LESSON 10 • TERM 4 • LEVEL 1

Inquirers' Showcase

Teach what you found

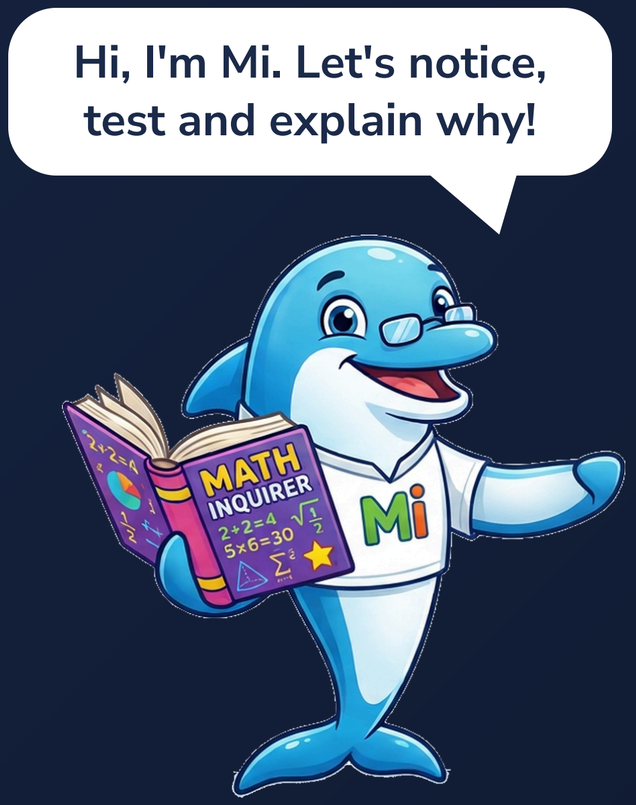

TODAY WE WILL

Teach one idea from the year.

Write and check a puzzle.

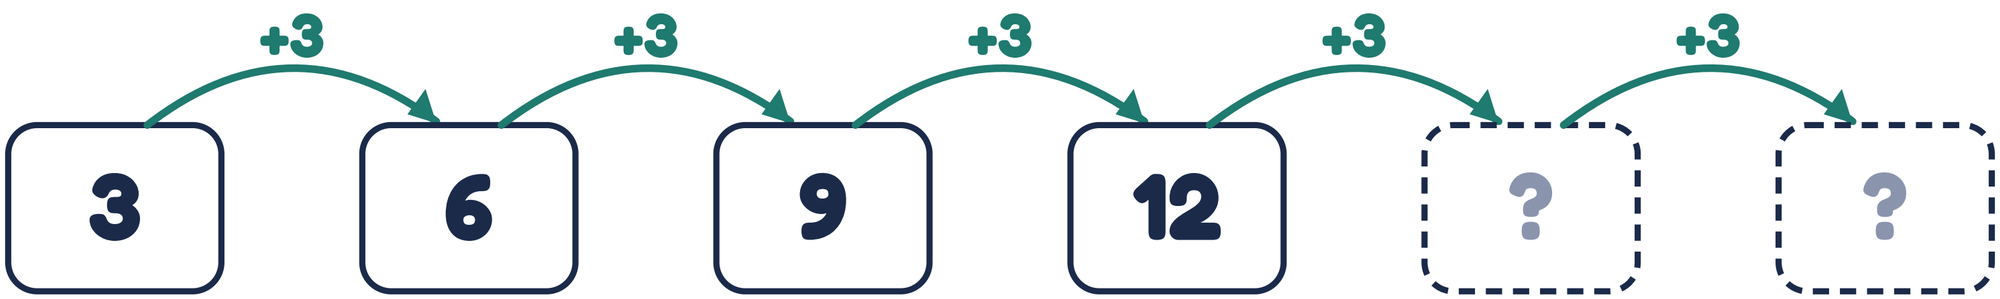

Play Mi's Challenge Quest.

I remember: a pattern

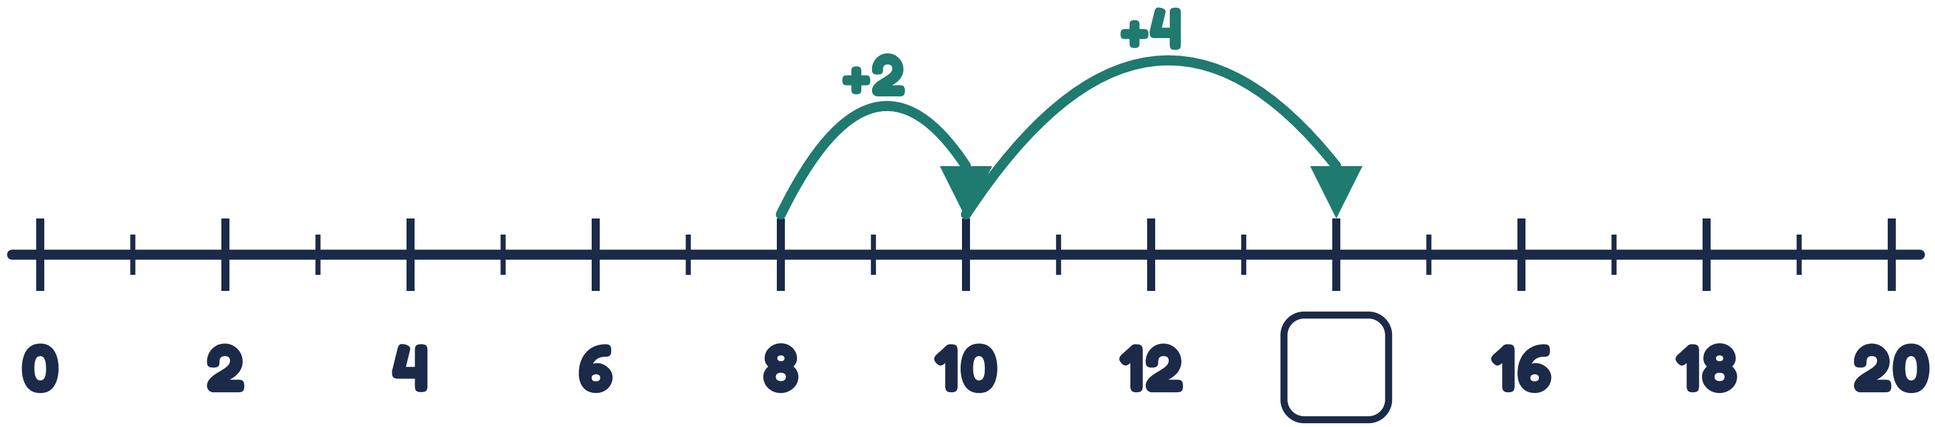

2–8 MIN

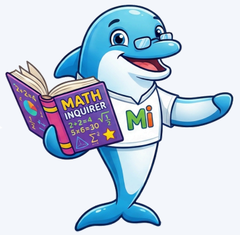

Count in 3s. What are the next two numbers?

I remember: a way to add

2–8 MIN

Make a ten first. What is 8 + 6?

Take your time!

I remember: a story

2–8 MIN

A STORY WITH TWO STEPS

Mei has 7 stickers.

She gets 5 more stickers.

Then she gives 4 stickers away.

How many stickers does Mei have now?

Sneak-peek puzzles

8–12 MIN

Ideas we have not learnt yet. A guess is a great start. Your paper is not collected.

PUZZLE 1: anyone can try

Ali has 6 pens.

Mei has 4 pens.

Write a question for this puzzle.

PUZZLE 2: think

Write a number bigger than 3 and smaller than 8.

Is this a good puzzle? Circle Yes or No.

I know because ___.

Explore: which puzzle is good?

12–22 MIN

Puzzle	What it says
A	Ali has 8 pens and Mei has 5 pens.
B	Think of an even number between 1 and 20.
C	Ravi has 7 pencils. Jamie has 2 more pencils than Ravi. How many pencils does Jamie have?

Which puzzle is a good puzzle? What is wrong with the others?

A good puzzle

12–22 MIN

A has no question. B has many answers. C is good: a story, numbers, one question and one answer.

Explore: write your own puzzle

12–22 MIN

1. Pick two numbers up to 20.
2. Write a short story with a name.
3. Write one question.
4. Solve it.
5. Check it a second way.

Use your own paper. Then tell your quest partner your puzzle.

What did we notice?

12–22 MIN

- What does a good puzzle need?
- Why do we check a puzzle a second way?

Teach it in one minute

22–31 MIN

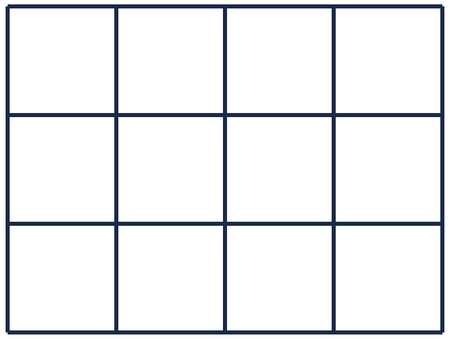

MY IDEA

My favourite idea is counting by rows.

It works like this: count one row, then count on by rows.

Here is an example: 3 rows of 4 squares. 4, 8, 12.

Check: 3 rows of 4 is 4 + 4 + 4 = 12.

A puzzle with a rule

22–31 MIN

MI'S PUZZLE

Two numbers add up to 9.

One number is 3 more than the other.

What are the two numbers?

List every pair that makes 9. Then find the pair that fits.

Only one pair fits

22–31 MIN

First	Second	Difference
0	9	9
1	8	7
2	7	5
3	6	3
4	5	1

Only 3 and 6 differ by 3. The answer is 3 and 6, and no other pair works.

Check a friend's puzzle

22–31 MIN

A CHILD IN ANOTHER CLASS WROTE

Two numbers add up to 8.

One number is 2 more than the other.

The numbers are 6 and 2.

Is the puzzle right? How do you know?

The second clue does not fit

22–31 MIN

No. 6 + 2 = 8, but 6 is 4 more than 2, not 2 more. The numbers that fit are 5 and 3.

22–31 MIN

Before you share a puzzle

1. It has a story, numbers and one question.
2. It has exactly one answer.
3. You checked it a second way.
4. It is your own puzzle: not copied.

31–35 MIN

A year in moves

Stand up. Make a quarter turn.

Count in 3s and clap each time.

Sip some water.

Mi's Challenge Quest

Your own paper. Mi swims with you.

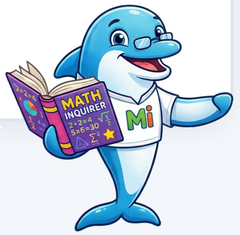

1. Open your Quest Log. Name on page 1.
2. Pencil ready. Counters are fine.
3. Your quest partner sits beside you.
4. I read each gate. Then you write.
5. You may skip a gate. It is not a race.

AFTER

A grown-up takes a photo of each page and sends it to the program's business WhatsApp.

Nothing is shown to the group.

Let's swim home to the reef!

The Home Reef

1. Make sure your name is on every page.
2. Close the Quest Log. Put your pencil down.
3. A grown-up takes one photo of each page, flat and from above.
4. A grown-up sends the photos to the program's business WhatsApp number in the grown-up note, and nowhere else.

OUR YEAR

Term 1: tens and ones, adding and patterns.

Term 2: strips, groups, sharing and finding one.

Term 3: time, money, tables and checking.

Term 4: shapes, grids, counting, graphs and tools.

Workbook page 1: Start here

55–70 MIN

Questions 1 to 3. Take your time.

S1 Look back at your year books. Choose a favourite page, picture or puzzle. Many answers are right.

S2 Tick one idea in each row. Nobody sees your ticks except your grown-up and your tutor.

S3 Which one is a clear puzzle? Write its number in the brackets.

Check page 1

55–70 MIN

S1	Many answers are right
S2	Many answers are right
S3	(2)

Workbook page 2: Start here

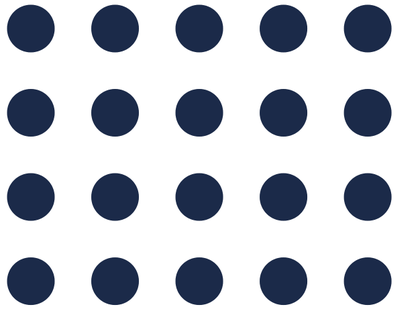

55–70 MIN

Questions 4 to 6. Take your time.

S4 A child in another class wrote a puzzle and an answer. Siti has 9 stickers. Ravi has 4 more stickers than Siti. How many stickers does Ravi have? The child says 5.

S5 Mi makes a ten first to add 9 + 7. Fill in the blanks.

S6 Count by rows. Look at the dots.

Check page 2

55–70 MIN

S4	Wrong; 13 stickers
S5	1; 6; 16
S6	4 rows; 20 dots

55–70 MIN

Pages 3 to 5 are for home

Page	What it is
Think harder (page 3)	Write a puzzle, swap it, and find the puzzle with one answer
Go further (page 4)	Puzzle With a Proof, a friend's puzzle, your own proof
Investigation (page 5)	Teach it in a minute

Everyone may try them at home. Nothing is collected.

Back to the sneak-peek

70–84 MIN

Puzzle 1: many questions are right, for example How many pens in all? Puzzle 2: No. The numbers 4, 5, 6 and 7 all fit. A good puzzle has one answer.

Showcase

70–84 MIN

TEACH US IN ABOUT A MINUTE

My favourite idea is ___.

It works like this: ___.

Here is an example: ___.

Volunteers only. A pass is always fine.

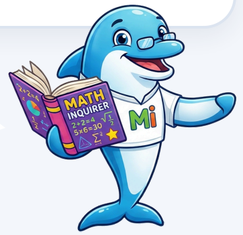

Look-back

84–86 MIN

Three minutes. There are no right answers. You can pass. Nobody reads it out.

Something I did well	write or draw one thing
The hardest part was …	☐ writing a puzzle ☐ checking a puzzle ☐ Mi's Challenge Quest ☐ something else
What helped me	☐ my quest partner ☐ drawing it ☐ checking a second way ☐ I was not stuck
Next time I will try	☐ writing a puzzle ☐ checking a second way ☐ teaching an idea ☐ asking a question
	☐ I am still stuck (my grown-up will photograph this page for my tutor) ☐ I would like to pass

Take your time. You can pass.

86–90 MIN

Well done, inquirers!

Show a grown-up your favourite page. Say why you like it.

WHAT NEXT

The first lesson of Level 2 or the holiday program.

Your tutor will tell you which one, and the start date.

Go further: one answer?

OPTIONAL

Write a puzzle whose answer is 12 and that has exactly one answer.

OPTIONAL

If we have time: pick one

Activity	What we do
Is it always true?	Does every puzzle with one answer have a check? Try one.
Make a puzzle	Write a puzzle for your grown-up and check it a second way.
Teach it back	Teach a toy your favourite idea from the year.

Optional. Everyone may join.

Exit ticket (optional)

OPTIONAL

On your own. No looking back.

E1 **Mei thinks of a number. She takes away 5 and gets 9.**
Mei's number is ☐ .

E2 **Which puzzle has exactly one answer? Write its number in the bracket.**

E3 **A child in another class says 7 + 8 = 16.**
Circle Right or Wrong.

Check the exit ticket

OPTIONAL

E1	14
E2	(2) 11
E3	Wrong
