Early Finisher Puzzles, Primary 1

School summary

What it is

Single-page maths puzzles for Primary 1 pupils who finish their work early. Each page stands alone and checks itself: the pupil looks up answers in a code table and the letters spell a word, or the pupil follows a route or closes a loop. The check shows that something is wrong; it does not give the answer. No marking is needed.

Syllabus

The puzzles practise outcomes listed in the Ministry's Primary Mathematics Syllabus. The teacher answer key names the outcomes each page practises, for your planning.

What is in a booklet

- Two booklets per level: Semester 1 (Terms 1 and 2) and Semester 2 (Terms 3 and 4), 20 pages each.
- One-star and two-star pages in about equal numbers (Semester 1: 10 and 10; Semester 2: 9 and 11). One star: one skill, as usually taught. Two stars: two steps or two clues to combine.
- Self-checking pages, a teacher answer key and teacher notes.
- Black and white, A4, one side per page, made for photocopying.

Licence

An annual licence for a single school: it covers one school year and is renewable. The school may photocopy the pages for its own pupils and staff. The licence wording is a draft and is not final.

Trial or quote

Email **pypteltd@gmail.com** to ask for a trial copy or a quote for your school. A 4-page sampler is available on request.

Levels

Primary 1 is described above. Primary 2 is in preparation.
