Copy on the Grid: home practice answers

Name _____ Date _____

For grown-ups. Please let your child try first, then check together. Ask *how do you know?* If your child is stuck, wait 10 seconds, then suggest drawing it.

1. 6 right, 4 up
4 and 2 make 6 right. 1 and 3 make 4 up.

2. 7
There is one fewer step than dots. Count the jumps between the dots: 7.

3. No. 8 steps.
The 9th dot is 8 jumps after the 1st dot, so the line is 8 steps long.

4. 5
Every route has 1 right step and 4 up steps. The right step can be first, second, third, fourth or last: 5 places, so 5 routes.

5. 14
7 + 7 = 14. Two of the same number is a double.
