Math Inquirers: Level 4 report

Child	_____	**Level / group**	Level 4 / _____
Dates	_____ to _____	**Lessons joined live**	_____ of 10 (+ recordings: ____)
Tutor	_____	**Date of report**	_____

The 10 lessons: 1. Factor Hunters (Factors and multiples) · 2. Big Number Puzzles (Numbers to 100 000) · 3. Operation Detectives (Four operations) · 4. Fraction Frontier (Fractions) · 5. Decimal Detectives (Decimals) · 6. Angle Turns (Angles) · 7. Area Architects II (Area and Perimeter) · 8. Symmetry and Nets (Symmetry and Nets) · 9. Data Detectives (Tables and line graphs) · 10. Puzzle Day (Mixed heuristics)

What we did

Topics are listed above. In two or three sentences: the big ideas this child worked on, and one moment worth remembering.

Strengths we saw

Two or three specific things, in plain words (for example 'explained why a pattern keeps going', 'kept trying after a wrong turn').

A next step

One thing to grow, framed kindly and doable (for example 'check an answer by working it backwards').

Recommended level for next

[ ] Continue at Level 4 in the term program [ ] Move up to Level 5 [ ] Talk to us first (we will call or WhatsApp)
Why, in a sentence: _____

Practice ideas for home

Two or three short ideas for 10 minutes, a few times a week: games, puzzles, everyday maths. No scores needed.

No scores, marks, grades or ranking appear on this report, and we do not compare children. Prepared from the tutor's own observations during the program.
