MATH INQUIRERS HOLIDAY PROGRAM

Weekly Email Pack

Parent and tutor emails for the five weeks of the P3 Ages 9-10 holiday program

Notice it. Test it. Explain why.

How to use this pack

- Send the parent email and the Week N Student Pages PDF the day before the first lesson of that week.
- Send the tutor email with the Week N Tutor Scripts and Answers PDF at least two days before. Tutors only; the answers must not go to parents.
- Put parents in BCC so no one sees another family's email address. Get parents' consent to email before you start (PDPA).
- Replace the words in [square brackets] before sending.
- The PDFs are in the weekly folder (Math_Inquirers_P3_Weekly_PDFs.zip): Week1_Student_Pages.pdf to Week5_Student_Pages.pdf and Week1_Tutor_Scripts_and_Answers.pdf to Week5_Tutor_Scripts_and_Answers.pdf. The Week 1 student PDF also holds the inquiry journal page and all the cut-outs; the Week 5 PDF ends with the certificate.
- The slide deck links in the tutor emails are private to you. Share each deck with the tutor first, or send them the file.

Week 1: Lessons 1 and 2

Parent email

Subject: Math Inquirers P3 Ages 9-10 Week 1: Numbers to 10 000 and Addition and Subtraction

Attachment: Week1_Student_Pages.pdf

Dear parents,

This week our Math Inquirers (Ages 9-10 (finishing P3)) meet two topics, in lessons 1 and 2.

Lesson 1, Number Sleuths (Numbers to 10 000). 4-digit numbers: place value, the greatest and smallest numbers from digit cards, listing every number in order, and number patterns.

Lesson 2, Cryptarithm Crackers (Addition and Subtraction). Missing digits in 4-digit sums, checking subtraction by adding, magic squares and number pyramids.

Your child's workbook pages for this week are attached. Please print them single-sided if you can. Children will work on the pages in class, so there is no need to finish them in advance.

The cut-out pages are at the end of the Week 1 PDF (Digit cards, fraction wall, square grid, right-angle testers, play coins, play notes and $1 coins). Please cut them out and keep them in one envelope; we use them through the program. The inquiry journal page is at the front. This week's lessons use: digit cards.

One thing to try at home (5 minutes): Write four digits on scraps of paper. Ask for the greatest odd number, then the number closest to 5000.

Ask your child: "How do you know you have found them all?" or "How can you check your answer?"

We are not looking for speed. We are looking for a child who can say what they noticed, test it, and explain why. If your child is stuck, please ask "What do you notice?" before you give the answer.

Warm regards,

Week 1: Tutor email

Subject: Math Inquirers P3 Ages 9-10 Week 1 tutor pack: Lessons 1 and 2

Attachments: Week1_Tutor_Scripts_and_Answers.pdf, Week1_Student_Pages.pdf

Hi [tutor name],

Here is your pack for week 1: Number Sleuths; Cryptarithm Crackers.

Attached are the minute-by-minute scripts with answers for both lessons, and the student pages. The slide decks are linked below.

- Lesson 1 deck: https://claude.ai/artifact/75kf81PgcwbhH8w4VDzyMm
- Lesson 2 deck: https://claude.ai/artifact/VHcScDYvDiC55zjthm5Exh

Before the lesson, please:

1. Read both scripts once and try the Challenge questions yourself.
2. Check your materials are ready. Lesson 1: Digit cards 0–9 (two sets per child), a place value mat (Th H T O), mini whiteboards, a 10-sided die or a bag of digit cards 0–9 for the warm-up game. Lesson 2: Digit cards 0–9 (one set per child), mini whiteboards, a printed 3 × 3 grid, counters or small paper squares to move around.
3. After each lesson, tick the Readiness Tracker for each child (four quick ticks) and send me the sheet.

Please do not forward the answer pages to parents.

Thank you,
[Your name]

Week 2: Lessons 3 and 4

Parent email

Subject: Math Inquirers P3 Ages 9-10 Week 2: Tables of 6, 7, 8 and 9 and Word Problems: Bar Models

Attachment: Week2_Student_Pages.pdf

Dear parents,

This week our Math Inquirers (Ages 9-10 (finishing P3)) meet two topics, in lessons 3 and 4.

Lesson 3, Times Table Treasure (Tables of 6, 7, 8 and 9). Patterns inside the 6, 7, 8 and 9 times tables, last-digit patterns, and splitting arrays into facts they know.

Lesson 4, Model Makers (Word Problems: Bar Models). Drawing bar models for part-whole, comparison and before-and-after word problems.

Your child's workbook pages for this week are attached. Please print them single-sided if you can. Children will work on the pages in class, so there is no need to finish them in advance.

No cut-outs are needed this week. Please keep the Week 1 envelope handy.

One thing to try at home (5 minutes): Ask for 7 × 8 split into two easier facts, such as 5 × 8 and 2 × 8.

Ask your child: "What pattern do you notice in the last digits?" or "What stays the same? What changes?"

We are not looking for speed. We are looking for a child who can say what they noticed, test it, and explain why. If your child is stuck, please ask "What do you notice?" before you give the answer.

Warm regards,

Week 2: Tutor email

Subject: Math Inquirers P3 Ages 9-10 Week 2 tutor pack: Lessons 3 and 4

Attachments: Week2_Tutor_Scripts_and_Answers.pdf, Week2_Student_Pages.pdf

Hi [tutor name],

Here is your pack for week 2: Times Table Treasure; Model Makers.

Attached are the minute-by-minute scripts with answers for both lessons, and the student pages. The slide decks are linked below.

- Lesson 3 deck: https://claude.ai/artifact/EPpmS8FEQP8ccugf2VT8cG
- Lesson 4 deck: https://claude.ai/artifact/4hAj3Qr8dXjYRg6b1ynjfi

Before the lesson, please:

1. Read both scripts once and try the Challenge questions yourself.
2. Check your materials are ready. Lesson 3: Multiplication square (1 to 10), dot paper, coloured pencils, a ruler, mini whiteboards. Lesson 4: Multilink cubes (about 30 per pair), strips of squared paper, scissors, mini whiteboards and markers.
3. After each lesson, tick the Readiness Tracker for each child (four quick ticks) and send me the sheet.

Please do not forward the answer pages to parents.

Thank you,
[Your name]

Week 3: Lessons 5 and 6

Parent email

Subject: Math Inquirers P3 Ages 9-10 Week 3: Division and Fractions

Attachment: Week3_Student_Pages.pdf

Dear parents,

This week our Math Inquirers (Ages 9-10 (finishing P3)) meet two topics, in lessons 5 and 6.

Lesson 5, Remainder Riddles (Division). Division with remainders, and deciding what the leftover means in a story (round up or round down).

Lesson 6, Fraction Walls (Fractions). Equivalent fractions with a fraction wall, comparing fractions, and adding parts of the same whole.

Your child's workbook pages for this week are attached. Please print them single-sided if you can. Children will work on the pages in class, so there is no need to finish them in advance.

Please keep the Week 1 envelope handy. This week's lessons use: fraction wall.

One thing to try at home (5 minutes): Ask: 30 people, 4 to a car. How many cars? Why is it not 7?

Ask your child: "What do you do with the leftover here?" or "Are the parts the same size? How do you know?"

We are not looking for speed. We are looking for a child who can say what they noticed, test it, and explain why. If your child is stuck, please ask "What do you notice?" before you give the answer.

Warm regards,

Week 3: Tutor email

Subject: Math Inquirers P3 Ages 9-10 Week 3 tutor pack: Lessons 5 and 6

Attachments: Week3_Tutor_Scripts_and_Answers.pdf, Week3_Student_Pages.pdf

Hi [tutor name],

Here is your pack for week 3: Remainder Riddles; Fraction Walls.

Attached are the minute-by-minute scripts with answers for both lessons, and the student pages. The slide decks are linked below.

- Lesson 5 deck: https://claude.ai/artifact/KvMVxHQP2upk9P4FRwAU6X
- Lesson 6 deck: https://claude.ai/artifact/2uZCFZ5unoWwiuu9ygxVHb

Before the lesson, please:

1. Read both scripts once and try the Challenge questions yourself.
2. Check your materials are ready. Lesson 5: 25 counters per child (or beans or buttons), 6 small cups for groups, mini whiteboards and markers. Lesson 6: The printed fraction strip page (7 strips per child, all the same length, 24 cm), coloured pencils, scissors, mini whiteboards.
3. After each lesson, tick the Readiness Tracker for each child (four quick ticks) and send me the sheet.

Please do not forward the answer pages to parents.

Thank you,
[Your name]

Week 4: Lessons 7 and 8

Parent email

Subject: Math Inquirers P3 Ages 9-10 Week 4: Area and Perimeter and Angles, Perpendicular and Parallel Lines

Attachment: Week4_Student_Pages.pdf

Dear parents,

This week our Math Inquirers (Ages 9-10 (finishing P3)) meet two topics, in lessons 7 and 8.

Lesson 7, Area Architects (Area and Perimeter). Area and perimeter: same perimeter but different area, figures made of rectangles, and listing every rectangle.

Lesson 8, Angle and Line Detectives (Angles, Perpendicular and Parallel Lines). Right angles, counting angles in an organised way, and spotting parallel and perpendicular lines.

Your child's workbook pages for this week are attached. Please print them single-sided if you can. Children will work on the pages in class, so there is no need to finish them in advance.

Please keep the Week 1 envelope handy. This week's lessons use: square grid, right-angle testers.

One thing to try at home (5 minutes): Use 12 square biscuits or tiles. How many different rectangles can your child make? Which has the longest edge?

Ask your child: "Does a bigger area always mean a bigger perimeter?" or "How did you make sure you counted every angle?"

We are not looking for speed. We are looking for a child who can say what they noticed, test it, and explain why. If your child is stuck, please ask "What do you notice?" before you give the answer.

Warm regards,

Week 4: Tutor email

Subject: Math Inquirers P3 Ages 9-10 Week 4 tutor pack: Lessons 7 and 8

Attachments: Week4_Tutor_Scripts_and_Answers.pdf, Week4_Student_Pages.pdf

Hi [tutor name],

Here is your pack for week 4: Area Architects; Angle and Line Detectives.

Attached are the minute-by-minute scripts with answers for both lessons, and the student pages. The slide decks are linked below.

- Lesson 7 deck: https://claude.ai/artifact/DjV95V1tYScipGaA97yXnt
- Lesson 8 deck: https://claude.ai/artifact/LmM7RxkvLjtpu6ysnw76Sf

Before the lesson, please:

1. Read both scripts once and try the Challenge questions yourself.
2. Check your materials are ready. Lesson 7: 12 square tiles (or 12 squares cut from 1 cm grid paper) per child, 1 cm grid paper, mini whiteboards, a ruler. Lesson 8: Scrap paper to fold a right-angle checker, a ruler, mini whiteboards, square grid paper.
3. After each lesson, tick the Readiness Tracker for each child (four quick ticks) and send me the sheet.

Please do not forward the answer pages to parents.

Thank you,
[Your name]

Week 5: Lessons 9 and 10

Parent email

Subject: Math Inquirers P3 Ages 9-10 Week 5: Length, mass, volume, money and time and Mixed puzzles: bar graphs and logic

Attachment: Week5_Student_Pages.pdf

Dear parents,

This week our Math Inquirers (Ages 9-10 (finishing P3)) meet two topics, in lessons 9 and 10.

Lesson 9, Measure and Money Masters (Length, mass, volume, money and time). Changing to one unit (cm, g, ml), budgets with money, durations and the 24-hour clock.

Lesson 10, Challenge Day (Mixed puzzles: bar graphs and logic). Choosing how to start a puzzle: draw it, list it or make a table, plus bar graphs and logic grids.

Your child's workbook pages for this week are attached. Please print them single-sided if you can. Children will work on the pages in class, so there is no need to finish them in advance.

Please keep the Week 1 envelope handy. This week's lessons use: play coins, play notes and $1 coins. The Certificate of Completion is the last page of the Week 5 PDF.

One thing to try at home (5 minutes): Plan a family outing together: how long will each part take, and what time will you be home?

Ask your child: "Did you change everything to the same unit first?" or "How did you start? What would you try next time?"

We are not looking for speed. We are looking for a child who can say what they noticed, test it, and explain why. If your child is stuck, please ask "What do you notice?" before you give the answer.

Warm regards,

Week 5: Tutor email

Subject: Math Inquirers P3 Ages 9-10 Week 5 tutor pack: Lessons 9 and 10

Attachments: Week5_Tutor_Scripts_and_Answers.pdf, Week5_Student_Pages.pdf

Hi [tutor name],

Here is your pack for week 5: Measure and Money Masters; Challenge Day.

Attached are the minute-by-minute scripts with answers for both lessons, and the student pages. The slide decks are linked below.

- Lesson 9 deck: https://claude.ai/artifact/WhCYRFZdEcxj9drXhMRvRM
- Lesson 10 deck: https://claude.ai/artifact/YCJYWkLwMUHGGidM6XFAue

Before the lesson, please:

1. Read both scripts once and try the Challenge questions yourself.
2. Check your materials are ready. Lesson 9: Party menu cards (one per pair), play money, a measuring tape or metre ruler, a kitchen scale and a measuring jug if available, a clock with movable hands, mini whiteboards. Lesson 10: Puzzle cards for 2 stations (list, measure), digit cards 0 to 9 (or paper cards), squared paper, mini whiteboards, certificates, stamps.
3. After each lesson, tick the Readiness Tracker for each child (four quick ticks) and send me the sheet.

Please do not forward the answer pages to parents.

Thank you,
[Your name]

Week 5 closing email to parents

Subject: Math Inquirers P3 Ages 9-10: thank you, and your child's certificate

Dear parents,

Thank you for joining us for the Math Inquirers Holiday Program (Ages 9-10 (finishing P3)). Your child's Certificate of Completion is the last page of the Week 5 PDF. Please print it and add your child's name.

We would love your feedback in two minutes: [feedback form link]. What did your child enjoy most? What should we change?

If your child showed a love for puzzles, we may invite them to a short challenge session in the next holiday. We will contact you if so.

Warm regards,
[Your name]
