( )

No.E3

Ali has a $10 note, two $2 notes and one $1 coin. How much money does he have?

He has $_____.

Look-back There are no right answers. You can pass. Nobody reads it out.

Something I did well: _____

The hardest part was ... ☐ counting coins ☐ change ☐ different ways ☐ something else

What helped me: ☐ my play money ☐ counting the biggest first ☐ checking my answer ☐ I was not stuck

Next time I will try: ☐ using my play money ☐ counting up on a line ☐ checking my answer ☐ asking a question

☐ I am still stuck (my grown-up will photograph this page for my tutor)

☐ I would like to pass

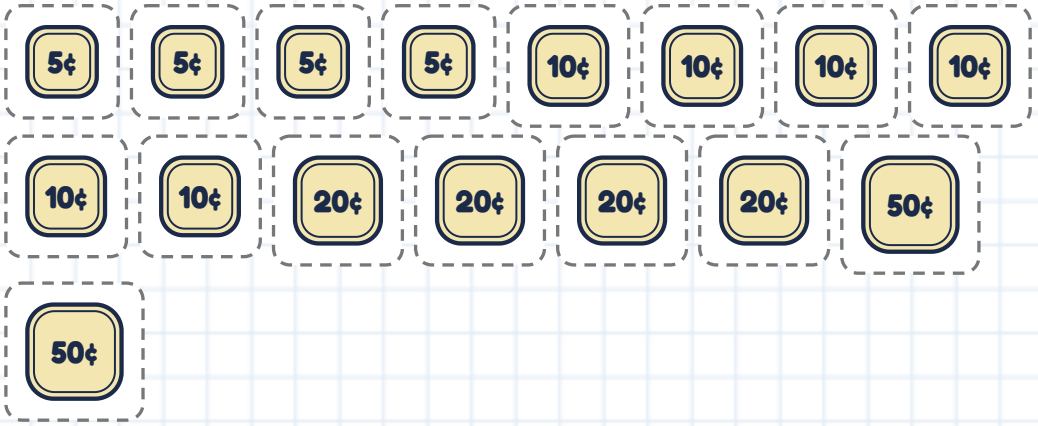

Name _____ Date _____

Kit page: play money, coins

A grown-up cuts out all 16 coins before the lesson: 4 five-cent, 6 ten-cent, 4 twenty-cent and 2 fifty-cent coins. This is play money, not real money. The $1 coins are the tokens from Term 2 Lesson 10. Keep all the money in an envelope: we use it in the next two lessons and in the Quest.

Print this page on its own sheet, or on one side only, so cutting never spoils another page. A grown-up cuts; children do not use scissors. Keep the pieces in an envelope with your name. We use them again.

Play money: a grown-up cuts out every piece. It is not real money.

Name _____ Date _____

Kit page: play money, notes

A grown-up cuts out all 13 notes before the lesson: 5 two-dollar, 4 five-dollar, 3 ten-dollar and 1 fifty-dollar note. This is play money, not real money. There is no twenty-dollar note. Keep it in the envelope with the coins.

Print this page on its own sheet, or on one side only, so cutting never spoils another page. A grown-up cuts; children do not use scissors. Keep the pieces in an envelope with your name. We use them again.

Play money: a grown-up cuts out every piece. It is not real money.
