss a step.*	Watch and copy the examples. Rewind any step you missed.
36:00	Brain break	*Recording: stand up and join in! Count in 5s with big arm circles.*	Stand up. Count in 5s and move your arms round like a clock hand.
40:00	Workbook	*Recording: pause now and do workbook page 1. Press play to check it. Then page 2.*	Pause. Do page 1, then play to check. Then page 2. Pages 3 to 5 are for any time.

70:00	Talk time	*Recording: pause. Tell a grown-up your answer to the talk question, and say why.*	Pause. Explain your answer to someone at home, with a reason.
76:00	Exit ticket	*Recording: pause and do the exit ticket on your own. Then press play to check it.*	Pause. Do the exit ticket alone, then play to check it.
82:00	Look-back	*Recording: pause and fill in your look-back box. You can pass.*	Pause. Fill in the look-back box, or pass.
85:00	Flex time and goodbye	*Recording: well done for finishing! Show a grown-up one thing you found out.*	Show a grown-up your workbook and tell them one thing you found out.

9. Timing check (model, not a stopwatch)

Part	Allocated	Script	Slow class	Flag
opening	2:00	1:47	2:00	OVER (slow class)
remember	6:00	4:22	5:11	ok
sneak	4:00	3:18	3:54	ok
explore	12:00	9:36	11:21	ok
mini	12:00	9:19	11:01	ok
break	4:00	2:56	3:29	ok
work	30:00	24:52	29:39	ok
talk	6:00	4:25	5:14	ok
exit	6:00	4:56	5:50	ok
look	3:00	2:06	2:27	ok
flex	5:00	0:26	0:29	ok
Total	90:00	68:02	80:38	

Assumptions as docs/audit/timing_p1.md: speech 120 words a minute, read-aloud 110, slide change 25 s, a group question 10 s thinking plus 20 s answers, papers to the camera 30 s. Workbook: Start here has 6 questions; a middle child needs about 9.5 min for page 1 and 8.5 min for page 2 (a slower child about 1.7 times as long, so may finish page 1 and part of page 2; that is fine, the check-together slides cover every answer). The lesson has no breakout rooms, so no breakout time is counted.
