Digit Cards: practice at home

Name _____ Date _____

About 15 minutes, a few days after the lesson. Use your digit cards or draw bars and squares. Go further (question 5) is optional. Small things stay on the table, away from mouths and little brothers and sisters. A grown-up may read the questions aloud. Wrong answers are fine: they show what to try next. The answers are on a separate sheet, so they never print on the back of this one.

No.1

Start here

You have the digit cards 4 and 7. Write the two numbers you can make. Circle the greater number.

No.2

Start here

Arrange these in order. Begin with the smallest number: 72, 27, 70, 17.

No.3

Start here

Ben says 38 is greater than 41. Is Ben right? Circle Yes or No. I know because _____.

Yes No

No.4

Think harder

You have the cards 0, 6 and 9. Use two cards each time. The smallest two-digit number is _____. The greatest is _____.

No.5

Go further

At home: make digit cards 1, 2, 3, 4 and 5. How many different two-digit numbers can you make with two different cards? Arrange them in order. Begin with the smallest.
