LESSON 2 • TERM 1 • LEVEL 1

Number Words and the Number Line

Whole numbers: where each number lives

TODAY WE WILL

Find numbers on a number line, and read their names.

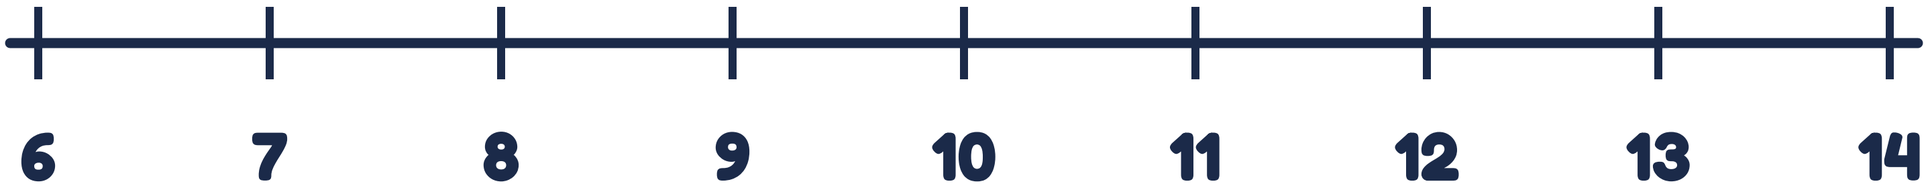

Hi, I'm Mi. Let's notice, test and explain why!

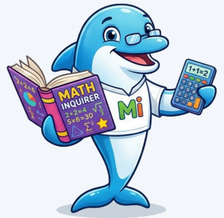

2–8 MIN

Warm-up: count along the line

Say each number as I point

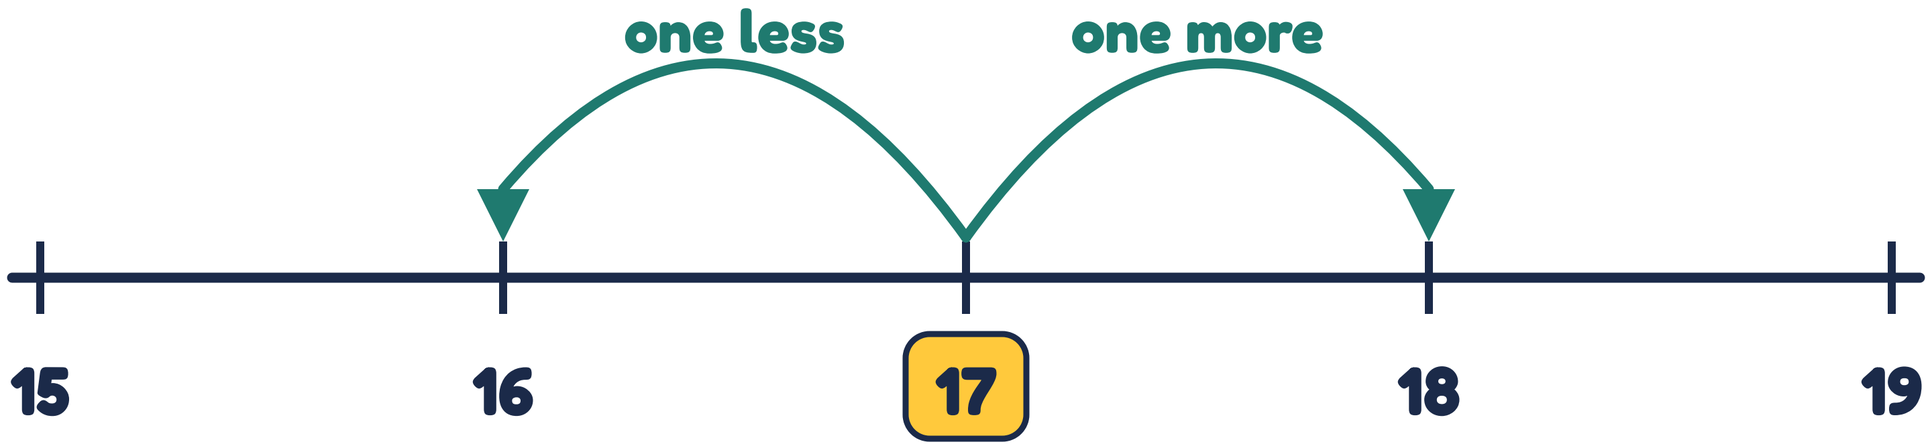

Count on from 6 to 14. Then count back down.

Count along with me!

2–8 MIN

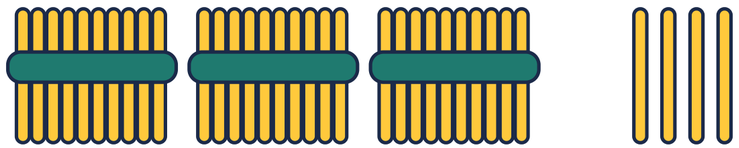

One more, one less

Right of 17 is one more. Left of 17 is one less.

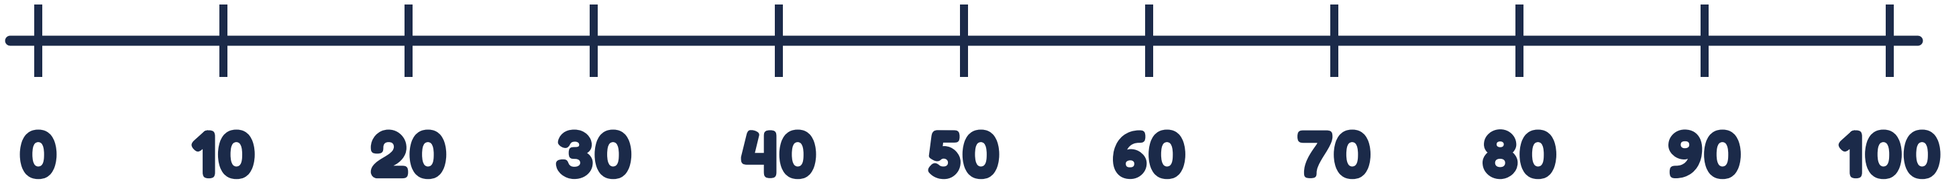

2–8 MIN

Tens and ones, and counting in tens

34 is 3 tens and 4 ones

Count in tens to one hundred:

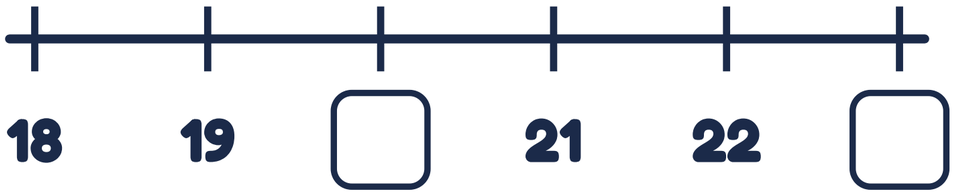

Sneak-peek puzzles

8–12 MIN

Ideas we have not learnt yet. A guess is a great start. Nobody is marked.

PUZZLE 1: anyone can try

Write the missing numbers on the number line.

PUZZLE 2: think

A frog sits on 38.

Is it nearer to 30 or to 40?

Write 30 or 40, and say why.

Explore: build a number line

12–28 MIN

1. Find your ones cards, 0 to 10.
2. Put them in a row, in order.
3. Put your frog on 0. Hop where I say.

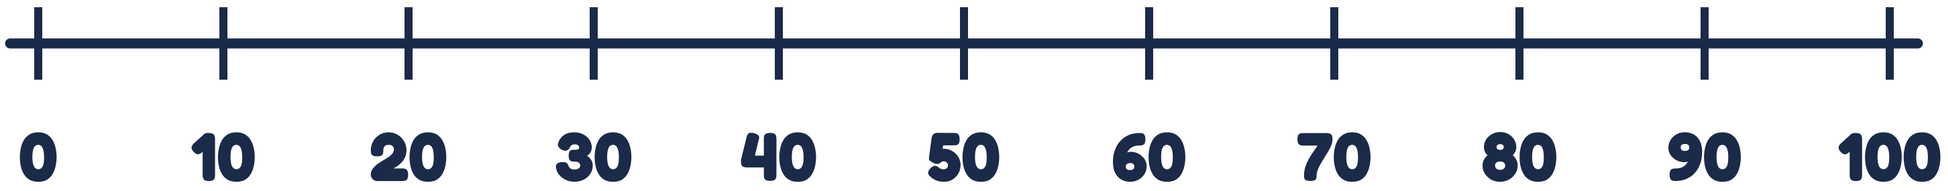

WHAT IF?

What if every card was worth ten? Try the tens cards next.

12–28 MIN

Same line, new job

Find your tens cards. Put 0, 10, 20 up to 100 in a row.

There is no card for 47. Where does it live?

12–28 MIN

Show me with the names

I say the name. Put your frog where the number lives.

twenty-six | **sixteen** | **sixty** | **eighty-one**

TEEN OR TY?

Teen means ten and some more.

Ty means tens.

What did we notice?

12–28 MIN

- Which numbers sit on a card?
- Where do the other numbers live?
- Teen or ty: which is further along the line?

28–38 MIN

Say it, read it

Digits	The name
13	thirteen: ten and 3 more
30	thirty: 3 tens
14	fourteen: ten and 4 more
40	forty: 4 tens (no u)
24	twenty-four: 2 tens and 4 more
100	one hundred: ten tens

28–38 MIN

One before, one after

After 59 the ones are used up. A new ten begins: 60.

28–38 MIN

Your turn: write the number

Write on your paper. Timer: 1 minute

ONE AFTER	ONE BEFORE	THE NAME
39	50	forty-eight

28–38 MIN

Check: write the number

ONE AFTER 39

The next ten starts.

40

ONE BEFORE 50

Count back one.

49

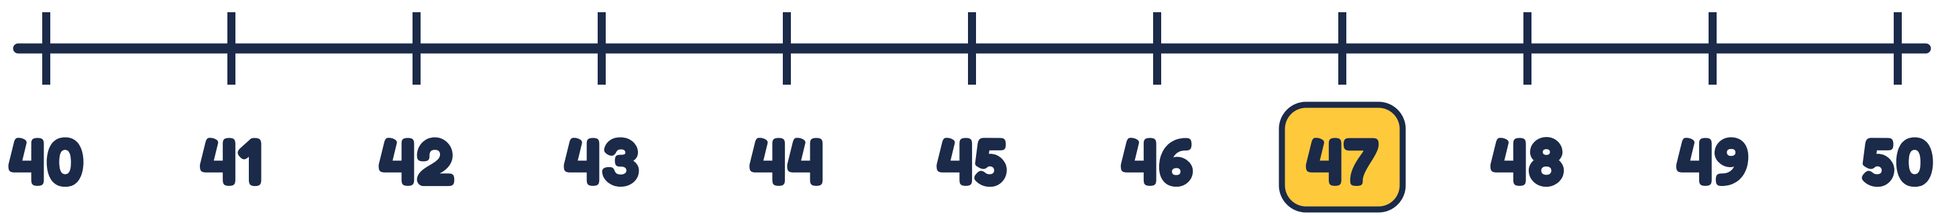

forty-eight

Tens first.

48

28–38 MIN

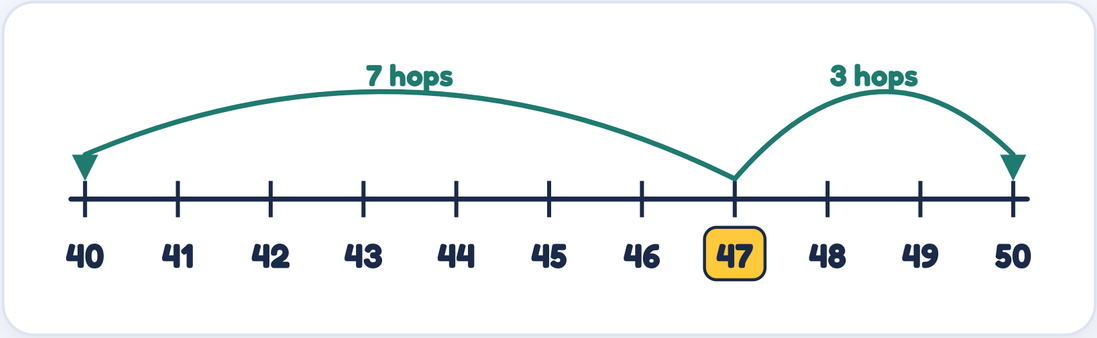

Zoom in between two tens

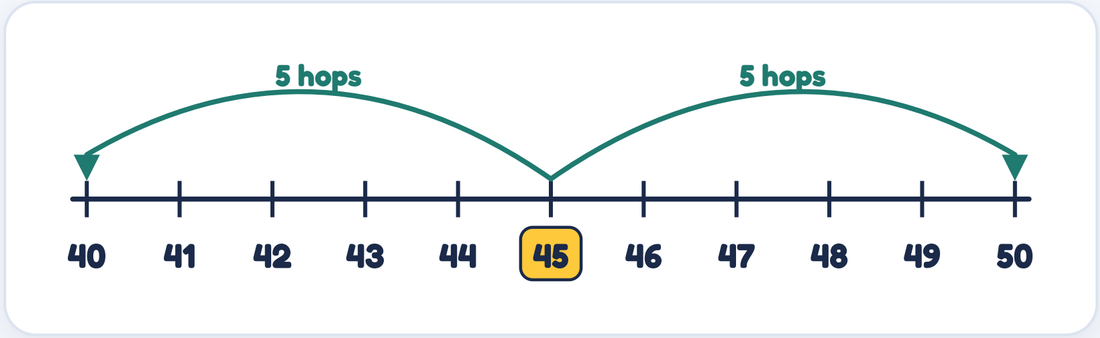

47 lives between 40 and 50. It is 7 hops after 40.

28–38 MIN

Which ten is nearer?

Nearer to 50.

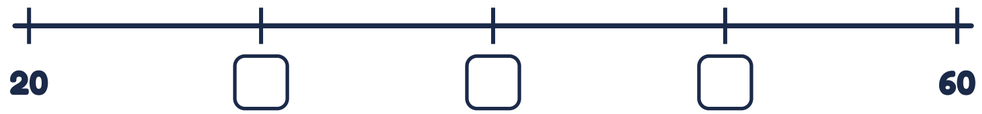

Halfway. No ten is nearer.

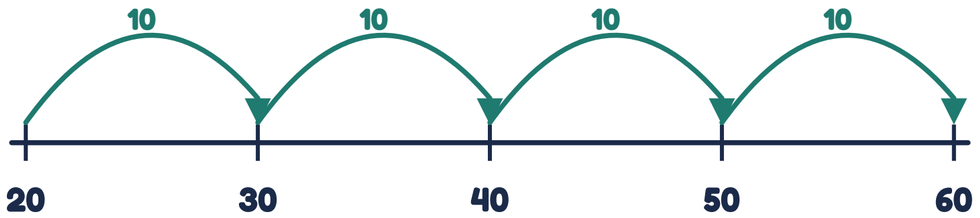

Count the hops each way. The smaller number of hops wins.

28–38 MIN

Marks that are missing

Equal jumps. Count the jumps first.

4 jumps. 20 to 60 is 40. 40 shared by 4 is 10 each.

38–42 MIN

Be the number line

Arms wide. Left hand is 0. Right hand is 100.

I CALL

50, 10, 90, 25, 75

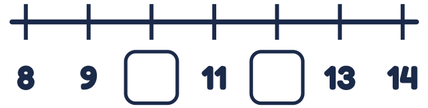

Point to where each number lives. Sip some water.

42–70 MIN

Workbook page 1: Start here

Questions 1 to 3. Timer: 9 minutes

S1 Write the missing numbers on the number line.

S2 Write the missing numbers.

S3 Write the number one before and the number one after.

Check page 1

42–70 MIN

S1	10 and 12
S2	29; 39 and 41; 70
S3	34 and 36; 59 and 61; 78 and 80

42–70 MIN

Workbook page 2: Start here

Questions 4 to 8. Timer: 11 minutes

S4 Read the number word. Write the number.

S5 Copy the number word. Word bank: twenty, forty, sixty.

S6 This number line counts in tens. Write the missing numbers.

S7 Which two tens is each number between?

S8 Siti wrote 57, 58, 59, 510, 511. What should come after 59? Say what she mixed up.

Check page 2

42–70 MIN

S4	15, 50, 24
S5	twenty, forty
S6	30, 50 and 80
S7	20 and 30; 60 and 70
S8	60. After 9 the ones are used up, so a new ten begins. Siti kept counting ones.

42–70 MIN

Choose your next page

Page	What it is
Think harder (page 3)	Our idea in a new setting
Go further (page 4)	Bigger puzzles
Investigation (page 5)	Always, sometimes or never?
Check	Finish and check your own work

Everyone may choose. You can swap at any time.

Talk and explain

70–76 MIN

RAVI SAYS

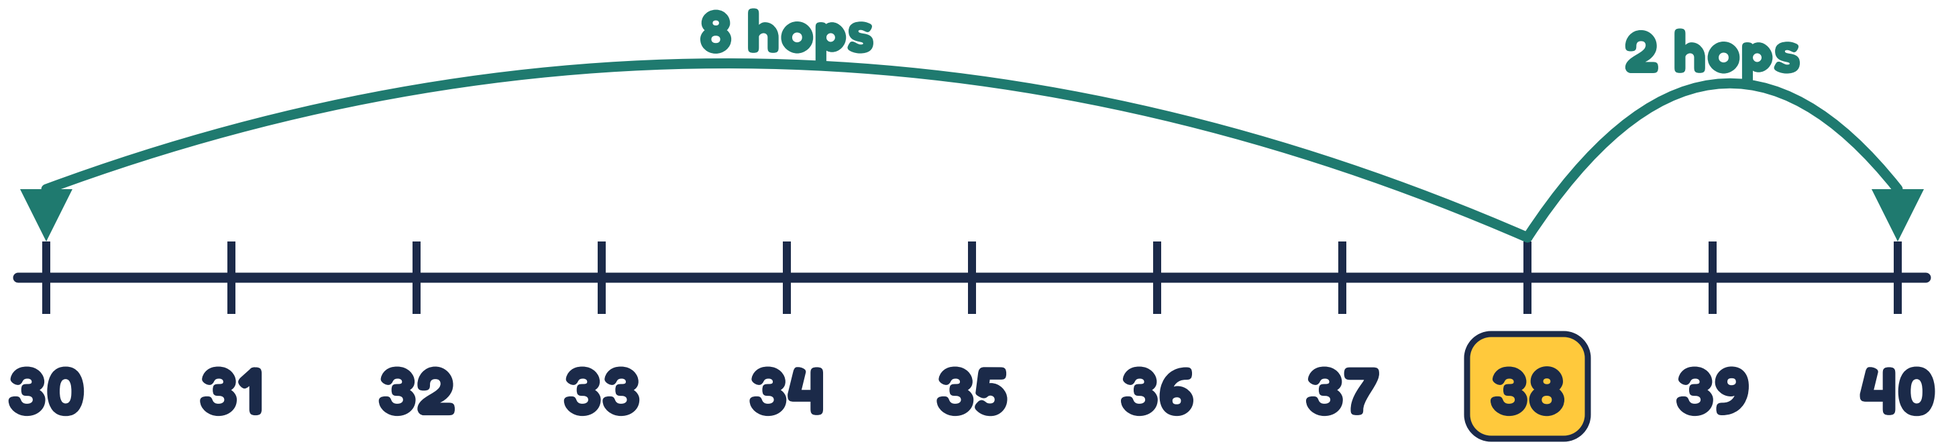

Fourteen and forty are the same number, because they sound nearly the same.

Do you agree? Use your number line to explain.

I think … because …

70–76 MIN

Back to the sneak-peek

The frog on 38 is nearer to 40: 2 hops, not 8.

76–82 MIN

Exit ticket

On your own. No looking back. Timer: 3 minutes

E1 Read the number word. Write the number.

E2 Which two tens is 76 between?

E3 The frog is on 99. It hops one number forward. Write where it lands.

Check the exit ticket

76–82 MIN

E1	73
E2	70 and 80
E3	100

Look-back

82–85 MIN

Three minutes. There are no right answers. You can pass. Nobody reads it out.

Something I did well	write or draw one thing
The hardest part was …	☐ saying the number words ☐ teen and ty (13 and 30) ☐ after 9 comes a new ten ☐ which ten is nearer ☐ something else
What helped me	☐ my number line ☐ hopping the frog ☐ drawing it ☐ trying again ☐ I asked for help
Next time I will try	☐ drawing it ☐ using objects ☐ checking my answer ☐ asking a question
	☐ I am still stuck (my tutor will come and help) ☐ I would like to pass

Take your time. You can pass.

85–90 MIN

Well done, inquirers!

Show a grown-up your number line and one thing you found out.

NEXT LESSON

Digit Cards

You need a pencil and paper. Keep your number line.

OPTIONAL

Go further: halfway

Halfway between 0 and 100 is 50.

What is halfway between 0 and 50? How do you know?

OPTIONAL

If we have time: pick one

Activity	What we do
Is it always true?	One after a number: does only the ones digit change?
Make a puzzle	Write a mystery number puzzle for your grown-up
Teach it back	Show which ten 63 is nearer to, using hops

Optional. Everyone may join.
