Math Inquirers: Level 5 report

Child	_____	**Level / group**	Level 5 / _____
Dates	_____ to _____	**Lessons joined live**	_____ of 10 (+ recordings: ____)
Tutor	_____	**Date of report**	_____

The 10 lessons: 1. Million Puzzles (Numbers to 10 Million) · 2. Fraction Feats (Fractions: Four Operations) · 3. Before and After (Fraction Word Problems) · 4. Triangle Areas (Area of Triangle) · 5. Volume Vault (Volume) · 6. Rate Racers (Rate) · 7. Percentage Puzzles (Percentage) · 8. Angle Chasers (Angles, Triangles and Quadrilaterals) · 9. Pattern Generalisers (Patterns and Number Sense) · 10. Challenge Day (Mixed Strategies)

What we did

Topics are listed above. In two or three sentences: the big ideas this child worked on, and one moment worth remembering.

Strengths we saw

Two or three specific things, in plain words (for example 'explained why a pattern keeps going', 'kept trying after a wrong turn').

A next step

One thing to grow, framed kindly and doable (for example 'check an answer by working it backwards').

Recommended level for next

Why, in a sentence: _____

Practice ideas for home

Two or three short ideas for 10 minutes, a few times a week: games, puzzles, everyday maths. No scores needed.

No scores, marks, grades or ranking appear on this report, and we do not compare children. Prepared from the tutor's own observations during the program.
