Math Inquirers

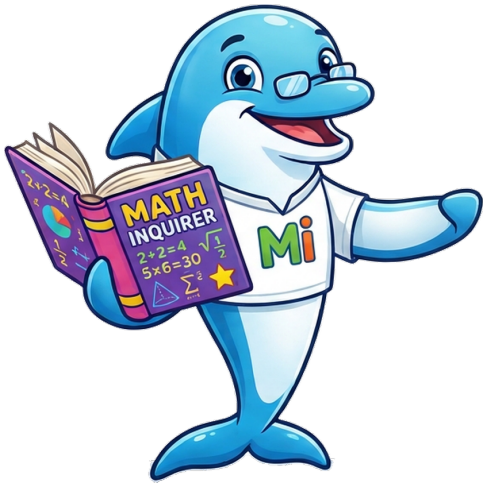

Think. Question. Prove.

Level 1 (ages 6-8) - Term 2

Home Practice Pack

Book 4

Term 2, Lessons 6 to 10

One sheet for each lesson. Tear out a sheet and do it at home.

Contents

Math Inquirers Level 1, Term 2 - Home Practice Pack, Book 4

Lesson 6 **Skip-Count Tables** page 3
Multiplication: Skip-Count Tables

Lesson 7 **Sharing and Grouping** page 5
Division: Sharing And Grouping

Lesson 8 **Times Stories** page 7
Multiplication And Division: Times Stories

Lesson 9 **Picture Equations** page 9
Reasoning About Equality: Picture Equations

Lesson 10 **Find One First** page 11
Division And Money: Find One First

Skip-Count Tables: practice at home

Name _____ Date _____

About 15 minutes, a few days after the lesson. Use your 100 square or count on your fingers. Small things stay on the table, away from mouths and little brothers and sisters. A grown-up may read the questions aloud. Wrong answers are fine: they show what to try next. The answers are on a separate sheet, so they never print on the back of this one.

No.1

Start here

Count in 2s. Fill in the blanks. 2, 4, 6, ☐, 10, ☐☐

No.2

Start here

Count in 5s. Fill in the blanks. 5, ☐☐, 15, ☐☐, 25, ☐☐

No.3

Start here

A bundle has 10 straws. How many straws are in 3 bundles? 3 × 10 = ☐☐

No.4

Think harder

Which numbers up to 20 are in both the 2s and the 5s? Write them. ☐☐ and ☐☐

No.5

Go further

Mei knows that 2 × 7 = 14. What is 4 × 7? ☐☐

Sharing and Grouping: practice at home

Name _____ Date _____

About 15 minutes, a few days after the lesson. Use counters on plates or draw it. Left over means not enough for another group. Small things stay on the table, away from mouths and little brothers and sisters. A grown-up may read the questions aloud. Wrong answers are fine: they show what to try next. The answers are on a separate sheet, so they never print on the back of this one.

No.1

Start here

Siti shares 10 stickers equally among 2 friends. Each friend gets ☐ stickers.

No.2

Start here

Ravi puts 12 pencils into pots. He puts 3 pencils in each pot. Fill in the blanks.

☐ × 3 = 12. Ravi needs ☐ pots.

No.3

Start here

Amelia puts 15 apples into boxes of 5 apples. Circle Share or Group.

Share Group

No.4

Think harder

Jason has 13 counters. He puts them into groups of 4. He makes ☐ groups and has ☐ counters left over.

No.5

Go further

Ben has 18 stickers. He gives 6 stickers away. He shares the rest equally among 4 friends. Each friend gets ☐ stickers.

Times Stories: practice at home

Name _____ Date _____

About 15 minutes, a few days after the lesson. Use cups and counters or draw the strip. Small things stay on the table, away from mouths and little brothers and sisters. A grown-up may read the questions aloud. Wrong answers are fine: they show what to try next. The answers are on a separate sheet, so they never print on the back of this one.

No.1

Start here

Siti has 4 bags. Each bag has 2 sweets. Fill in the blanks. ☐ × ☐ = ☐☐.

Siti has ☐☐ sweets in all.

No.2

Start here

Ali has 3 boxes with 4 pens in each box and 5 loose pens. He has ☐☐ pens in all.

No.3

Start here

Mei has 4 bags with 4 stickers in each bag. She gives 3 stickers away. Mei has ☐☐ stickers left.

No.4

Think harder

Wei has 9 marbles. Ravi has twice as many marbles as Wei. They have ☐☐ marbles together.

No.5

Go further

Mei has 4 stickers. Ali has 3 times as many stickers as Mei. Ben has 5 more stickers than Ali. Ben has ☐☐ stickers.

Picture Equations: practice at home

Name _____ Date _____

About 15 minutes, a few days after the lesson. Use counters and a cup. Small things stay on the table, away from mouths and little brothers and sisters. A grown-up may read the questions aloud. Wrong answers are fine: they show what to try next. The answers are on a separate sheet, so they never print on the back of this one.

No.1

Start here

Each shape is a number. The star + the star = 8. Find the number for the star.

_ _ _ _ _ _ _

No.2

Start here

A cup hides some counters. The cup and 5 loose counters make 14 counters in all. How many counters are in the cup? _ _ _ _ _ _ _

No.3

Start here

The heart is 4. What is the heart + the heart + the heart? _ _ _ _ _ _ _

No.4

Think harder

Line 1: the circle + the circle + the triangle = 15. Line 2: the circle + the triangle = 9. Find the number for the triangle. _ _ _ _ _ _ _

No.5

Go further

Line 1: the circle × the circle = 16. Line 2: the heart + the circle = 9. (× means groups of.) Find the number for the heart. _ _ _ _ _ _ _

Find One First: practice at home

Name _____ Date _____

About 15 minutes, a few days after the lesson. Use tokens or counters. Small things stay on the table, away from mouths and little brothers and sisters. A grown-up may read the questions aloud. Wrong answers are fine: they show what to try next. The answers are on a separate sheet, so they never print on the back of this one.

No.1

Start here

5 pens cost $10. How much does 1 pen cost? $_____

No.2

Start here

Each cup costs $3. Fill in the blanks. 6 × 3 = _____. 6 cups cost $_____ (× means groups of)

No.3

Start here

4 rubbers cost $12. How much do 2 rubbers cost? $_____

No.4

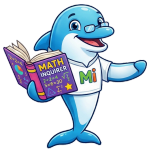

Think harder

A dozen eggs cost $36. How much do 4 eggs cost? $_____

No.5

Go further

3 mugs cost $12. 2 plates cost $10. Siti buys 1 mug and 1 plate. How much does Siti pay? $_____

LEVEL 1 • TERM 2 • FOR GROWN-UPS

Mi's Challenge Quest: a note for grown-ups

In the last lesson of the term we play Mi's Challenge Quest. Mi the dolphin swims to the Pearl Cave and meets 8 gates, each with a short puzzle, plus an optional secret cave. It takes about 20 minutes, straight after the break. Your child works on private paper with you (or a brother or sister) as quest partner. It is a game: nothing is added up, there is no league table and nobody is compared with anyone else. It helps us see what each child enjoyed and what to practise next. Term 2 goes beyond the school Primary 1 syllabus on purpose (odd and even numbers, the 3 and 4 tables, and stories about groups), so a few gates may be new.

Before the lesson

- We send you this note and a loose copy of the Quest Log a week before. The Quest Log is also printed on the last pages of the Term 2 workbook book (Book 4); if you use the book, keep it closed until the tutor says to open it. If you print the loose copy, print it at 100% (actual size, not fit to page). It has 3 pages. No printer? Tell us a week before and we will find another way.
- Keep the Quest Log folded or in an envelope until the tutor says to open it.
- Have a pencil, a rubber and a quiet table. Counters and fingers are fine.

During the quest

- Be the quest partner: sit beside your child. You may talk about how to start and ask 'how do you know?', but please do not give answers or hints.
- Skipping a gate is fine; Mi swims round it. If your child is upset, you may stop at any time.
- The paper stays flat on the table. Cameras may be on or off.

After the lesson: sending the Quest Log privately

- The same day, take ONE clear photo of each of the 3 pages: page flat, straight from above, the whole page in view. Make sure your child's name is on each page.
- Send the photos to the program's business WhatsApp, +65 9880 5962. Please send them to this number only: not to a tutor's own phone, not to the class chat, and never through a child.
- We use the photos only to write one line about your child. WhatsApp is a messaging service run by another company. We keep the photos for 90 days after the program ends, then delete them, as our privacy notice says.

What you get back. Within a few days we send you ONE line, written from our private notes, about what we saw your child do in the quest, with a small next step if it helps. It only describes what your child did, and it never compares children. If you would rather not play the quest, tell us: that is fine.
For example: In Mi's Challenge Quest, Mei drew a strip to find how many more marbles one child had.

Missed the lesson or need another time? The quest is not on the recording, but your child can play it at the make-up slot, before watching the recording.

Your child's paper, photos and note are treated as private: we never show them to other children or families, and we never compare children. Math Inquirers by Preciouslyours Pte Ltd.
