Teacher answer key: Primary 1

This key lists the answers and the result of the check on every page. You do not need it for routine marking: a pupil who has a working check has the right answers. To spot-check, compare the check strip with the line "Check result" below.

How the topic tags work

Each entry names the Primary 1 topic the puzzle practises, with a reference to the Primary 1 topics in the Mathematics Syllabus, Primary (2021 edition, pages 31 and 32). The references are for your planning only and are not printed on the pupil pages.

Topic coverage

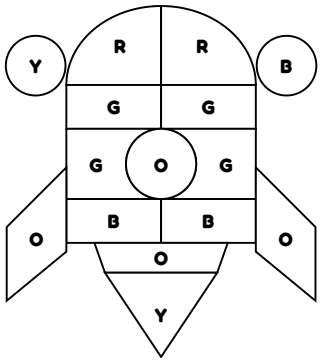

Strand	Pages
Number and Algebra - Whole Numbers	P1-01, P1-02, P1-03, P1-04, P1-05, P1-07, P1-14
Measurement and Geometry - Geometry	P1-06, P1-12, P1-19
Number and Algebra - Addition and Subtraction	P1-08, P1-09, P1-10, P1-11
Number and Algebra - Multiplication and Division	P1-13
Number and Algebra - Money	P1-15, P1-16
Measurement and Geometry - Measurement	P1-17, P1-18
Statistics - Data Analysis	P1-20

Syllabus items not covered by a puzzle: reading and writing numbers in words, number-sentence signs in isolation, measuring and drawing a line to the nearest cm, am and pm, copying figures on a grid, forming figures from shapes.

P1-01 Colour the Rocket 1 star

Topic: Place value: tens and ones

Syllabus topic: Number and Algebra - Whole Numbers; reference 1.1 to 1.3 (count a set, tens and ones)
Puzzle type: Colour by code (pupils colour with their own crayons). How the pupil checks: Colour key and tally: every answer must be on the key, and the number of parts of each colour must match the box.
Answers: Colour key: 1 = yellow, 2 = red, 3 = blue, 4 = green, 5 = orange
Check result: Tally: yellow 2, red 2, blue 3, green 4, orange 4. The two sides of the rocket match: parts that mirror each other have the same colour.

Teacher note: Every part asks a tens-and-ones question, such as how many ones in 25 or 50 + [ ] = 54. The answers are 1 to 5. Pupils colour the black-and-white outline with their own crayons. Check strip: count the parts of each colour; the two sides of the rocket match.

P1-02 Mystery Numbers 2 stars

Topic: Numbers to 100: tens digit, ones digit, more and less

Syllabus topic: Number and Algebra - Whole Numbers; reference 1.1 to 1.5 (numbers to 100, compare)
Puzzle type: Number riddles. How the pupil checks: Code word (5 letters) and testing each clue.
Answers: 1) 66, 2) 85, 3) 36, 4) 56, 5) 26
Check result: Code word: CLOUD
Teacher note: Every riddle has 3 or 4 clues and every clue is needed. A pupil who stops after one clue gets more than one possible number; testing the other clues removes them. Reading ones digit and tens digit correctly is the main skill.

P1-03 Number Cards 1 star

Topic: Ordering numbers to 100 (smallest to greatest)

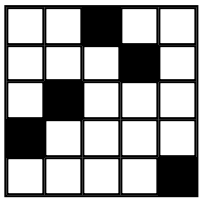

Syllabus topic: Number and Algebra - Whole Numbers; reference 1.4, 1.5 (compare and order numbers)
Puzzle type: Ordering cards. How the pupil checks: Code word from the letters in order (6 letters).
Answers: 22B , 43R , 71I , 78D , 80G , 85E (smallest to greatest)
Check result: Word: BRIDGE
Teacher note: Cards are shown out of order and no card is in its right place. Several numbers share a tens digit so pupils must compare ones digits. Swapping any two neighbouring cards breaks the word.

© 2026 Preciouslyours Pte Ltd. Teacher key. Photocopy licence: _____ (school name) only. Not for resale. **KEY**

P1-04 Sticker Grid 2 stars

Topic: Comparing numbers to 100 (more, fewer, greatest, smallest)

Syllabus topic: Number and Algebra - Whole Numbers; reference 1.4, 1.5 (compare and order numbers)
Puzzle type: Logic grid. How the pupil checks: Letters beside the numbers, read down the list, spell a word (5 letters).
Answers: Ali: 63 (H), Mei: 78 (O), Siti: 23 (U), Ben: 12 (S), Kumar: 99 (E)
Check result: Letters down the list: HOUSE

Teacher note: Five children, five numbers, and each number has a letter. A wrong placement puts the letters in the wrong order, so the word does not appear. The page shows a worked example of crosses and ticks. Clues use more than, fewer than, greatest, smallest, second greatest.

P1-05 Missing Numbers 1 star

Topic: Number patterns: count on and count back

Syllabus topic: Number and Algebra - Whole Numbers; reference 1.6 (number patterns)
Puzzle type: Pattern chain + code. How the pupil checks: Code word (6 letters).
Answers: 1) 40, 2) 15, 3) 42, 4) 30, 5) 29, 6) 11
Check result: Code word: FLOWER
Teacher note: Rules used: count on or back by 1, 2, 3, 5, 10 within 100. The rule is never printed; pupils find it from the numbers given.

P1-06 Shape Riddles 2 stars

Topic: 2D shapes: name and describe (straight and curved sides)

Syllabus topic: Measurement and Geometry - Geometry; reference Geometry 1.1 (identify, name, describe and classify 2D shapes)
Puzzle type: Riddles + code-breaker. How the pupil checks: Letters of the six shapes, in riddle order, spell a word (6 letters).
Answers: 1) square (J), 2) half circle (A), 3) triangle (C), 4) quarter circle (K), 5) circle (E), 6) rectangle (T)
Check result: Word: JACKET
Teacher note: Pupils match each description to a shape picture. Each description has two parts, and both are needed to tell similar shapes apart (for example square and rectangle, half circle and quarter circle). The shapes are turned so pupils read the shape, not its position.

P1-07 The Queue 2 stars

Topic: Ordinal numbers: 1st to 5th, before and behind

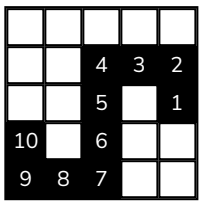

Syllabus topic: Number and Algebra - Whole Numbers; reference 1.7 (ordinal numbers first to tenth)
Puzzle type: Logic (queue). How the pupil checks: Shirt letters read from 1st to 5th spell a word (5 letters).
Answers: 1st Jenny, 2nd Aisha, 3rd Ali, 4th Ravi, 5th Lily
Check result: Word: TIGER
Teacher note: The children in the top row are not in queue order. Clues use ordinal numbers, in front of, behind and next to. Syllabus ordinals go to 10th; this page uses 1st to 5th.

© 2026 Preciouslyours Pte Ltd. Teacher key. Photocopy licence: _____ (school name) only. Not for resale.

P1-08 Make Twelve 1 star

Topic: Addition within 20

Syllabus topic: Number and Algebra - Addition and Subtraction; reference 2.1 to 2.7 (add within 20, mental calculation)
Puzzle type: Maze / path. How the pupil checks: Route: the line must reach FINISH through the right number of boxes, every box making 12.
Answers: Route (row, column from top-left): (3,5) 8+4 -> (2,5) 4+8 -> (2,4) 5+7 -> (2,3) 4+8 -> (3,3) 8+4 -> (4,3) 5+7 -> (5,3) 7+5 -> (5,2) 5+7 -> (5,1) 8+4 -> (4,1) 6+6
Check result: Route reaches FINISH through 10 boxes; every box on it adds to 12.

Teacher note: All sums are within 20. Boxes off the route make 8, 10, 11, 13, 14, 16 and a slip in adding sends the pupil there. 3 extra boxes that do make 12 are dead ends. Counting the boxes shows a line that takes a shortcut.

P1-09 Magic Square 2 stars

Topic: Adding three 1-digit numbers

Syllabus topic: Number and Algebra - Addition and Subtraction; reference 2.1 to 2.7 (adding more than two 1-digit numbers)
Puzzle type: Magic square. How the pupil checks: All eight line totals make 15.
Answers: Rows: 4 9 2 / 3 5 7 / 8 1 6
Check result: All 8 totals = 15

4	**9**	**2**
3	**5**	**7**
8	**1**	**6**

Teacher note: Only three numbers are given. The solver shows the other six are forced. The sum boxes let a pupil see which line is wrong. Each number 1 to 9 must be used once.

P1-10 Take Away Code 1 star

Topic: Subtraction within 20; missing numbers

Syllabus topic: Number and Algebra - Addition and Subtraction; reference 2.1 to 2.7 (subtract within 20, inverse relationship)
Puzzle type: Code-breaker. How the pupil checks: Code word (6 letters) and putting the number back.
Answers: 1) 8, 2) 5, 3) 11, 4) 6, 5) 4, 6) 3
Check result: Code word: CASTLE
Teacher note: Items 5 and 6 ask for the number taken away. Pupils can check by adding back, which is the inverse idea.

P1-11 Shape Sums 2 stars

Topic: Add and subtract within 20: find the missing number

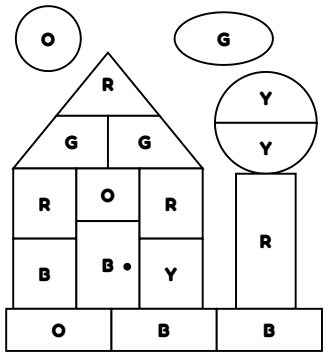

Syllabus topic: Number and Algebra - Addition and Subtraction; reference 2.1 to 2.7 (add, subtract, inverse relationship)
Puzzle type: Balance / picture equations. How the pupil checks: Putting the numbers back in the sums, then a code word (6 letters).
Answers: Set 1: circle=4, square=9, triangle=3; Set 2: star=6, diamond=2, five-sided shape=7
Check result: Code word: SPRING
Teacher note: Each set has three sums and three shapes; the three sums fix all three numbers. All six numbers are different so the code table has one letter per number.

© 2026 Preciouslyours Pte Ltd. Teacher key. Photocopy licence: _____ (school name) only. Not for resale. **KEY**

P1-12 Colour the House 1 star

Topic: Shapes: corners and straight sides

Syllabus topic: Measurement and Geometry - Geometry; reference Geometry 1.1 (identify, name, describe 2D shapes: triangle, square, rectangle, circle)
Puzzle type: Colour by code (pupils colour with their own crayons). How the pupil checks: Colour key and tally: every answer must be on the key, and the number of parts of each colour must match the box.
Answers: Colour key: 3 = yellow, 4 = red, 6 = blue, 7 = green, 8 = orange
Check result: Tally: yellow 3, red 4, blue 4, green 3, orange 3. One colour each: the two sides of the roof; the two windows; both tree top parts. The house has 6 wall and window parts. Exactly 2 are red.

Teacher note: Shapes are triangle, square, rectangle and circle only. A circle has no corners. Pupils colour the black-and-white outline with their own crayons. Check strip: count the parts of each colour; the windows and the roof sides match.

P1-13 Equal Groups 1 star

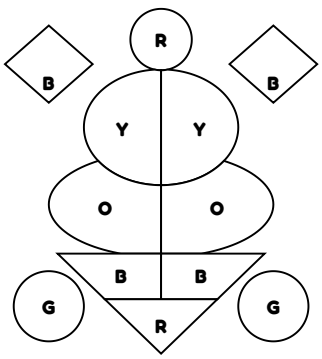

Topic: Multiplication: equal groups

Syllabus topic: Number and Algebra - Multiplication and Division; reference 3.1 to 3.3 (concept of multiplication, sign x, multiplying within 40)
Puzzle type: Code-breaker. How the pupil checks: Code word (6 letters).
Answers: 1) 2 bags of 5 = 10, 2) 5 bags of 5 = 25, 3) 3 bags of 6 = 18, 4) 3 bags of 8 = 24, 5) 2 bags of 8 = 16, 6) 5 bags of 4 = 20
Check result: Code word: PLANET
Teacher note: Pictures of equal groups. Pupils write the number of groups, the number in each group and the total. Totals are within 40.

P1-14 Colour the Ice Cream 2 stars

Topic: Counting in 2s, 5s and 10s

Syllabus topic: Number and Algebra - Whole Numbers; reference 1.6 (number patterns); counting in 2s, 5s and 10s leads to multiplication
Puzzle type: Colour by code (pupils colour with their own crayons). How the pupil checks: Colour key and tally: every answer must be on the key, and the number of parts of each colour must match the box.
Answers: Colour key: 60 = yellow, 65 = red, 70 = blue, 75 = green, 80 = orange
Check result: Tally: yellow 2, red 2, blue 4, green 2, orange 2. The two sides of the ice cream match: parts that mirror each other have the same colour.

Teacher note: Patterns count in 2s, 5s or 10s, forwards or back, and the answers are 60 to 80. Pupils colour the black-and-white outline with their own crayons. Check strip: count the parts of each colour; the two sides match.

© 2026 Preciouslyours Pte Ltd. Teacher key. Photocopy licence: _____ (school name) only. Not for resale.

P1-15 Coin Purses 1 star

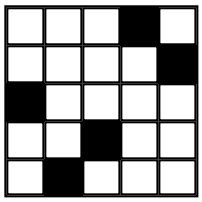

Topic: Money: counting coins in cents (up to $1)

Syllabus topic: Number and Algebra - Money; reference Money (count money in cents up to $1)
Puzzle type: Code-breaker. How the pupil checks: Code word (5 letters).
Answers: 1) 80¢, 2) 60¢, 3) 40¢, 4) 25¢, 5) 95¢
Check result: Code word: PIANO
Teacher note: Coins used: 5¢, 10¢, 20¢, 50¢, drawn by value as printed numbers. Totals stay below $1. Coin sizes grow with value but the number is what matters.

P1-16 Shop Prices 2 stars

Topic: Money: dollars, more and less

Syllabus topic: Number and Algebra - Money; reference Money (dollars up to $100) with 2.1 to 2.7 (add, subtract)
Puzzle type: Logic grid + total. How the pupil checks: Letters beside the prices, then a code letter for the total, spell a word (6 letters).
Answers: pen: $12 (B), book: $15 (A), ball: $5 (S), kite: $8 (K), cup: $7 (E); the ball and the pen cost $17 together (code letter T)
Check result: Letters in order: BASKET

Teacher note: Five items, five prices, each price with a letter. '$3 more than' means a price $3 higher: pupils test each price against it. The last answer is added from the grid and looked up in a small code table, so a wrong grid or a wrong sum changes the word.

P1-17 How Long? 1 star

Topic: Length: measure in centimetres

Syllabus topic: Measurement and Geometry - Measurement; reference Length 1.1 to 1.3 (measure in cm, abbreviation cm)
Puzzle type: Code-breaker. How the pupil checks: Code word (6 letters).
Answers: 1) 4 cm, 2) 5 cm, 3) 10 cm, 4) 2 cm, 5) 8 cm, 6) 6 cm
Check result: Code word: PENCIL
Teacher note: A ruler is drawn under each strip at 10 mm to 1 cm. If the page is copied at a different scale the strip and ruler change together, so the reading from the drawn ruler stays right, but a real ruler laid on the page will not match: print at 100% (actual size) if pupils will use a real ruler. All strips start at 0 and are whole numbers of cm.

P1-18 Clock Time 2 stars

Topic: Time: tell time to 5 minutes; 1 hour and half an hour later

Syllabus topic: Measurement and Geometry - Measurement; reference Time 2.1 to 2.4 (tell time to 5 minutes, durations of 1 hour or half an hour)
Puzzle type: Code-breaker. How the pupil checks: Code word (5 letters).
Answers: 1) shows 8:10, 1 hour later 9:10, 2) shows 1:25, half an hour later 1:55, 3) shows 1:30 (half past 1), 1 hour later 2:30 (half past 2), 4) shows 11:25, half an hour later 11:55, 5) shows 11:00 (11 o'clock), 1 hour later 12:00 (12 o'clock)
Check result: Code word: TIMER
Teacher note: Tell the time to 5 minutes, then add 1 hour or half an hour. This is the two-star step: some half-hour additions cross the hour. The decoy times in the table are the time shown, the wrong hour and the wrong minute, so a misread clock or a missed step gives a letter that does not belong. The hands are never closer than 25 degrees (except at o'clock). a.m. and p.m. are not used on this page.

© 2026 Preciouslyours Pte Ltd. Teacher key. Photocopy licence: _____ (school name) only. Not for resale.

P1-19 Shape Count 1 star

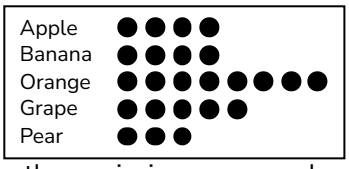

Topic: 2D shapes: rectangle, triangle, circle, half circle, quarter circle

Syllabus topic: Measurement and Geometry - Geometry; reference Geometry 1.1, 1.3 (name 2D shapes; identify the shapes in a figure)
Puzzle type: Count + code-breaker. How the pupil checks: The five counts add to 15, and a code word (5 letters).
Answers: rectangles: 5, triangles: 4, circles: 2, half circles: 1, quarter circles: 3 (total 15)
Check result: Total 15; code word: SHAPE
Teacher note: The picture has no squares so there is no 'is a square a rectangle?' question. Shapes are turned in different directions on purpose. The five counts are all different (1 to 5) so each count gives one letter.

P1-20 Fruit Graph 2 stars

Topic: Picture graphs: read, complete and answer

Syllabus topic: Statistics - Data Analysis; reference Picture graphs (read and interpret picture graphs)
Puzzle type: Graph detective. How the pupil checks: Total of all the circles must equal the stated total (the total is not used to find any row).
Answers: Apple: 4, Banana: 4, Orange: 8, Grape: 5, Pear: 3; a) Orange; b) 5
Check result: Total 24 circles

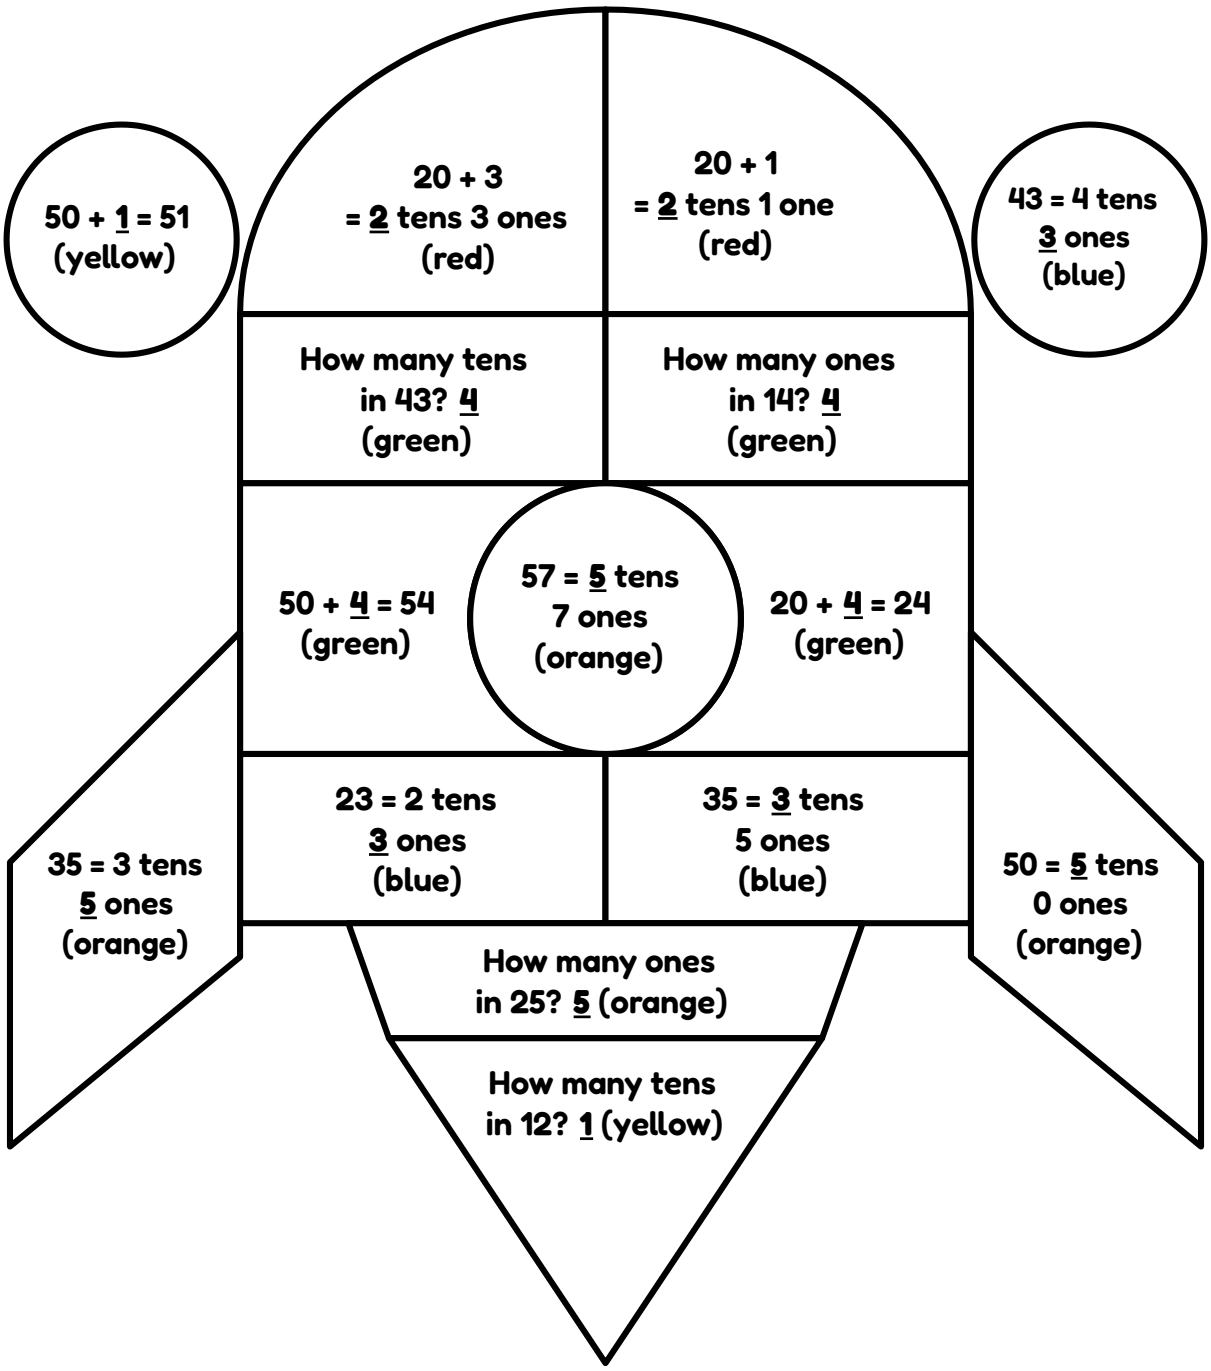

Teacher note: Each circle stands for one child (a scale of 1). The three clues fix the three missing rows one by one. The total of 24 is printed only in the check strip, so it is a separate test: a pupil who misreads a clue or draws one circle too many or too few gets a different total.

© 2026 Preciouslyours Pte Ltd. Teacher key. Photocopy licence: _____ (school name) only. Not for resale. **KEY**

Answers: P1-01 Colour the Rocket

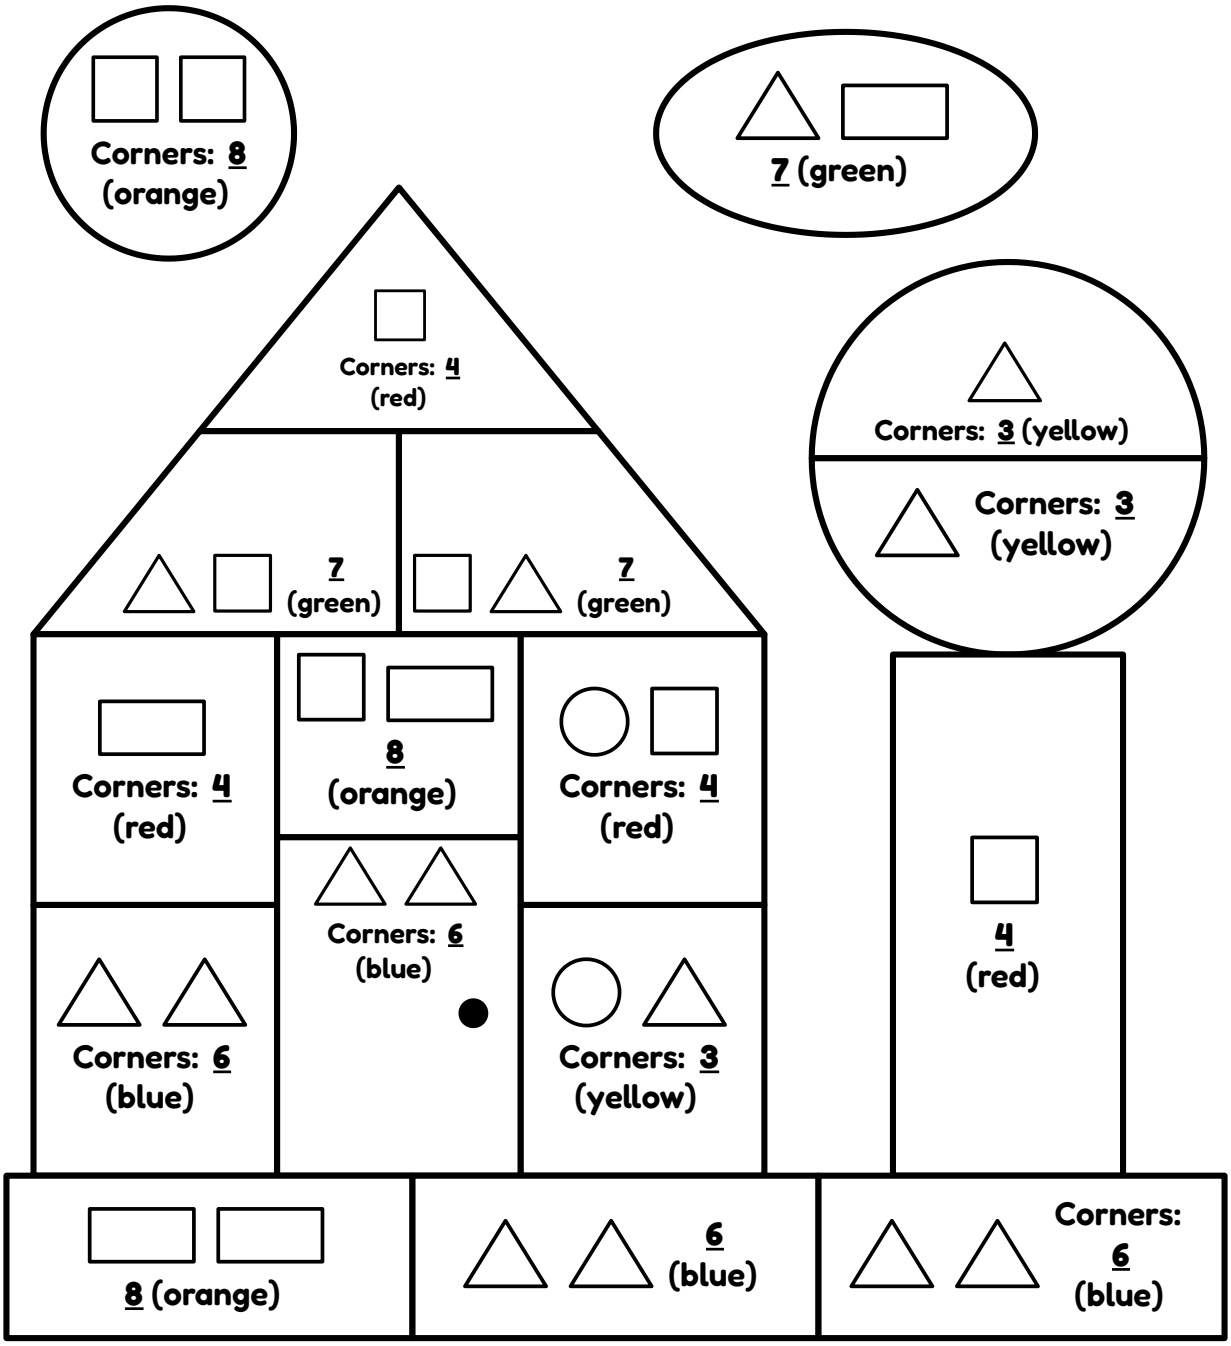

Every part shows the question, the answer underlined and the colour in brackets. Pupils colour their own copy. Colour key: 1 = yellow, 2 = red, 3 = blue, 4 = green, 5 = orange.

© 2026 Preciouslyours Pte Ltd. Teacher key. Photocopy licence: _____ (school name) only. Not for resale. **KEY**

Answers: P1-12 Colour the House

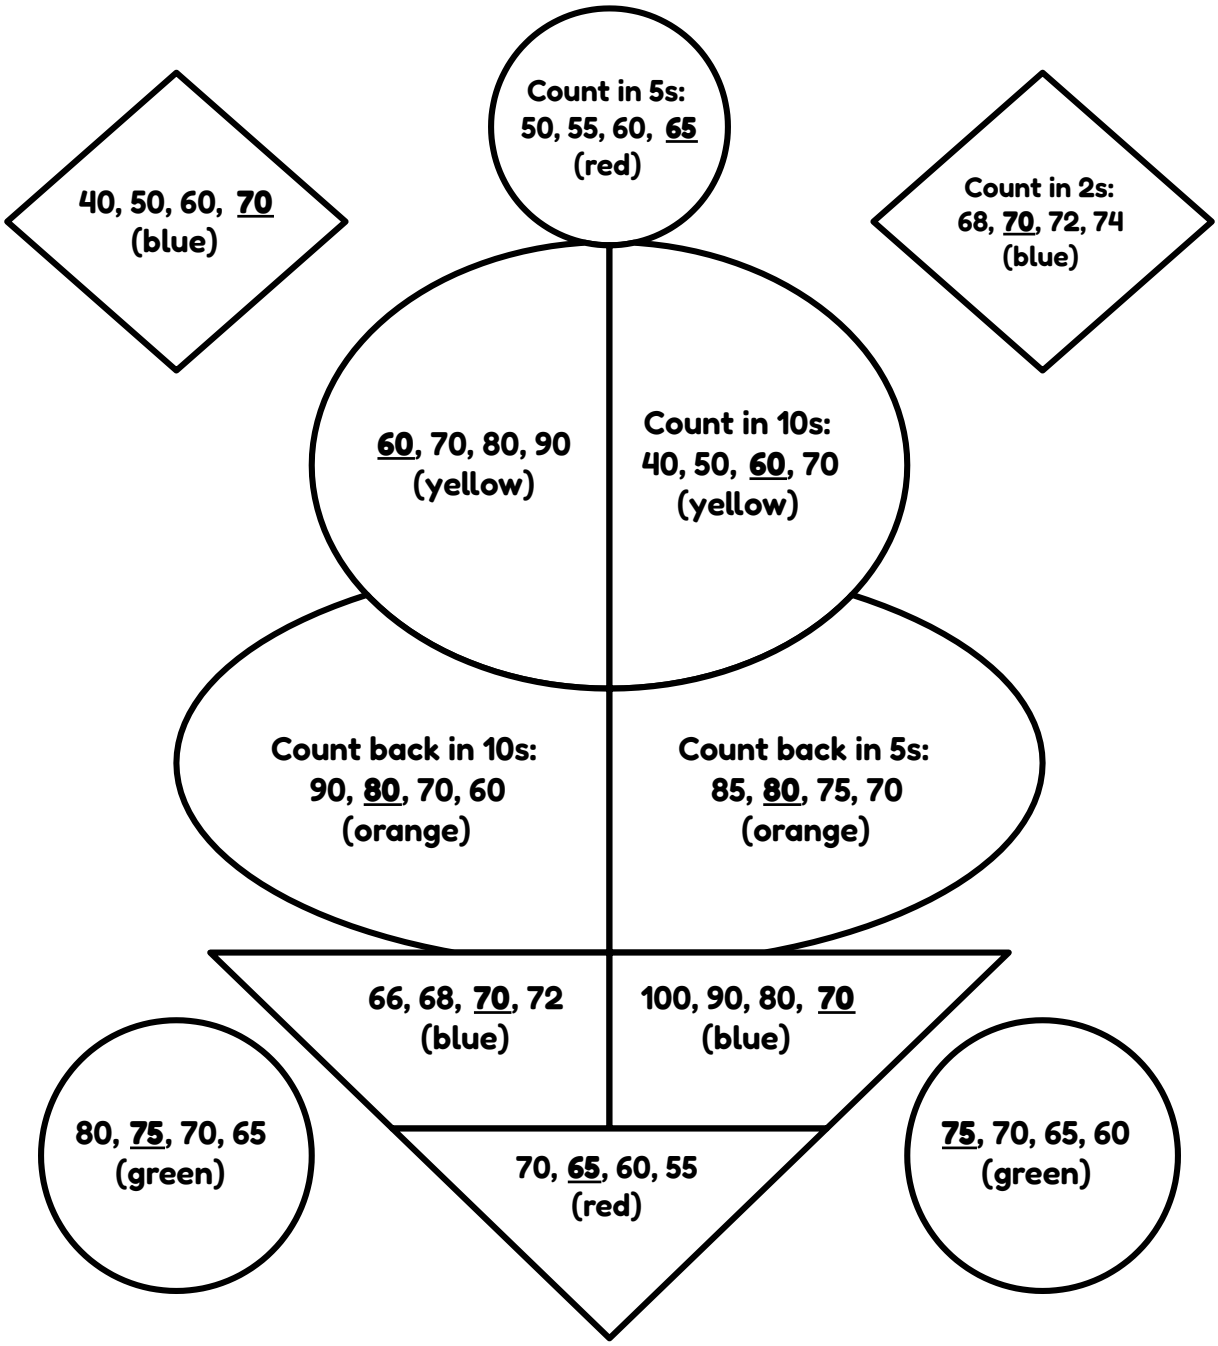

Every part shows the question, the answer underlined and the colour in brackets. Pupils colour their own copy. Colour key: 3 = yellow, 4 = red, 6 = blue, 7 = green, 8 = orange.

© 2026 Preciouslyours Pte Ltd. Teacher key. Photocopy licence: _____ (school name) only. Not for resale. **KEY**

Answers: P1-14 Colour the Ice Cream

Every part shows the question, the answer underlined and the colour in brackets. Pupils colour their own copy. Colour key: 60 = yellow, 65 = red, 70 = blue, 75 = green, 80 = orange.

© 2026 Preciouslyours Pte Ltd. Teacher key. Photocopy licence: _____ (school name) only. Not for resale. **KEY**
